

Stone Harbor Waterworks

This rainbarrel offers generous 50 gallon water saving capacity with dual spigot access ports to accommodate user preferences, quad overflow connections for dispersing water effectively to drainage or irrigation, a recessed top that prevents splashing or spilling and a "downpour overflow channel" to manage flash storms. Order online at www.stoneharborgarden.com Price is \$89.99 + 19.99 shipping and handling.

SolaRain™

SolaRain™ rain barrels are recycled 55-gallon plastic food grade barrels. They come with large screw-off tops with a mesh covering to allow rain water to enter the barrel, but not bugs and debris. They also have a 3/4"-inch valve near the bottom and an overflow fitting at the top connected to a plastic discharge hose. Barrels can be painted or decorated by the owner. Price: \$50/unpainted barrel or \$70/painted barrel Contact them at solarain@wi.rr.com. Visit them on the web at www.solarain.net

Waukesha School District

Food grade plastic barrels have an overflow and brass spigot. Screening on top keeps mosquitoes out. Price range: \$50 to \$70 / Barrel To order, contact Joe Smogor at 262-970-4333 or e-mail at smogor.j@waukesha.k12.wi.us

Milwaukee Metro Sewerage District

These 55 gallon food grade barrels come with a flexible elbow that connects to your downspout, a spigot that will fit any normal size garden hose, and an overflow spout. Order barrels on-line at <http://v3.mmsd.com> Price: \$45/barrel

Rain Barrel Care and Installation

- 💧 Raise the barrel up on cinder blocks or a stand to increase the pressure.
- 💧 Make sure that overflow from the barrel is directed away from your house.
- 💧 Consider planting a rain garden at the base of your overflow to capture runoff. Visit www.waukesha.gov/cleanwater for more information about rain gardens.
- 💧 Disconnect the barrels in the winter and turn them upside down or bring them in for the winter. If your downspout has been cut off for the barrel, be sure to add an extension hose for the winter.

Wisconsin Water Conservation Coalition

Rain Barrel Project

- 💧 Stores rainwater for later use
- 💧 Reduces runoff to help our rivers and streams
- 💧 Reduces pumping of groundwater for watering plants
- 💧 Saves you money by saving water
- 💧 Naturally soft water is great for watering plants and washing windows or cars
- 💧 Many local sources of barrels
