BIRD SEED SALE

Save 25% Off the Regular Prices
thru October 29
Order Early—Limited Supply

ITEM	DESCRIPTION	SIZE	REG. PRICE Includes	SALE PRICE Sales Tax
CRACKED CORN	Cracked corn is a good staple when mixed with other seeds. It is well received by juncos and White-Throated Sparrows. For an economical mix, create your own custom blend with cracked corn and sunflower.	50 LB.	\$12.50	\$9.50
NIGER (THISTLE SEED)	Goldfinches are partial to this tiny black seed, often referred to a Thistle seed. This seed, imported from India, is much smaller than other seeds. Therefore, a pound of Niger goes much further than other larger seed and is usually fed from a special feeder to prevent waste.	10 LB. 25 LB.	\$12.75 \$30.50	\$10.00 \$23.00
SAFFLOWER	This light-colored seed is a special favorite with Cardinals. A variety of other desirable, native birds also eat it, but Grackles, other Blackbirds and squirrels do not seem to like it.	25 LB.	\$23.75	\$18.00
SUNFLOWER MEATS	These tiny pieces are finely broken meats without any shells. They can be mixed with Niger, or substituted fro Niger to create a more economical mix.	25 LB	\$27.00	\$20.00
SUNFLOWER SEED	This small, black seed, called paradovic sunflower seed, is a high, oil-bearing seed, which is an important source of calories for winter survival. Sunflower seed is very popular with Jays, Cardinals, Chickadees, and Nut-hatches,. Goldfinches, Purple Finches, Crossbills, and Grosbeaks are also partial to sunflower.	50 LB.	\$25.50	\$19.00
WILD BIRD MIX	The recipe for this exceptional quality mix with a high percentage of sunflower seed is 25% sunflower seed, 40% white millet, and 35% cracked corn. Studies indicated that these ingredients are consistently appealing to birds. This recipe eliminates filler seeds as rolled oats, canary seed and milo.	50 LB.	\$20.00	\$15.00
