

Rain Garden Grant Information

Through a grant from the Graham-Martin Foundation, Waukesha County is able to offer native plants for rain garden planting at 50% of the cost. The plants come in 3" pots and normally sell for \$3.60 per plant. The plants may be purchased at \$1.80 per plant through this grant program.

There will be a program regarding this opportunity on January 23rd at 7:00 pm at Retzer Nature Center located at S14 W28167 Madison St. If you are unfamiliar with rain gardens, you may attend a short informational power point presentation. If you have already attended a program, you may go straight into the ordering room. There will be master gardeners available to answer your questions about plant selection and staff on hand to help you with sizing and placement questions. All orders must be turned in by February 1, 2008. The pick up date for the plants will be set for June. We will notify you of the delivery date at least one week in advance.

If you would like to attend this program, please call 896-8305 to register. The program is free, but registration would be appreciated. Or you may e-mail your registration to jjenks@waukeshacounty.gov
