**FOR IMMEDIATE RELEASE**  
Date: Monday, November 20, 2017

### **PUBLIC INFORMATION MEETING FOR LAKE COUNTRY TRAIL UNDERPASS PROJECT**

**(WAUKESHA, WI)** – The Waukesha County Department of Parks and Land Use invites all interested parties to attend the public information meeting regarding the Lake Country Trail Underpass Project. This meeting will be an open house providing an opportunity to interact with Waukesha County and City of Oconomowoc staff and project consultants, ask questions and provide comments.

**Date:** Tuesday, November 28, 2017  
**Time:** 4pm-5:30 pm  
**Location:** Oconomowoc City Hall – 2<sup>nd</sup> Floor Council Chambers, 174 E. Wisconsin Avenue, Oconomowoc, WI 53066

Waukesha County, together with the City of Oconomowoc and the Wisconsin Department of Transportation, is proposing to construct a shared use pathway connection under the newly expanded State Trunk Highway (STH 67). During the STH 67 expansion project, a box culvert was installed in anticipation of this future connection. Trail approaches on the east and west side of STH 67 to the Lake Country Trail will be included with this project. Additional safety enhancements, such as lighting and video surveillance, will be added to complete the underpass. The County has contracted with CORRE, Inc. to complete the design. Construction is anticipated for the Spring of 2019.

The underpass will connect with the existing Lake Country Trail open space network. Temporary and/or permanent easements may be required within this public open space corridor for the trail construction. The project will consist of a combination of asphalt trail, retaining walls, and safety improvements to the underpass itself. As part of the public outreach process, you are encouraged to review the proposed improvements and share any feedback you may have with project representatives.

#### **About the Waukesha County Park System**

Waukesha County's Park System demonstrates stewardship while providing recreational and educational opportunities.
