

## Construction & Demolition Recycling Training Program

Nationwide, construction waste recycling is becoming a required part of sustainable building. Those who know how to meet this demand will be at a market advantage.

**Join this USGBC Education Provider Program** for training in construction and demolition waste recycling. The course is taught by WasteCap Resource Solutions, a nationally-known waste reduction training specialist with extensive in-the-field experience in construction and demolition waste reduction.

This day-long training will give you the skills to develop, manage, monitor, document and promote a successful recycling program for construction and demolition debris. Participants receive a three year Accreditation in Construction Waste Recycling.

### Upcoming Courses

---
