Regular Prices thru October 31
Order EARLY - Limited Supply

ITEM	Order EARLY! Limited Supply	DESCRIPTION	SIZE	REG. PRICE <small>Includes Sales Tax</small>	SALE PRICE
WILD BIRD MIX		The recipe for this exceptional quality mix with a high percentage of sunflower seed is 25% sunflower seed, 40% white millet, and 35% cracked corn. Studies indicate that these ingredients are consistently appealing to birds. This recipe eliminates filler seeds such as rolled oats, canary seed, and milo.	50 LB.	\$30.75	\$23.00
SUNFLOWER SEED		This small, black seed, called paradovic sunflower seed, is a high, oil-bearing seed, which is an important source of calories for winter survival. Sunflower seed is very popular with Jays, Cardinals, Chickadees, and Nuthatches. Goldfinches, Purple Finches, Crossbills, and Grosbeaks are also partial to sunflower.	50 LB.	\$36.50	\$27.35
CRACKED CORN		Cracked corn is a good staple when mixed with other seeds. It is well received by Juncos and White-throated Sparrows. For an economical mix, create your own custom blend with cracked corn and sunflower.	50 LB.	\$17.75	\$13.30
SUNFLOWER MEATS		These tiny pieces are finely broken meats without any shells. They can be mixed with Niger, or substituted for Niger to create a more economical mix.	25 LB.	\$26.80	\$15.75
NIGER (THISTLE SEED)		Goldfinches are partial to this tiny black seed, often referred to as Thistle Seed. This seed, imported from India, is much smaller than other seeds. Therefore, a pound of Niger goes much further than other larger seeds and is usually fed from a special feeder to prevent waste.	25 LB. 10 LB.	\$30.00 \$12.35	\$22.50 \$9.25
SAFFLOWER		This light-colored seed is a special favorite with Cardinals. A variety of other desirable, native birds also eat it, but Grackles, other Blackbirds, and squirrels do not seem to like it.	25 LB.	\$24.00	\$18.00

Staff and volunteers will carry and load your seed!
