

## Form A - Seasonal High Groundwater Determination Report

Project/Plat Name: \_\_\_\_\_ Date: \_\_\_\_\_

Project Location (PLS/CSM#): \_\_\_\_\_

The following table summarizes my interpretation of the soil profile evaluations conducted on the above noted site. The purpose of this report is to demonstrate compliance with a Waukesha County ordinance requirement to maintain basement floor elevations at least 1 foot above the seasonal high water table. I understand that the definition for seasonal high water table means the upper limit of the zone of soil saturation caused by underlying groundwater at its highest level. I certify that the information presented in this report represents my best professional judgment in estimating seasonal high water table based on soil and site evaluations in accordance with the procedures contained in Chapter COMM 85 Wisconsin Administrative Code.
