

RCA  
DVD player/composite

HDMI cable  
(Audio & Video on same  
cable). Laptops with  
HDMI outputs or Blu-ray  
players

1/8" audio  
(portable audio devices)

VGA (video)  
laptop

If you want to play both audio and video on your laptop - you will need to use the 1/8" audio and VGA cable – unless you are using the HDMI cable.
