

## EMPLOYEES PER 1,000 POPULATION

The number of employees reflect the number of budgeted regular full-time and regular part-time positions stated in full time equivalents for each year. Since personnel costs represent a significant portion of the County's operating budget, changes in the number of employees in relation to the population of the County provide another means of assessing the growth in County operations. Increases or decreases may indicate changes in the productivity of employees. New positions in 2004 were created for the new Communications Center operations. In 2005 and 2006, the majority of the almost 37 net new positions were created for the opening of the new justice facility expansion, and additional full time equivalent positions associated with the full year impact of the Communications Center. In 2010, a net increase of 2.75 FTE budgeted regular positions was mainly due to the creation of 18 FTE positions in the Sheriff's Department as part of a new police services contract with the City of Pewaukee. The County offset this growth with positions reductions in other functional areas, resulting in a stable lower level of positions compared to population changes.
