### **Announcements**

Nelson announced that the Waukesha County Drug Free Communities Coalition will meet tomorrow in Menomonee Falls where the police chief, school representatives and others will talk about prevention efforts.

### **Committee/Board Discussion Items**

#### **Family Services of Waukesha/C.A.R.E. Center overview (*Board and Committee*)**

Holley-Beal said the mission of Family Services of Waukesha is to improve individual family and community well-being through partnerships and high quality programs and services. Services include counseling and therapy services, therapeutic wellness, school-based clinics, parenting classes

and coaching, child advocacy, and abuse prevention. She reviewed several programs including the C.A.R.E. Center, the Center for Prevention of Family Violence, the Cooperative Parenting Center, Consumer Credit Counseling, and Mental Health Counseling and Wellness.

**Transitional and Medical Monitored Residential Facility RFP (*Board and Committee*)**

Setzer, Sternweis, and Kettler were present to discuss the Transitional and Medical Monitored Residential Facility request for proposal (RFP). Setzer reviewed the Vendor Symposium they recently conducted. The RFP was meant to facilitate collaborative ventures in the county. One current example is the Genesis House. The new proposal is a facility that will provide residential treatment for women in the county and will likely involve an investment by the County in order to save money in the future. Collaboration between county government, organizations and agencies can save valuable county financial resources and help leverage outside financial resources without duplication of service. There is evidence-based research indicating that the least restrictive approach to working with our clients produces the greatest positive outcomes. This proposal is an innovative County/non-profit agency collaboration to provide services not available by other vendors. It will allow residents to live more independently and support themselves in the community which contributes to economic development.

The proposal expands residential facilities located in Waukesha County (currently limited access within the county). It will allow for greater family involvement with the client's treatment plan (as the facility is located within the county). It will allow the client to build a local support system while in treatment and it will allow for specialized treatment programming like Comprehensive Community Support (CCS) services for Medicaid eligible clients. Staff went on to discuss service delivery, key activities and programming within the facility, overall goals, the proposed applicant (Lutheran Social Services), projected program savings/assumptions and return on investment.

Dallmann-Papke left the meeting at 2:45 p.m.

Nelson left the meeting at 2:55 p.m.

MOTION: Menefee moved, second by Schwartz to adjourn the board meeting at 3:00 p.m. Motion carried 8-0.

**State Legislative Update**

Spaeth indicated the legislature is in progress. She and County representatives have met with many members of our legislative delegation and more meetings are planned. County priorities include child welfare funding, an optional biennial budget, and highway swap funding.

MOTION: Cummings moved, second by Walz to adjourn the committee meeting at 3:12 p.m. Motion carried 7-0.

Respectfully submitted,

*Jeremy Walz*
