

OPERATING REVENUES PER CAPITA

Operating revenue per capita shows how revenues are changing relative to changes in the levels of population. Revenues include general fund, special revenue and debt service funds. Revenue sources include tax levy, intergovernmental revenues, charges for services, fines/forfeitures and licenses/permits. Total revenues are adjusted for inflation with the base year being 1982-1984 average. Contributing to increases are State Medicaid Waiver programs which fund community base care for persons diverted from nursing home or other institutional care. In 2004, almost \$3.0 million of new State Federal revenues are shifted to the County for the transfer of Autism Services program from State provided to County provided services. A similar shift occurs in 2005 along with \$3.7 million for disabled individuals at Intermediate Care Facilities. In 2008, revenues are reduced for the transition to the State Family Care program with \$8.3 million for client's care no longer provided by the County but now provided by State contracts to two Managed Care organizations. Another \$15 million reduction occurs in 2009, completing the transition. Revenue reduction in 2009 also include lower estimated interest earned on investments of \$2.9 million.
