

OPERATING REVENUES PER CAPITA

Operating revenue per capita shows how revenues are changing relative to changes in the levels of population. Revenues include general fund, special revenue and debt service funds. Revenue sources include tax levy, intergovernmental revenues, charges for services, fines/forfeitures and licenses/permits. Total revenues are adjusted for inflation with the base year being 1982-1984 average. In the earlier years of the ten year period, State revenue increases have slowed along with more controlled growth in tax levy. In recent years, investment income includes significant increases and decreases due to GASB Statement #31 which requires that investments be recorded at market, rather than cost. Most market unrealized gains and losses will not be realized since most securities are not sold prior to maturity or proximate life of the security. Also contributing to increases are State Medicaid Waiver programs which fund community base care for persons diverted from nursing home or other institutional care. In 2004, almost \$3.0 million of new State Federal revenues are shifted to the County for the transfer of Autism Services program from State provided to County provided services. A similar shift occurs in 2005 along with \$3.7 million for disabled individuals at Intermediate Care Facilities. In 2008, revenues are reduced for the transition to the State Family Care program with \$8.3 million for client's care no longer provided by the County but now provided by State contracts to two Managed Care organizations.

<u>Year</u>	<u>Oper. Revenues With Tax Levy</u>	<u>W.C. Property Tax Levy</u>	<u>Index</u>	<u>Revenues Base Year</u>	<u>Population</u>	<u>Per Capita</u>
1999	\$143,300,986	\$61,744,041	163.7	\$87,538,782	350,273	\$250
