What is a crisis?

Wisconsin DHS 34 defines a crisis as a situation caused by an individual's apparent mental disorder which results in a high level of stress or anxiety for the individual or persons providing care for the individual or the public which cannot be resolved by the available coping methods of the individual or by the efforts of those providing ordinary care or support for the individual.

- Mobile assessment
 - Suicide assessment
 - Other risk assessment
- Safety planning
- Crisis de-escalation
- Phone support
- Information & referrals
- Community education
- Crisis planning
- Screening for involuntary court intervention

WCDHHS Crisis Intervention Services uses the least restrictive means necessary to ensure safety & wellbeing of persons experiencing a crisis.

It is the goal of Crisis Intervention to provide a thorough risk assessment for safety concerns related to mental health issues or inability to care for self due to age, illness, or disability. Crisis services are available to persons of all ages. Services are voluntary unless situation presents with substantial probability of physical harm to self or others.
