ACTIVITY COMPANION (HIGHLANDER) (Tactile tablecloths)

Provider: *THE ALZHEIMERS STORE*

Number of Copies: 2 **Resource Library Ref:** 442

Activity Companion

For those just a hankerin' to do stuff, these clever table cloths, full of tactile and interesting features to fiddle with, are just the thing.

The Activity Companion was designed by professionals caring for people with dementia to help reduce boredom, loneliness and frustration. And it worked.

Often people with AD just need something to do --something that is interesting and easily understood. Restlessness is soon replaced with calming, more rewarding activity.

The Activity Companion offers strips of yarn, buckles, and pockets with easy-to-open flaps. It attaches to a table or tray with wrap-around velcroed straps and boasts three designs: Springtime, My Horse, and Highlander. They come all the way from Australia and make a very unique, special gift that will provide many hours of pleasure.

Highlander

The Highlander is especially popular among men. It features a beige background with Scottish plaid and forest green pockets. Tassels, pockets, buckles and metal rings offer items to work and fidget with. It brings out a little bit o' the Scotsman in everyone!

ACTIVITY COMPANION (MY HORSE) (Tactile tablecloths)

Provider: *THE ALZHEIMERS STORE*

Number of Copies: 2 **Resource Library Ref:** 440

They come all the way from Australia and make a very unique, special gift that will provide many hours of pleasure.

My Horse

You don't have to know a horse or own a horse to enjoy My Horse. This is a real conversation piece, featuring a large tactile horse with plenty of yarn tassels, a burlap feed bag, and first prize blue, red, yellow and white ribbons.

They come all the way from Australia and make a very unique, special gift that will provide many hours of pleasure.

Springtime

The Springtime design has an olive green background with soft, pastel pink ribbons and frills, pockets and bows, tassels and buckles. Two laced pockets offer places to search, open and close, or just store something inside. Very feminine, The Springtime design is a beautiful way to start any day.

AEROBICS FOR THE MIND FLASH CARDS

Provider: *THE ALZHEIMERS STORE*

Number of Copies: 5 **Resource Library Ref:** 444

Research clearly indicates that keeping the mind active helps preserve memory. You can watch TV, but after The Weakest Link, Jeopardy and Wheel of Fortune, what's left? Well, here are a set of 100 exercises for the brain that are all unique, different and interesting.

Aerobics for the Mind is a set of 100 cards, each with its own exercise in mental fitness. The cards are not Trivial Pursuit, they offer reasonable, do-able mental exercises that stimulate memory and neurons. We recommend that you select one card each day and follow the instructions. You'll find yourself talking about new and interesting topics, creating new goals, playing word games, and much, much more.

ALZHEIMER'S ACTIVITIES BOOK

Provider: *AGELESS DESIGN, INC*

Number of Copies: 1 **Resource Library Ref:** 958

Alzheimer's Activities is a comprehensive book containing an incredible compilation of creative activities and information that will benefit both caregivers and loved ones with AD. It has suggestions for everyday and special occasions that stimulate conversation and trigger memories, perhaps thought to be long forgotten.

Topics include lifetime experiences, U.S. holidays, religious holidays, and even inventions. Examples of activities include searching thru catalogues, bathing the family pet, going to a park to watch children play, talking about superior officers for those who served in the military, etc. Activities are appropriate for both men and women, and those experiencing different stages of the disease.

AROMATHERAPY BEAR

Provider: *NASCO*

Number of Copies: 1 **Resource Library Ref:** 1007

Teddy Warmheart® Aromatherapy Bear

This little fellow not only warms your heart but returns your affections with a gentle radiating warmth that lasts up to four hours and the relaxing fragrance of Lavender. Lavender is a natural herb known for its medicinal qualities of calming nerves, relieving tension, and soothing the soul. Just place Teddy in the microwave for no more than 50 seconds in his "sleeping bag" (included) and he'll provide cuddly, soothing, aromatic warmth for hours with no batteries, wires, or harmful chemicals. Teddy's soft, environmentally-safe and nontoxic clay "heart" will only warm to a predetermined temperature, making him safe to be cuddled by everyone (unlike many other microwave-heated substances). First developed for hospital use, Teddy is hypoallergenic, nontoxic, and will not implode, explode, or be a fire hazard in any way in the microwave. Testing in dementia settings has proven Teddy Warmheart® to be effective in addressing behaviors such as tearfulness, restlessness, wandering, rocking motion, rummaging, and sleeplessness.

CRAFT & MEALTIME CLOTHING PROTECTOR

Provider: AGELESS DESIGN, INC

Number of Copies: 1 **Resource Library Ref:** 959

Here's a colorful, attractive, dignified way to protect clothing from spills and paints. This large, waterproof clothing protector boasts a plentiful size of 18" x 36" - one size fits all.

Product Features:

- Colors: Floral, Light blue

- Materials:

Surface: 65/35 polyester rayon

Backing: 100% vinyl backed polyester

- Their total chest coverage prevents stained clothing or scalding from hot liquids. Men's and women's protectors are offered in dignified and attractive prints with coordinated all around binding.

- Absorbent and waterproof to keep clothing clean & dry

- Coordinated all-around binding

- Complete protection against spills & scalding

- Total chest and lap protection while seated or in bed

- Comfortable, adjustable fit

What we like best about this product is how wonderfully Craft and Mealtime Clothing Protectors work. Providing total chest coverage prevents stained clothing or scalding from hot liquids, yet still offering dignity and protection of valuable clothing - not to mention unnecessary trips to the laundry or washing

DIAL-LESS TELEPHONE

Provider: *THE ALZHEIMERS STORE*

Number of Copies: 1 **Resource Library Ref:** 453

The Dial-less Telephone

For those whose intentions are good, but may call at inappropriate hours or continuously, the dial-less telephone let's your loved one receive calls, but not call out.

At the request of numerous caregivers whose loved ones with AD call them over and over or throughout the night, the dial-less telephone provides a sensitive response to a delicate issue. It looks like a regular telephone, yet has no numbers to dial.

Recommended only for those living in residences where alternative measures are available for real emergencies

What we like best about this product:

The dial-less telephone provides a humane answer to a problem often faced by families of loved ones with AD. The dial-less telephone provides an alternative to families whose loved one may unknowingly call over and over or at inappropriate times of the night.

DOOR & WINDOW ALARM

FLOOD ALARM

Provider:

Number of Copies: 1 **Resource Library Ref:** 1057

This battery-operated water-sensing FLOOD ALARM will sound a loud alert as soon as it comes in contact with water. Requires one 9-volt battery.

May be used in the bathroom, kitchen, laundry room or any area that may flood.

For the bathroom it can be attached to the wall behind the toilet, allowing the flexible probe to extend to the floor where a puddle would normally form. If and when the sensor comes in contact with water on the floor the Flood Alarm emits a loud, high pitch tone. It is portable, operates on 9 volt batteries and has a low battery warning.

What we like best about this product:

Alzheimer's imposes unique dangers and often it is hard to find products that help. The Flood Alarm silently stands guard in the bathroom ready to alert you to any catastrophe that results in water accumulating on the floor.

NO START" CAR DISCONNECT" SWITCH

Provider: *THE ALZHEIMERS STORE*

Number of Copies: 5 **Resource Library Ref:** 437

No Start Car Battery Switch

Prevent your loved one from driving the car! Convincing a person with Alzheimer's that it is unsafe to drive is often a challenging task. Here's an easy-to-install device that attaches to the car battery and allows you to disable the car (making it impossible to start).

Convincing a loved one with Alzheimer's disease that it is unsafe to drive is often a challenging task. Here's an easy-to-install device that attaches to the car battery and allows you to disable the car (making it impossible to start) with the turn of a knob.

The "No Start" Car Disconnect Switch attaches to your car battery. The car's battery cable then attaches to it (very simple - I installed it myself on my car in only five minutes!). To disable your car, turn the green knob one quarter turn. To start the car again (and drive it), just turn it the other way to tighten it. Best of all -- the "No Start" Car Disconnect Switch is fused so you will not lose the clock, radio and computer settings.

What we like best about this product:

It is the answer to what so many families and caregivers are looking for – a safe, simple, effective way to disable the car, that is just as easy to "enable" -- if you know the secret. And no wires or expensive installation, plus the "No Start" Car Disconnect Switch allows just enough juice to preserve all your radio, temperature and clock settings.

Features:

-•20 amp fuse (to preserve clock, radio and computer settings)
-•Works on 12 or 24 volt batteries, up to 135 amps
-•Only one needed (fits on the NEGATIVE battery terminal)

PERSONAL REMINDER RECORDER WITH LANYARD

Provider: *THE ALZHEIMERS STORE*

Number of Copies: 1 **Resource Library Ref:** 467

The Medication Reminder Wristwatch was designed by a daughter concerned that her mother kept missing medication times. It's perfect for the person with early AD or the caregiver. Once the times are set, they work day after day.

Product Features:

Colors: Silver or Black

Optional neck band to wear as a necklace

Up to 12 setting per day

Snooze features with reminder every 3 minutes until turned off

Stored medical information for:

Your name and phone number

Medical conditions (i.e. diabetic, pacemaker, hemophiliac, etc.) Allergies (i.e. penicillin, bee stings, peanuts, etc.)

Current medications

Doctor's name and phone number

Blood type

Date of birth

Health insurance company and phone number

Health insurance policy number

Social Security number

With thousands of Medication Reminder Watches sold, most say, "It's the best medication reminder on the market today."

What we like best about this product:

Most alarm watches have only one alarm setting, this one has twelve!

PILL PULVERIZER

Provider: *THE ALZHEIMERS STORE*

Number of Copies: 5 **Resource Library Ref:** 468

The Pill "Pulverizer"

Turn any crush-able pill into a fine, fine powder. Add it to some delicious pudding, yogurt or apple sauce and swallowing pills is no longer a problem.

Often, people with Alzheimer's have difficulty taking pills. One solution that caregivers have come up with is to crush the pills and add them to apple sauce, pudding, yogurt or some other thick, sweet dish.

The Pill "Pulverizer" is easy-to-use and effective. Unscrew the cap, drop the pill in, and tighten the cap. One turn and you get the consistency of sand, two --fine powder, and three --talcum powder! It does not require the strength of Samson, nor the gripping power of a vice. The cap has two convenient, well-design handles making it easy to grip, turn, and powderize any pill. Plus it contains a secret compartment to hold a few pills when traveling.

One word of warning: Do not crush time-release capsules. By doing so, you destroy the coatings of the tiny pellets that slowly dissolve giving it the time release capabilities.

What we like best about this product:

I hate swallowing pills. Half the time they get caught in my throat and I gag. I can only imagine what the person with Alzheimer's must feel and be thinking when they sense this "thing" in their throat. But as so many caregivers have told us, the answer is to grind up the pill and add it to something thick and sweet --but who has a mortar and pestle in their house, especially one that works with so little effort?

RINSE-FREE PRE-MOISTENED WASH CLOTHS (8/PKG)

Provider: *THE ALZHEIMERS STORE*

Number of Copies: 1 **Resource Library Ref:** 464

RINSE FREE PRE-MOISTENED WASH CLOTHS

Convincing a resistant loved one to shower or bathe is sometimes not so easy. Yet here is a no-rinse solution --you simply give them a soothing sponge bath. No need to get into a shower or get everything wet, these products are the latest thing in bathing.

One story that Ann Louise relates is about a lady in a nursing home who fought taking a bath tooth 'n nail. The staff took an innovative approach. They told her that she had won a free make-over. So when it was time for her bath, they made her "Queen for a Day." They sat her in a special chair, wrapped her in a warm beach towel and then "with lots of smiles" massaged her from head to toe with a special (no-rinse) wash cloth. Mission accomplished ! In fact, from that day on, do you believe she won a free make-over every day she needed a bath?

The pre-moistened, hypo-allergenic wash cloths come 8 per packet and are micro-waveable for added luxury and comfort. They are enriched with Aloe and vitamin E.

Hint: Put the packet in the micro-wave for 20 -30 seconds for a very soothing warm wash cloth.

SEWING/CRAFTS Reminiscence THEME KIT

Provider: *NASCO*

Number of Copies: 1 **Resource Library Ref:** 1006

Authentic items found in attics and garages - not copies - so you can present more dignified and age-appropriate materials to residents. A packet of information included in this kit not only details how each sense is affected with age, but also how to implement a sensory stimulation program using the materials in the kit. Packed in a sturdy plastic container that makes it portable for both one-to-one interactions as well as small groups. Contents of kits may vary, but will always contain quality comparable materials. The variety of handmade objects, from doilies and potholders to scarves and mittens, will bring back fond memories of times when residents made these objects or wore them. Includes items such as knitting needles, embroidery hoops, yarn, thimble, measuring tape, and pin cushion.

SHAMPOO IN A CAP (ONE PER PACKAGE)

Provider: *THE ALZHEIMERS STORE*

Number of Copies: 5 **Resource Library Ref:** 470

A no mess, rinse free hair cleansing method. A special cap in a pouch is warmed in a microwave, (or used at room temperature) then placed on individual's head. The cap is then gently massaged with hands to saturate the individual's hair. Cap is then removed and hair can be styled as usual. This personal cleansing system is advertised as "trusted by hospitals".

Simple PUZZLE - GARDENING

Provider:

Number of Copies: 2 **Resource Library Ref:** 913

Number of Copies: 2 **Resource Library Ref:** 299

SWITCH COVERS (PACKET OF 4)

Provider: *THE ALZHEIMERS STORE*

Number of Copies: 1 **Resource Library Ref:** 471

Switch Covers

Product #: 0044

Hide dangerous switches and protect your loved one from accidentally turning them on or off. Within every home there are some wall switches that are more dangerous than others – take the switch for the kitchen garbage disposal, for example. The Switch Cover hides the switch, making it less likely that anyone will discover it and accidentally turn it on.

The Switch Cover is an easy-to-install, inexpensive cover that hides a switch, making it less likely that your loved one will discover it and turn it on (or off). It comes with two extension screws that simply replace the ones on your switch plate. Then all that is necessary is to snap the cover in place and you are done – the switch beneath is now hidden – out of sight, out of mind! Comes in packets of four sets.

One word of caution - The Switch Cover only fits standard lever switches. It will not replace “see-saw” rocker switches. It will work on plates with multiple switches. Also, any switch that is truly dangerous might be best disconnected.

What we like best about this product:

The Switch Cover addresses a serious concern, while allowing those “in the know” to still use the switches. Plus, it is a passive means of access denial - if you don’t know the switch is there, you cannot turn it on or off, can you?

Swivel Seat Cushion

Provider:

Number of Copies: 1 **Resource Library Ref:** 1256

Flexible base enables you to twist and turn effortlessly.

Ideal for getting in and out of vehicles.

Swivels 360 degrees for a smooth, easy movement in any direction while seated.

TELEPHONE HANGER-UPPER

Provider:

Number of Copies: 2 **Resource Library Ref:** 680

Automatic Telephone “Hanger-Upper”

Who has never forgotten to hang up the telephone after a call?

For those living alone with dementia, this may happen a little more frequently, with more serious consequences. “Is everything all right? Why is the line still busy? We need to get over there right away!”

Here’s a solution. The Automatic Telephone “Hanger-Upper” has its own bell that rings if a call comes in, whether the phone is on the cradle or not! Your loved one now goes to answer the phone, as usual. When they find the phone off the hook, they naturally hang it up again and the phone is back in business!

What we like best about this product:

For families worried about their loved one who lives far away or lives alone, this product is what you’ve been waiting for. So many caregivers have asked if we had something that will hang up a phone left off the hook and up until now we regretfully had to say “no.” But now we found one and it works like a dream.

Sonic Link - Deluxe Remote Receiver

Provider: *SonicAlert*

Number of Copies: 1 **Resource Library Ref:** 1742

Visual Alert System - Model SA 201 - The Deluxe Remote Receiver SA201, will alert you by flashing a light when a signal is transmitted from a Sonic Alert Transmitter (Telephone Ring Signalers, Baby Cry Signaler or Doorbell Signaler). A signal from one or all of the transmitters will be received by the SA201 and in turn will flash a light which is plugged into the SA201 cor. The SA201 will have a different sequence of flashing depending of which transmitter is being activated. The SA201 can also be used for room lighting by pushing the button on the SA201. The green light will indicate if the lamp is in the "on" or "off" position.

Sonic Ring Elite - Deluxe Telephone Signaler - Model TR75

Provider: *SonicAlert*

Number of Copies: 1 **Resource Library Ref:** 1743

The model TR75, telephone signaler alerts you that your phone is ringing by flashing a lamp on and off automatically, or by vibrating the model SS120V vibrator plugged directly into it. The TR75 can flash lights in other rooms by use of remote receiver (Model SA101, SA201, RH100, BL300, and all models of the Sonic Boom).
