**FOR IMMEDIATE RELEASE** – April 14, 2004

*NOTE: A fact sheet about the project is included with this press release*

## **Airport holds open house**

MADISON, WI ... A public open house will be held to discuss the Environmental Assessment being prepared for the Waukesha County Airport on April 28 from 6:30 to 8 PM at the Waukesha Expo Center.

An Environmental Assessment is being prepared in accordance with the National Environmental Policy Act to evaluate alternatives to bring the airport's primary runway safety area into compliance with Federal Aviation Administration safety criteria.

The open house will allow the public to drop in and view exhibits illustrating the study to date. In addition, representatives from the firm conducting the study (Mead & Hunt, Inc), the Wisconsin Bureau of Aeronautics, and the airport will be there to answer questions and seek input from the public.

The next step will be to evaluate the various design alternatives to meet Federal Aviation Administration safety standards while considering the environmental impacts and input from the community.
