Family First Prevention Act (*Board and Committee*)

Mullooly and Pupp were present to discuss this item as outlined in "HHS Family First Readiness Info Sheet." The goals of this initiative include building local prevention services to keep children safely in their homes through approved evidence-based programs; increase the number of children served in a family setting and support relatives, like kin and foster families to care for children

including children with complex needs; and reduce congregate care to clinical stays and create a new congregate care setting to provide time-limited, high quality clinical care.

Veterans' Report (Committee)

Gaidosh discussed the 2019 Annual Report of the Veterans Services Division as outlined. The total number of veterans in Waukesha County as of September 30, 2019, per VA figures was 20,600. This does not include the number of dependents of veterans which, when added with the veteran population, can easily triple this figure. Per Wisconsin Department of Veterans Affairs data, the veteran population in Waukesha County is 93% male and 7% female. Only 38% are in the working ages of 18 to 64 years old. In 2019, there were 8,522 phone calls (a 28% increase), 8,093 e-mails, and 3,218 client visits to the office. Fifty-nine appearances on behalf of veterans were made. The Milwaukee Vet Center had 881 client contacts in our office. The division started a partnership with the Wisconsin Department of Workforce Development to bring a Disabled Veteran Outreach Program specialist in once a week to assist disabled veterans with finding the right jobs. The Guitars for Vets program graduated eight veterans, maintaining a 100% completion rate. Benefits in 2019 reported by state and federal agencies totaled \$302,930,079 which include home loans, medical expenditures, compensation and pension, education benefits, and insurance and indemnities.

Ordinance 175-O-045: Modify the Department of Health and Human Services 2020 Budget to Accept the CARES COVID-19 Test Coordination Grant Funding and Appropriate Additional Expenditures (Committee)

Setzer discussed this ordinance which authorizes the Department of Health and Human Services to accept a grant award of \$513,200 from the State of Wisconsin Department of Health Services. This ordinance also modifies the department's 2020 budget by increasing general government revenues by \$513,200. This ordinance appropriates personnel expenses by \$275,000 for the purposes of

hiring a full-time limited term testing coordinator and funding limited term contact tracers and disease investigators for school strike teams with the goal of containing outbreaks in schools. Operating expenditures are increased by \$238,200 to pay for the cost of sending COVID tests to an alternate lab with a quicker response time when a quicker response time is warranted (i.e., two days instead of over a week with the state lab).
