Save 25% Off the Regular Prices  
thru October 15  
Order Early—Limited Supply

ITEM	DESCRIPTION	SIZE	REG. PRICE	SALE PRICE
<b>CRACKED CORN</b>	Cracked corn is a good staple when mixed with other seeds. It is well received by Juncos and White-Throated Sparrows. For an economical mix, create your own custom blend with cracked corn and sunflower.	<b>50 LB.</b>	Includes tax \$12.75	<b>\$9.50</b>
<b>NIGER (THISTLE SEED)</b>	Goldfinches are partial to this tiny black seed, often referred to as Thistle seed. This seed, imported from India, is much smaller than other seeds. Therefore, a pound of Niger goes much further than other larger seed and is usually fed from a special feeder to prevent waste.	<b>10 LB.</b> <b>25 LB.</b>	\$14.50 \$35.00	<b>\$10.75</b> <b>\$26.25</b>
<b>SAFFLOWER</b>	This light-colored seed is a special favorite with Cardinals. A variety of other desirable, native birds also eat it, but Grackles, Blackbirds and squirrels do not seem to like it.	<b>25 LB.</b>	\$21.50	<b>\$16.25</b>
<b>SUNFLOWER MEATS</b>	These tiny pieces are finely broken meats without any shells. They can be mixed with Niger, or substituted for Niger to create a more economical mix.	<b>25 LB.</b>	\$30.25	<b>\$22.75</b>
<b>SUNFLOWER SEED</b>	This small black seed, called peredovic sunflower seed, is a high oil-bearing seed, which is an important source of calories for winter survival. Sunflower seed is very popular with Jays, Cardinals, Chickadees, and Nuthatches. Goldfinches, Purple Finches, Crossbills, and Grosbeaks are also partial to sunflower.	<b>50 LB.</b>	\$26.50	<b>\$19.75</b>
<b>WILD BIRD MIX</b>	The recipe for this exceptional quality mix with a high percentage of sunflower seed is 25% sunflower seed, 40% white millet, and 35% cracked corn. Studies indicated that these ingredients are consistently appealing to birds. This recipe eliminates filler seeds such as rolled oats, canary seed and milo.	<b>50 LB.</b>	\$22.25	<b>\$16.50</b>
