

Women's Health and Recovery Project (WHARP) Information for Providers

The *Women's Health and Recovery Project (WHARP)* is a collaboration between women and a county-level agency facilitating care coordination, peer support, and collaborative referrals to various community services. A Navigator and a Peer Specialist work one-on-one with women to provide support and overcome obstacles that would typically be a barrier to women in their recovery journey.

Potential benefits to your agency and client: Provide complimentary care to enhance your program's services provided to the woman in her recovery journey. Benefits include increased engagement in your program, by WHARP assisting with connections and funding options for child care, transportation, basic needs, and additional support services. Funding options are also available for underinsured and uninsured women to receive substance use treatment in the community agency of their choice.

Eligibility: Women with substance use disorders and complex needs, who reside in Waukesha County. Women do not need to be involved in any Waukesha County care or services.

Make a referral: Please complete the referral form (see link below) and email to WHARP@waukeshacounty.gov, provide in-person, or mail to:

Waukesha County Department of Health and Human Services
Attn: Bobbi Borchardt
514 Riverview Ave
Waukesha, WI 53188
