The roads were derived from the 2011 Wisconsin Local Roads (WisLR) layer and statewide inventories of railroads and airports.

The water feature layers contain hydrogaphy data from 1:24,000 scale sources. The data includes features represented on the US Geological Survey's 1:24,000 scale topographic map series.

The PLSS lines for Waukesha County were derived from a subset of the Wisconsin DNR's 'Landnet' database, automated from 1:24,000 scale sources, and county data compiled from municipal boundary mapping.

Waukesha County
Flood Storage District
Panel 3 of 12

Waukesha County
City of Pewaukee
Villages of Merton, Pewaukee and Sussex

Modeled with Wetland Storage
