**STAFF REPORT AND RECOMMENDATION**  
**ZONING MAP AMENDMENT**

**FILE NO.:** SCZ-1450

**TAX KE NO.:** GNT 1542.999

**DATE:** June 19, 2003

**PETITIONER:** Frank Schimpf  
S & R Compost Inc.  
S46 W29639 Genesee Road  
Waukesha, WI 53189

**LOCATION:**

Part of the SE ¼ of Section 23 and the N ½ of Section 26, T6N, R18E, Town of Genesee, more specifically located on the south side of S.T.H. 59, approximately ½ mile west of its intersection with Hillside Road, containing an approximate 82-acre parcel, of which only a portion is proposed to be rezoned.

**PRESENT ZONING:**

B-1 Restricted Business District, with an Agricultural Overlay and C-1 Conservancy District (not proposed to be rezoned).

**PRESENT LAND USE:**

Chicken farm, compost and topsoil processing operation, truck repair, retail landscaping business and two (2) three-family units.

**PROPOSED ZONING:**

M-1 Limited Industrial District. (The Town of Genesee chose not to rezone all of the B-1 (A-O) area to the M-1 District, only a portion and removed the A-1 Overlay from the remaining B-1 area.

**PROPOSED LAND USE:**

To legalize the S & R Compost operation, which includes composting, topsoil processing and screening, and continue the use of the two, three-family units and the chicken farm operation, retail sales of bark and landscape material and a truck repair business.

**PUBLIC HEARING DATE:**

March 27, 2003.

**PUBLIC REACTION:**

Residents in the area complained of gravel and sand being dumped on the road; stockpiling of the material too close to Genesee Creek; why permissive zoning was being allowed; opposed to the screening grinder and retail operation and the hours of operation.

**TOWN PLAN COMMISSION ACTION:**

The Town of Genesee Plan Commission, at their May 29, 2003 meeting, voted to recommend to the Town Board approval of the amendment subject to a number of conditions outlined in Exhibit "A".

5.

**TOWN BOARD ACTION:**

The Town of Genesee Board, at their June 9, 2003 meeting, voted to approve the rezoning request in accordance with the recommendations of the Plan Commission.

**COMPLIANCE WITH THE WAUKESHA COUNTY DEVELOPMENT PLAN:**

The County Development Plan designates the area in the Industrial and Primary Environmental Corridor categories. The proposed change is consistent with the Waukesha County Development Plan.

**OTHER CONSIDERATIONS:**

The petitioner owns an approximate 82-acre parcel of which all but approximately 23.4 acres is within the 100-Year Floodplain/conservancy and wetlands. The property contains numerous out buildings and chicken barns, which are used for truck repair, offices, the chicken farm operation, and two (2) structures containing apartments that are located adjacent to S.T.H. 59. The rezoning as approved by the Town, rezones the area from the B-1 Business District with an A-O Agricultural Overlay, to the B-1 Restricted Business District without the A-O Overlay District, in the area that contains the two (2) residential structures and four (4) of the out buildings on the east and west portions of the property. The area which is proposed to be rezoned from the B-1 Business District with an A-O Agricultural Overlay, to the M-1 Limited Industrial District, is the central portion of the area adjacent to S.T.H. 59 and contains the landscaping bins, the office/truck repair structure, and the areas of the topsoil processing operation and stockpiles (see Exhibit "B"). It should be noted this property is the subject of a violation on which the Planning and Zoning Division Staff received a complaint in May 2002, as the applicant was processing topsoil, running a landscaping business, and commercial trucks were being parked and repaired on the subject site, all in violation of the B-1 Business category.

The subject property has multiple uses, including the chicken farm operation that raises chickens from one day old to 18 weeks old, and then moved to another operation in Jefferson County. The S & R Compost operation includes community compost contracts, topsoil processing and screening, and provides retail and wholesale bark and landscape material. The landscaping business also consists of mulch and bark stockpiles, which includes the processing of the material. The two stockpiled material areas are on the southerly-most upland portion of the property and are close to the 100-Year Floodplain and wetlands. According to discussions at the public hearing and the plan, there is a 2 ft. high berm proposed around the topsoil stockpile processing area to prohibit any erosion or sedimentation into the wetlands and floodplain adjacent to the Genesee Creek. However, it does not appear that any such berm or buffer is around the mulch/bark stockpiled material. There is also a trucking operation on the subject property, which is involved with truck repair and commercial hauling. Because of the sites proximity to the creek and associated wetlands and floodplain, the DNR may require a permit for the operation. The Planning and Zoning Division Staff has also been working with the owner and his attorney over the past few months to correct the junk material violation.

**STAFF RECOMMENDATION:**

It is the opinion of the Planning and Zoning Division Staff this request be approved subject to the following conditions:

1. Prior to the rezoning becoming effective, the petitioner must present documentation to the Town Planner and the Waukesha County Department of Parks and Land Use, Planning and Zoning Division Staff that all necessary permits have been obtained from the Wisconsin Department of Natural Resources.

2. Subject to all lands on the subject property that are designated as wetlands or within the 100-Year Floodplain shall be rezoned to the C-1 Conservancy District.
3. Subject to the zoning district classifications being amended or modified so that the zoning district designation shall be as shown on the attached map (Exhibit "B") that is incorporated herein by reference.
4. Subject to the petitioner submitting and receiving approval from the Town of Genesee Plan Commission and the Waukesha County Department of Parks and Land Use a detailed Site Plan/Plan of Operation. The Site Plan/Plan of Operation shall include but not be limited to a Grading Plan, Landscaping Plan, Parking Plan, Lighting Plan, Signage and Waste Disposal Plan, and such plans as the Town of Genesee and the Waukesha County Departments of Parks and Land Use may require.
5. Subject to the property, and all structures on the property, being in compliance with all Federal, State, County and local laws, Ordinances, Codes, rules and regulations.
6. Subject to the petitioner submitting to and receiving approval from the Waukesha County Department of Parks and Land Use, Land Resources Division, a permit for Erosion Control Stormwater Management Plan prior to the zoning amendment taking affect.
7. Subject to the petitioner submitting to and receiving approval from the Town Attorney and the Waukesha County Department of Parks and Land Use, Planning and Zoning Division Staff, a Deed Restriction imposing a 75 ft. undisturbed buffer between the wetlands and floodplain and any structure and/or storage area on the subject property. The Deed Restriction shall indicate that there shall be no storage or maneuvering of equipment in said buffer area, including but not limited to the storage of mulch and/or bark and/or topsoil. The Deed Restriction shall authorize the Town of Genesee or the Waukesha County Department of Parks and Land Use, Planning and Zoning Division Staff, to inspect the property to ensure compliance with this restriction and authorize the Town and/or County to enforce the restriction. The approved form of the Deed Restriction shall be recorded against the subject property prior to the zoning amendment taking affect.
8. Subject to the wetlands previously identified by Alice Thompson being marked with a semi-permanent visible marking every 50 ft. to ensure that no encroachments or maintenance of trucks or equipment and/or materials does not occur within 75 ft. of said wetland.
9. Subject to the petitioner submitting to the Town of Genesee Planner and the Waukesha County Department of Parks and Land Use, Planning and Zoning Division Staff, written approval from the Wisconsin Department of Transportation that all access points for ingress and egress from the subject property onto S.T.H. 59 have been approved, and all conditions of said approval are complied with. Such approval and satisfaction of any and all conditions of approval imposed by the Wisconsin Department of Transportation shall be complied with prior to the rezoning taking effect.
10. Subject to all signs on the subject property being in compliance with the Waukesha County Zoning Code and also in compliance with the Waukesha County Shoreland and Floodland Protection Ordinance where applicable.

158-0-037

11. As a condition precedent to the conditional rezoning taking effect, the property owner shall accept all of the foregoing conditions of approval in writing.
12. Subject to all conditions of the rezoning being complied with no later than September 1, 2003, unless extended by the Town of Genesee Plan Commission and the Waukesha County Park and Plan Commission upon showing of cause.
13. In the case of any questions as to whether the conditions of this Ordinance have been met, the Town and County shall hold a public hearing to make a finding to determine compliance with the terms of this Ordinance and the need for any enforcement action.

As approved and conditioned, it is felt that the rezoning request will be consistent with the Waukesha County Development Plan in the Industrial category, and will not be detrimental to the wetland or the floodplain or the Genesee Creek.

Respectfully submitted,
