- (2) Application for: An application for a building permit shall be made to the proper Town in which the proposed Building is to be located.

- (3) Issuance: No building permit shall be issued by the Town, until a zoning permit has been issued by the county zoning administrator.

(Section 3.02 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

3.03 Zoning and occupancy and use permits.

- (1) Required:

No vacant land shall be occupied or used except for agricultural purposes and no Building shall be hereafter erected, structurally altered, relocated, used, or occupied until zoning and occupancy use permits have been issued certifying that any such Building, use, or occupancy complies with the provisions of this Ordinance; like permits shall be obtained before any change is made in the type of use or before any nonconforming use is resumed, changed, extended, or granted conditional use status pursuant to Section 3.17(5).

- (2) Application for:

Such permits shall be applied for from the county zoning administrator or from the local building inspector where he has been designated as a deputy to the zoning administrator as provided by Section 22.02(4). No application for any permit, Variance, Special Exception, conditional use, site plan, plan of operation, rezoning, license, or other governmental approval under this ordinance shall be deemed to be properly filed unless it is signed by the Applicant. Application shall be made prior to or at the same time as the application for a building permit, and shall be prepared in triplicate and shall include for the purpose of proper enforcement of this Ordinance the following data:

- (A) A statement by the Applicant as to the intended use of the premises and of any existing or proposed Buildings thereon.

- (B) An accurate map of the property, in triplicate, drawn to a reasonable scale and properly dimensioned showing:

1. The boundaries of the property involved.
2. The location of the centerline of any abutting streets.
3. The location on the Lot of any existing Buildings, proposed additions, or proposed new Buildings, including the measured distances between such Buildings and from the Lot Lines and from the centerline of any abutting street to the nearest portion of such Building.
4. The proposed floor elevation of any proposed Buildings in relation to the existing and/or Established Grade of any abutting streets.
5. The high water line of any stream or lake on which the property abuts.
6. The location of any existing and proposed septic system and well, including those within fifty (50) feet of the property lines.
7. The location and results of any percolation tests and soil borings of the involved property.

- (C) Where the use involves human occupancy, a plan of the proposed sewage disposal

system, if not connected to an approved municipal sewerage system, shall require the certification of the building inspector or plumbing inspector that it conforms to all county and town Ordinances and other governmental laws or regulations then applicable to sewage disposal systems.

- (D) Satisfactory evidence that a safe and adequate supply of water is to be provided, and the location of any well for that purpose on the property.
 - (E) A fee, as may be established and periodically modified under Section 22.02(5), shall accompany each application. Such fee shall be paid by cash, check or money order to the Waukesha County Park and Planning Commission.
 - (F) Where two or more kitchens are proposed within a single-family Dwelling, the owner shall file a deed restriction in the Waukesha County Register of Deeds office stating, at a minimum, that the residence is to be used for single-family residential purposes and shall not be used as a multiple family residence.
 - (G) Accommodations for persons with disabilities:
The Zoning Administrator may issue a permit to modify the standards of this Ordinance in order to provide reasonable accommodations as required by provisions of federal and state law. Such modification shall be the minimum necessary to be consistent with federal guidelines for accommodation of persons with disabilities and shall, where practicable, be terminated when the facility is no longer used by the disabled person(s). A person applying for a permit for construction under this section shall establish the nature and extent of the disability and that the modification requested is the minimum necessary to provide reasonable use of the facility. The reasonable accommodations shall be evidenced by an instrument that is reviewed and approved by the Zoning Administrator and recorded in the Office of the Register of Deeds.
- (3) Issuance: Zoning and occupancy and use permits shall be issued by the zoning administrator after adequate investigation as to compliance or upon recommendation of the deputy where he has made the necessary investigation.
- (A) Zoning permit:
Provided the application is in order and any Building, occupancy, or use as proposed would be in compliance with the provisions of this Ordinance, a zoning permit shall be issued upon such application, and a certification that such permit has been issued shall be posted in a prominent place on the premises during the period of any construction or other activity involved in readying the land or Buildings for use occupancy.
 - (B) Occupancy and use permit:
Within ten (10) days after the notification of the completion of the erection, alteration or relocation of a Building, or of intent to commence a use, the zoning administrator or his deputy shall make an inspection of the premises and any Buildings thereon, and if such Building, use, or occupancy comply with the requirements of this Ordinance an occupancy and use permit shall be issued.
- (4) Expiration:
If within six (6) months of the date of issuance of a zoning permit, the proposed construction or preparation of land for use has not commenced, or if within eighteen (18) months an occupancy and use permit has not been issued, if required by the Town, or the

construction has not been completed, said zoning permit shall expire, except that upon showing of valid cause, the zoning administrator may grant an extension of such permit for a period not to exceed six (6) months. Said permit extension shall be issued for the full fee and based upon full conformance with the Ordinance at the time of issuance for the new permit. If the construction has not commenced or is not completed after a total of twenty-four (24) months, a new permit must be applied for and received subject to all fees and subject to the Ordinance in effect at the time of such new permit issuance. Previous incomplete work is not entitled to a new permit if the Ordinance no longer permits said use or Structure or if changes to the Ordinance have been made subsequent to the original issuance of the permit.

(5) Temporary occupancy and use permit:

Pending the issuance of a regular permit, a temporary permit may be issued for a period not exceeding six (6) months during the completion of alterations or during partial occupancy of a Building pending its permanent occupation. Such temporary permit shall not be issued except under such restrictions and provisions as will adequately insure the safety of the occupants. A temporary permit shall be voided if the Building fails to conform to the provisions of this Ordinance to such a degree as to render it unsafe for the occupancy proposed.

(6) Zoning and Occupancy and Use Permits - Site Plans and Plans of Operation:

Certain Permitted Uses as well as certain conditional uses require the submission of a Site Plan and Plan of Operation which provide a detailed description of the proposed use and serve as a basis for consideration prior to approval of the plan commission, and either the zoning agency or zoning administrator. The plan commission can waive its approval authority or assign its approval authority to town staff. The purpose of such a Site Plan and Plan of Operation review is to document the permit file, determine adequacy of the data submitted to describe the permitted and Accessory Uses and Buildings proposed and document the plan and method of operation to enable a determination of compatibility with the Ordinance and consideration of approval. A Site Plan and Plan of Operation shall include the following information, as well as any other specific information requested by the plan commission, zoning agency or zoning administrator to review the plans and determine compliance with the regulations of this Ordinance:

- (A) A Plan of Operation is a statement of operations, signed by the property owner and tenant or operator of the business or use, including a detailed description of the request, number of employees, hours of operation, and types of uses, products or services offered.
- (B) A Site Plan and/or Plat of Survey of the property (in standard engineering or mapping scale which permits a clear representation of the property to a scale not to exceed two hundred (200) feet to one (1) inch), in quadruplicate, showing the location and dimensions of all existing and proposed Buildings and Structures and other attributes on the site, the location, number and arrangement of parking spaces or loading areas, lighting fixtures, easements, dumpsters, Signs, landscaping and screening, and any other factors affecting the development of the site.
- (C) A stormwater management and erosion control plan consistent with the requirements of the Waukesha County Construction Site Erosion Control and Stormwater Management Ordinance. A grading plan, where required, shall be submitted in quadruplicate to the same scale as the Site Plan, including existing and proposed contours at a maximum of two (2) foot vertical intervals for slopes less than twelve (12) percent and at no more than five (5) foot intervals for slopes

twelve (12) percent or greater, existing and proposed features (i.e. berms, swales, ponds, ditches, storm sewers, inlets, etc.), vegetative plan, timetable for completion, the name of the responsible party and a letter of credit, if deemed necessary. The plan commission, zoning agency or zoning administrator has the discretion to request a grading plan in a scale different than the Site Plan in order to show with sufficient detail the contours and features of the property.

- (D) One set of building plans, State approved if required, at a standard architectural scale, including exterior elevation drawings of all sides of all Buildings proposed.
- (E) A rendering of all Signs visible from the exterior, along with the location, dimensions, overall height, illumination and colors of the Signs.
- (F) Lighting or photometric plan, including cut sheets of each type of exterior light fixture proposed or existing.
- (G) A detailed landscaping plan showing the location, sizes and types of proposed vegetation, including seeding mixtures and the amount of topsoil and mulch, the timetable for completion, and any surfacing plan for parking and loading areas.

(Sections 3.03(4) and (6) were amended by Enrolled Ordinance 159-69, effective 1-17-05.)

(Section 3.03(2) was amended by Enrolled Ordinance 161-13, effective 09/04/06.)

(Sections 3.03(1) through (6) were amended by Enrolled Ordinance 171-38, effective 9/28/16.)

(Section 3.03(6) was amended by Enrolled Ordinance 174-08, effective 5/04/19.)

3.04 Site regulations.

(1) Building must be on a Lot:

Every Building hereafter erected, structurally altered or relocated shall be located on a Lot as defined in this Ordinance. Any Building used for the Principal Use permitted in a particular District shall constitute the Principal Building and there shall be no more than one (1) Principal Building on a Lot unless otherwise stated in this Ordinance. An Accessory Building is considered attached to and part of a Principal Building only if the attachment consists of a Breezeway that is at least a minimum of eight (8) feet in width and a maximum of twenty (20) feet in length and is enclosed on all sides. No Accessory Building shall be constructed until the Principal Building is under construction or completed, and no Accessory Building shall remain on a Lot once the Principal Building has been removed without a Variance from the Waukesha County Board of Adjustment, unless: (1) a Letter of Credit or some other form of financial assurance acceptable to the Waukesha County Department of Parks and Land Use – Planning and Zoning Division is submitted to the Department in an amount sufficient for the Department to have the Accessory Building removed in the event a principal Structure is not constructed on the Lot within two years of the date of issuance of the Zoning Permit for the new Principal Building or the date of removal of the Accessory Building, and (2) a deed restriction is recorded in the Waukesha County Register of Deeds office stating a principal Structure shall be constructed on the Lot within two years of the date of issuance of the Zoning Permit for the new Principal Building or the date of removal of the Accessory Building or the Letter of Credit on file with the Department will be used to have the Accessory Building removed. Once the principal Structure is constructed or the Accessory Building is removed, the Waukesha County Department of Parks and Land Use shall cooperate in the rescission of the deed restriction and the release of the Letter of Credit or other financial assurance.

Where the use of the land is principally for agricultural pursuits, and on parcels of thirty-five (35) acres or more, farm buildings may be allowed without the necessity of having a Residence in place or under construction subject to the approval of the plan commission and zoning agency if it is determined that the Building will not be contrary to the spirit and intent of the Ordinance and will not include the operation of a commercial boarding or riding stable for horses or agricultural pursuits specializing in the forced feeding of Livestock, and where it is determined that the use of the Building will be accessory to a farming operation which is consistent with the use provisions of the District in which it is located. If the farm building(s) is located in the FLP Farmland Preservation District, the building(s) is permitted by right and plan commission and zoning agency approval is not required.

(2) Buildings or Creation of Lots on a Private Street or Way:

The intent of this provision is to discourage the creation of lots and placement of Structures which do not have adequate access for emergency vehicles and equipment and to provide a right-of-way width which could accommodate a public right-of-way, if necessitated in the future. Subject to the approval of the Plan Commission and the County Zoning Agency, a parcel may be created and a Building may be permitted on a tract of land which does not abut or have direct frontage on a public street or officially approved way (frontage on a controlled access Highway or a freeway where vehicular access is prohibited does not constitute access or frontage for the purposes of this provision) provided such tract of land is at least three (3) acres in area and has a minimum average width of two hundred (200) feet, has access by a permanent easement at least thirty-three (33) feet in width to a public street or way, will have a paved or gravel driveway width of at least twelve (12) feet and does not conflict with the plans for the future development of Streets in the area.

Typical or normal lots with Lot Lines radiating from the terminus or center of a public cul-de-sac street are not affected by this provision that requires minimum road frontage on a public street. In a situation where more than one (1) principal Residence or parcel is proposed, the easement for access shall be at least sixty-six (66) feet in width and the paved or gravel drive shall be sixteen (16) feet in width, unless required to be greater, pursuant to a local Ordinance. Where such a Lot has a narrow strip of land as part of the Lot (not as an approved easement) extending to the public road from the main part of the Lot where the Building could lawfully be placed (flag lot), such narrow portion shall not constitute frontage or part of the three (3) acre lot size requirement unless that narrow portion of the Lot is as wide as the required minimum average width for the District in which it is located. Not more than two (2) such parcels or Buildings shall be permitted unless necessitated by exceptional circumstances.

(3) Junk and Undesirable Buildings or Structures

(A) Junk, as defined by this Ordinance, shall at all times be stored in an enclosed Building thereby securing it from the view of the public and adjacent property owners.

1. This subsection is not intended to regulate or place limitations on any property properly zoned junk yard, salvage dealer, or other Junk, waste disposal or storage activity for which a valid license from the State or Wisconsin or other necessary municipal issuing authority is required and proper permits have been issued and all such licenses and permits are in full force and effect and the operation is in full compliance therewith.
2. This subsection is not intended to regulate or place limitations on the storage of idle, but operable farm equipment on Farms greater than thirty-

five (35) contiguous acres or the storage of inoperative or abandoned farm equipment on Farms greater than thirty-five (35) contiguous acres if such inoperative or abandoned farm equipment is screened from the view of the public and adjacent property owners by a natural or man-made visual barrier.

3. This subsection is not intended to regulate or place limitations on the storage of idle but operative snow removal vehicles or equipment, or lawn mowing equipment.
4. This subsection is not intended to regulate or place limitations on the orderly storage of firewood for fuel.
5. This subsection is not intended to regulate the temporary storage of construction materials which are for use on the site for the project authorized by an active zoning permit and which are stacked, stored and secured on the site in an orderly method.

(B) No Undesirable Structures:

No Building or Structure shall be erected, structurally altered or relocated in a manner which shall be of such character as to adversely affect the nearby properties or general desirability of the neighborhood. The determination by the Plan Commission shall be stated in writing, including the reason for denying a permit or conditions of approval for a permit, and may be based upon considerations that the design or appearance is of such an unorthodox or abnormal character as to have an adverse effect on the nearby properties or general desirability of the neighborhood.

(4) Street grade:

Every Building hereafter erected, structurally altered, or relocated, shall be at a grade approved by the building inspector as being in satisfactory relationship with the established street grades, or with the existing street grade where one is established, with particular consideration for proper drainage and safe vehicular access.

(5) Preservation of topography:

In order to protect the property owner from possible damage due to change in the existing grade of adjoining lands, and to aid in preserving and protecting the natural beauty and character of the landscape, no change in the existing topography of any land shall be made which would result in increasing any portion of the slope to a ratio greater than three (3) horizontal to one (1) vertical, within a distance of twenty (20) feet from the property line, except with the written consent of the abutting property owner and with the approval of the plan commission; or which would alter the existing drainage or topography in any way as to adversely affect the adjoining property. In no case shall any slope exceed the normal angle of slippage of the material involved and all slopes shall be protected against erosion.

- (A) The construction of a Retaining Wall (stone, ties, brick or other material), less than five (5) feet from a property line, may be specifically authorized by the Plan Commission and County Zoning Agency and on agreement made between the Plan Commission, County Zoning Agency and Applicant stating the method and purpose of construction and will not in any way adversely affect drainage or the aesthetics of the adjacent lot. A Retaining Wall five (5) feet or greater from a property line, may be allowed pursuant to issuance of a Zoning Permit (Minor Grading Permit) and an agreement being made between the owner and the Town Planning Commission and the County Zoning Administrator which will serve to

promote the purpose and intent as stated in this Ordinance.

Fill or grading considered by the zoning administrator to be necessary backfill and/or excavation for an otherwise permitted Structure may be permitted without the necessity of securing a conditional use permit as long as said fill or grading is accessory to said construction and does not create slopes greater than three (3) horizontal to one (1) vertical and does not extend to a distance greater than thirty (30) feet from the foundation and does not divert runoff directly onto adjacent property or adversely affect adjoining property. In order to make such a determination, the property owner shall submit a grading plan of existing and proposed grades on the subject Lot and adjacent lands where said accessory fill and/or grading is closer than twenty (20) feet to a property line.

Land Altering Activities extending greater than thirty (30) feet from the foundation may be allowed subject to issuance of a minor grading permit (zoning permit) without benefit of a Conditional Use Permit unless the quantities and the area of fill exceeds three thousand (3,000) square feet and fifteen (15) cubic yards. This provision excludes the area normally associated with septic system installation, backfilling and grading around the foundation, as above, and normal driveway construction. Further, no fill or alterations on existing topography shall be allowed under any circumstances which will alter the drainage or topography in a way which will adversely affect the surrounding lands. In making such a determination, the Zoning Administrator shall have the authority to determine the affect of the construction or fill on surrounding property and require improvements and/or facilities as may be in the best interest of preserving the topography and drainage system and which will have the effect of lessening the impacts on either upstream, downstream or adjacent properties. In case of a dispute or question arising as to the adversity or effect of the project on either the property owner, adjacent owners or the general public, said question shall be submitted to the County Board of Adjustment pursuant to the procedures for appeal as enumerated in Section 19. Land Altering Activities may also be subject to locally adopted or state mandated Erosion and Sediment Control Ordinances in addition to the requirements set forth herein.

- (B) Land Altering Activities such as the placement of fill, excavation, and other earth moving activities in excess of the above may be allowed subject to issuance of a conditional use permit as long as said fill, excavation or earth moving activities do not occur in a wetland as indicated on the Final Wisconsin Wetlands Inventory Maps for Waukesha County or subsequently revised by hydraulic analysis and approved by the Army Corps of Engineers and/or the Department of Natural Resources. The performance of such earth altering must not impede drainage or reduce the floodwater storage capacity of any floodland.

(6) Site Protection:

Any property disturbed with Land Altering Activities as may be authorized thru the issuance of a Zoning Permit or a Conditional Use Permit, shall be required to protect the disturbed land surface of the Lot or building site that is susceptible to erosion while under construction and which is not occupied with Buildings, dedicated parking areas or other hard surfaced areas with suitable stabilization measures. Said disturbed areas shall be permanently stabilized and continuously maintained with suitable vegetative cover or other approved landscape material, and in any case, shall be required to conform with the provisions of the Waukesha County Construction Site Erosion Control and Stormwater Management Ordinance and Uniform Dwelling Code for one and two family dwellings. A

Letter of Credit or other forms of financial guarantee to ensure performance may be required by the building inspector, plan commission, the zoning administrator, zoning agency or the Land Resources Division of the Waukesha County Department of Parks and Land Use.

(Sections 3.04(1) and (5)(C) were amended by Enrolled Ordinance 159-69, effective 1-17-05.)

(Section 3.04(3) was amended by Enrolled Ordinance 161-13, effective 09/04/06.)

(Section 3.04 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

(Sections 3.04(1) and 3.04(5)(A) were amended by Enrolled Ordinance 174-08, effective 5/04/19.)

3.05 Drainage regulations.

(1) **Building Construction:**

In no case may a Principal Building be located in an area zoned conservancy or field identified as Wetland. No Principal Building shall be erected, or relocated, and no below grade Structures shall be expanded on newly created or existing Lots that are not in compliance with the site drainage standards contained in the Waukesha County Stormwater Management and Erosion Control Ordinance, including all county technical procedures and forms used to enforce these standards (Chapter 14-342(c)). The lowest floor, including any basement floor, shall not be less than one (1) foot above the highest seasonal ground water level. For the purposes of this Section, the highest seasonal ground water level is defined as the upper limit of the zone of soil saturation caused by underlying ground water at its highest level. Where groundwater limitations exist, subdivision plats and certified survey maps shall state the lowest allowed floor elevation for any proposed principal Structure as needed to ensure compliance with the above noted site drainage standards. All basement elevations must comply with the subdivision plat or certified survey map or with the master grading plan referenced on the subdivision plat or certified survey map. The zoning administrator and/or building inspector may request at the owner's expense the advice and assistance of a licensed professional engineer specializing in soils engineering or other qualified person in fulfilling their duties pursuant to this provision. Building, drainage, grading or other similar plans may be required to determine compliance with this Section. The town and the county accept no liability for construction activities involving groundwater limitations.

- (A) In the event the Applicant disputes the necessity for or the adequacy of the site drainage standards noted above, the matter shall be reviewed by the Waukesha County Board of Adjustment pursuant to the appeal provisions of this Ordinance and the Waukesha County Stormwater Management and Erosion Control Ordinance. The Applicant may also request a Variance from the 1-foot groundwater separation requirement for Basements, which shall also be reviewed by the Waukesha County Board of Adjustment pursuant to the appeal provisions of this Ordinance and the Waukesha County Stormwater Management and Erosion Control Ordinance.

(2) **Site Protection:**

Any property disturbed with Land Altering Activities as may be authorized through the issuance of a zoning permit or a conditional use permit, shall be required to protect the disturbed land surface of the Lot or building site that is susceptible to erosion while under construction and which is not occupied with Buildings, dedicated parking areas or other hard surfaced areas with suitable stabilization measures. Said disturbed areas shall be permanently stabilized and continuously maintained with suitable vegetative cover or other approved landscape material and shall be required to conform with the provisions of the Waukesha County Stormwater Management and Erosion Control Ordinance and the Uniform Dwelling Code for one and two family dwellings, when applicable. A Letter of

Credit or other forms of financial guarantee to ensure performance may be required by the building inspector, plan commission, the zoning administrator, zoning agency or the Waukesha County Department of Parks and Land Use, Land Resources Division.

- (3) Obstruction to drainage prohibited:
The damming, filling, relocating or otherwise interfering with the natural flow of surface water along any surface water drainage channel or natural water course shall not be permitted except with approval of the plan commission, county zoning agency and the department of natural resources pursuant to chapter 30 of the Wisconsin Statutes.
- (4) Building restricted adjacent to non-navigable drainage channels and water courses:
No Structure other than a water dependent structure, bridge, culvert, walkway, dam, or revetment, subject to the aforesaid approval shall be erected, structurally altered or relocated within thirty-five (35) feet of the Ordinary High Water Mark of a non-navigable surface water drainage channel and water courses.

(Section 3.05(3) was amended by Enrolled Ordinance 159-69, effective 1-17-05.)

(Section 3.05 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

3.06 Sanitation and water supply.

- (1) Safe sewage disposal possible:
No Principal Building shall be erected, structurally altered, or relocated unless it has been certified by the building inspector or plumbing inspector that it conforms to all town Ordinances, county Ordinances, and other governmental laws or regulations then applicable to sewage disposal systems, and that satisfactory evidence has been submitted to show that suitable provision for disposal of sewage, based on the proposed use, is possible on said Lot if it is not served by an approved municipal or other state approved sewage disposal system.

(Explanatory note: While every attempt has been made, through control of minimum lot size, building location and plumbing standards, to insure that proper disposal of sewage will be provided on any lot, it is recognized that no such standard will completely insure adequate disposal in every situation. This Section has been written for the purpose of giving the community the authority to require whatever additional provisions are necessary to prevent a sanitary problem from developing in a situation where the normal requirements will not insure proper sewage disposal.)
- (2) Approved septic system:
No Principal Building shall be erected, structurally altered or relocated unless a sewer is installed running to a septic tank designed and located in accordance with the town Ordinances and other governmental laws or regulations then applicable to sewage disposal systems, or to an approved municipal or other state approved sewage disposal system.
- (3) Outhouses prohibited:
No outhouse or privy shall be hereafter erected.
- (4) Water supply required:
No occupancy and use permit shall be issued for a Building used for residential purposes unless provision is made for a safe and adequate supply of water in or within three hundred (300) feet of said dwelling or connection is to be made to an approved municipal or community water system.

(Section 3.06 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

3.07 Use regulations

- (1) Uses Restricted:
In any District, no Building or land shall be used and no Building shall be hereafter erected, structurally altered or relocated except in conformance with the regulations hereinafter established for the District in which the property is located, or as otherwise provided in this Ordinance. Where a change in ownership or operator of a Building or premises is proposed in any Business, Industrial District or Public and Institutional District or at the site of a Legal Non-conforming Use or a conditional use, a Plan of Operation shall be prepared for review and approval pursuant to Section 3.03(6) of this Ordinance.
- (2) Accessory Uses:

No Pyramiding as defined herein shall be permitted on any lands fronting on a lake except as may be specifically permitted accessory to a marina or resort and which may be allowed under the terms of a conditional use permit for a Planned Unit Development.
- (3) Unclassified Uses:
Any use not specifically listed as Permitted Use or conditional use shall be considered to be prohibited except as hereinafter provided. Where deemed appropriate the Plan Commission and Zoning Agency shall have the authority to authorize uses not specifically enumerated or authorized under other procedures or zoning districts under the terms of Section 3.08(7)(X) of this Ordinance.
- (4) Additional Requirements:
For any use or Structure in any District, which becomes hazardous, harmful, noxious, offensive, a nuisance, or has a substantial adverse affect on the surrounding neighborhood by reason of odors, lighting, smoke, fumes, dust, dirt, vibrations, noise, fire, explosives, pollution, appearance, traffic generation, or other objectionable factors, the owner or occupant may be required to correct, improve or abate such conditions by such measures as may be mutually directed by the Plan Commission and Zoning Administrator consistent with reasonable technology and economic practicality and in conformance with reasonable standards or may be determined by the Plan Commission and Zoning Administrator as may be contained in this Ordinance and Section 22 of this Ordinance. These nuisance determinations shall also include, but not be limited to, incidents of apiculture where there is bee stinging, bee swarming, or bees otherwise creating a disturbance; and for nuisance determinations regarding the keeping of potbellied pigs and pigmy goats. Any Building determined to be unfit for Human Habitation or which may endanger the health, safety and welfare of the public as may be determined by the Town board after recommendation by the Plan Commission or Zoning Administrator shall be removed pursuant to the procedures outlined by the Wisconsin Statutes.

(Section 3.07(4) was amended by Enrolled Ordinance 175-18, effective 8/12/20.)

3.08 Conditional uses.

- (1) Approval required:
Certain uses and situations which are of such a special nature, or are so dependent upon actual contemporary circumstances, as to make impractical the predetermination of permissibility, or the detailing in this Ordinance of specific standards, regulations, or conditions which would permit such determination in each individual situation, may be permitted as Conditional Uses. The Conditional Uses are subject to the requirements hereinafter specified for each Conditional Use type, the approval of the Zoning Agency, unless otherwise designated herein, and subject to any conditions as deemed appropriate in the approval process.
- (2) Application:

Costs incurred by the county zoning agency in obtaining legal, planning, engineering and other technical and professional advice in connection with the review of conditional use applications and preparation of conditions to be imposed on such uses shall be charged to the Applicant, and if required by the county zoning agency, a fee covering such costs shall accompany the application.
 - (E) Where necessary, to comply with certain Wisconsin Statutes, an application will be submitted to the department of natural resources.
 - (F) A Conditional Use application which is filed and is not complete, and therefore is not scheduled for a public hearing as it does not meet all of the requirements as

outlined in Section 3.08(2)A through E, shall be held for a period not to exceed six months from the date of application and shall then expire and be voided by the Zoning Administrator and a letter shall be sent to the Applicant notifying them of the same. No refund of the application fee shall be made.

(3) Public Hearing:

Upon receipt of the application, the foregoing data and fees, the Zoning Administrator shall establish a date for a joint public hearing by the Town Plan Commission and the County Zoning Agency, or its designee, and shall publish notice of said hearing once each week for two (2) consecutive weeks in a newspaper of general circulation in the area of the proposed conditional use. In the case of conditional use applications for a cemetery, mausoleum, or a quarry, the recommendation of the Town Plan Commission must first be submitted to the Town Board for official action of that body before transmittal to the Zoning Administrator and said action by the Town Board shall be an integral part of the conditional use permit.

(4) Final review and approval:

The review may include, but not be limited to, the site, size and location of existing and proposed Structures, architectural plans, neighboring uses, parking areas, driveway locations, highway access, traffic generation and circulation, drainage, sewerage and water systems, and the proposed site plan and plan of operations. Conditions such as, but not limited to, landscaping, architectural design, dates, sureties, lighting, fencing, planting screens, operational control, hours of operation, improved traffic circulation, deed restrictions, highway access restrictions, increased setbacks and Offsets, natural resource features or parking requirements may be established. Any conditions imposed by the County Zoning Agency must be related to the purpose and intent of this Ordinance and shall be based on Substantial Evidence. Any conditions deemed necessary by the state, town plan commission or county zoning agency shall be made an integral part of the permit. These conditions shall be complied with by the Applicant and any deviation or alteration of those conditions set forth in the permit shall constitute a violation of the terms of the conditional use permit. Notification of county zoning agency action on conditional use permits shall be sent to the department of natural resources where applicable.

Any requirement or condition required for issuance of the Conditional Use Permit must be

reasonable, and to the extent practical, measurable, and may include conditions such as the permit's duration, transfer, or removal. If any holder of a conditional use permit wishes to extend or alter the terms of said permit, they must apply for such extension or alteration through the procedure of application for conditional use permits detailed herein.

- (C) The conditional use has been discontinued for a period of twelve (12) consecutive or eighteen (18) cumulative months in a three-year period. A business of a seasonal nature shall not be deemed discontinued during periods in which it is normally inactive (i.e., summer camps, snowmobile courses, ski areas, marinas, quarries, etc.). Upon such determination, the owner of the premises shall be required to bring all such land and Buildings into conformity with the district regulations of the District in which such former conditional use is located, and all other provisions of this Ordinance within sixty (60) days from such determination.

3. The plan commission and zoning agency shall determine the percentage of the property that may be devoted to the limited family business and the more restrictive determination shall apply.

Where the use will be served by municipal sewerage, the density requirements can be reduced to a minimum of nine thousand (9,000) square feet per dwelling unit. (P) Planned Unit Development (PUD):

Due to increased urbanization and the associated greater demands for Open Space and the need to create a more desired and creative living environment than would result through the strict application of the standard zoning requirements, it is herein provided that there be flexibility in the regulations governing the development of land. This provision is intended to encourage Planned Unit Development in directions which will recognize both the changes in design and technology in the building industry and the new demands in the housing market. It is intended that these provisions create imaginative and interesting communities with substantial open area owned in common or dedicated to the public and for the enjoyment of the residents, and will encourage a more efficient and desirable use of the land and Open Space areas thereby resulting in more variety of the physical development of the County.

An overall development plan showing how the above objectives are to be achieved must be submitted to the Plan Commission and the County Zoning Agency for review and approval. This use is permitted in any District except A-B, FLP, FLC, A-T, A-B, AD-10 and RRD-5 Districts except that no portions of any building lots or Structures shall be allowed in the C-1 Conservancy Overlay or HG Districts, subject to the following:

1. Lot size, Lot Width, Height, Offset, Road Setback, Wetland Setback, Building Footprint, minimum Floor Area, building size and building location requirements may be modified according to the following conditions:
 - a. That all sanitary provisions are approved by the Waukesha County Department of Parks and Land Use, Environmental Health Division.
 - b. That the proposed development is in conformity with the County

and town comprehensive plans or County Land Use Plan and is not contrary to the general welfare or economic balance of the community, and that the benefits and amenities of the resultant development justifies the variation from the normal requirements of the District.

- c. Wetland Setbacks can only be reduced if wetland mitigation is provided that offsets the impacts of the reduced setback. Wetland mitigation requirements shall be established by the County Zoning Agency.
- d. That all other requirements of the Planned Unit Development are met as set forth in this Section.

2. Residential Planned Unit Development:

- a. The following table may be utilized to compute the maximum dwelling unit density requirements of the PUD, except that areas which are Primary or Secondary Environmental Corridors are also subject to (b) below.

A-1	120,000 sq. ft. (2.75 acres) per dwelling unit
A-2	120,000 sq. ft. (2.75 acres) per dwelling unit
A-3	80,000 sq. ft. (1.84 acres) per dwelling unit
A-5	200,000 sq. ft. (4.59 acres) per dwelling unit
Environmental Corridors	5 acres per dwelling unit *
R-1	39,000 sq. ft. (0.89 acres) per dwelling unit
R-2	25,000 sq. ft. (0.57 acres) per dwelling unit
R-3	15,000 sq. ft. (0.34 acres) per dwelling unit**

* Calculations for Environmental Corridors shall occur as established in (b) below.

** The density may be increased by forty percent (40%) to nine thousand (9,000) square feet per dwelling unit if municipal sewer is provided.

- b. If all of the Primary and Secondary Environmental Corridor or Environmental Corridor zoned lands are preserved in their entirety within the Public Open Space or Common Open Space and preserved in their natural state, the density of one unit per five (5) acres may be added to the maximum number of dwelling units derived from utilizing the table above.
- c. Lands currently zoned C-1 Conservancy Overlay District may not be used in formulating the density of the project. When lands border a lake or other public body of water, Pyramiding as defined herein, may be allowed if the minimum water frontage at the high water mark is one hundred (100) feet for the first dwelling unit and an additional twenty-five (25) feet for each additional dwelling

unit thereafter. No more dwelling units may have access to the water body than would result from the application of this provision irrespective of the overall size of the development parcel.

- d. Public Open Space or Common Open Space shall be of a size and shape to provide an integrated system of Open Spaces to the greatest extent possible and to narrow bands or corridors, but shall be larger blocks or wide corridors of land, usually not less than one (1) acre in area. Corridors linking large blocks of Public Open Space or Common Open Space shall be not less than fifty (50) feet in width to provide adequate buffers from adjacent residential lots. The size, shape and location of said Public Open Space or Common Open Space shall be subject to review and approval of the Plan Commission and Zoning Administrator in order to qualify the project for consideration as a PUD, Public Open Space or Common Open Space shall be a minimum of forty percent (40%) of the entire development, while no more than twenty percent (20%) of the entire acreage of the development included in the required forty percent (40%) Open Space can be Conservancy zoned land. In any development, no more than five percent (5%) of the Public Open Space may be used for Public Buildings, such as schools, fire stations, municipal buildings, etc.
- e. In Public Open Space or Common Open Space containing Environmentally Significant Areas, a maximum of two percent (2%) of the Environmentally Significant Areas may be used for limited construction of recreational related Structures and recreational trails.
- f. Public Open Space or Common Open Space shall contain at least ninety percent (90%) Green Space. Such Public Open Space or Common Open Space shall not be part of individual residential building lots and all but five percent (5%) of the Open Space shall be free of Structures and Impervious Surface. The Zoning Administrator and the Plan Commission may increase as a Special Exception the maximum requirement in conformance with the overall intent of these provisions while also protecting the public's interest.
- g. Adequate guarantee shall be provided for permanent retention of the Open Space resulting from these regulations, either by private reservation for use of the residents within the development or others as may be specifically provided for, i.e.: farmers use of Open Space, dedication to a public entity or development of a private recreational facility open to the general public in perpetuity for a fee, subject to Plan Commission and Zoning Agency approval. There shall not be any clear cutting or clearing of vegetation other than dead, diseased, or dying vegetation or removal of invasive species on any lands being so preserved in Public Open Space or Common Open Space which are considered Primary or Secondary Environmental Corridor or Isolated Natural Resource Areas, as depicted on the Waukesha County Comprehensive Development Plan, except as provided in (e) for

limited trail or recreational related development.

- h. Perpetual care and maintenance of Public Open Space or Common Open Space shall be provided for by an agreement recorded with the Waukesha County Register of Deeds. Said agreement shall include an operation plan, which shall preserve the natural qualities of the environmentally significant lands. The agreement shall be submitted to and approved by the Plan Commission and the Zoning Administrator and may be subject to review by the Waukesha County Naturalist if required by the Plan Commission and/or the Zoning Administrator and this condition is not satisfied unless all such appropriate approvals are granted.
- i. Ownership and tax liability of the Open Space areas shall be established in a manner acceptable to the Plan Commission and Zoning Administrator and made part of the conditions of approval.

3. Commercial PUD:

The use of a Commercial PUD may be authorized only where the underlying zoning is mapped in one or more of the business districts on the parcel or a portion thereof. If only a portion is zoned for business, the commercial PUD may only be used for the same percentage of the site that would result from the normal application of the Business District requirements. The location of the proposed business uses can however, be flexed on the site so long as no more area is devoted to such use than is permitted in the underlying District. The attendant parking areas and service facilities for the commercial areas shall be included in the areas allocated to such non-residential uses.

- a. The proposed PUD shall be served by adequate off-street parking, loading and service facilities.
- b. The PUD shall not create an adverse effect upon the general traffic pattern or adjoining property values.
- c. Architecture, landscaping, lighting and general site development shall be compatible with the surrounding neighborhood.
- d. The aforementioned requirements shall be certified by the Town and County as having been fully met.

4. Mixed PUD:

A mixed PUD shall consider allowing a mixture of business, residential or other uses as the underlying zoning would allow. The percentage of area in the project shall be the same as would result from the application or the strict adherence of the normal district regulations. The location of the uses can however, be flexed on the site so long as no more area is devoted to the various uses than would be permitted in the underlying zoning district. The attendant parking and service facilities for the non-residential part of the project shall be included in the area allocated to such non-residential uses.

- a. The proposed mixture of commercial, industrial, residential, and other uses shall produce a unified composite which is comparable both within itself and with the surrounding neighborhood.
 - b. The mixed uses shall conform to the general requirements applicable to each of them as here-in-before set forth.
 - c. The maximum allowable dwelling unit density shall be computed using only the residential area portion of the total PUD area. If residential use and non-residential use occur in the same proposed Building, that percentage of the commercial use of the Building shall be deducted from said building lot and only the remaining area shall be used in the density computation for the remaining residential units.
5. After all conditions of a planned unit development project are certified by the town and county as being completed, the conditional use status of such completed development shall be changed to a Permitted Use in the District in which it is located.
6. Example - Computing Maximum Dwelling Unit Density in a Planned Unit Development:

A developer wishes to divide one hundred (100) acres of land into a Planned Unit Development. Ten (10) of these acres are zoned C-1 Conservancy Overlay District. The rest is zoned R-1 Residential. The preliminary plan shows an additional ten (10) acres proposed for commercial uses but not zoned for business.

The following computations demonstrate the method of determining how many residential units will be allowed in the project.

- | | | |
|----|--|--|
| a. | Gross acreage | 100 acres |
| b. | Less ten (10) acres zoned C-1
Conservancy Overlay District | <u>- 10</u> acres
90 acres |
| c. | Less ten (10) acres zoned for B-2
Business use | <u>- 10</u> acres
80 acres |
| d. | Total residential acreage in sq. ft. | 3,484,800 square feet
(80 acres x 43,560) |
| e. | Divide by square feet per dwelling unit
requirement for R-1 Residential Districts
3,484,800 divided by 41,000) | 85 units |
| f. | The 10 acres zoned for commercial use cannot be included in the PUD as it is not zoned for business uses and must be rezoned to be considered. | |

line except by agreement between abutting quarrying operations, or be in conflict with the provisions of Section 3.04(5) relating to preservation of topography.

d. Operational requirements:

- i. Fencing or other suitable barrier shall be erected and maintained around the site or around portions of the site where in the determination of the town board such fencing or barrier is necessary for the protection of the public, and shall be of a type approved by the town board.
- ii. All machinery and equipment used in the quarrying operation shall be constructed, maintained and operated in such a manner as to minimize dust, noise and vibration. Access and haulage roads on the site shall be maintained in a dust-free condition by surfacing or treatment as directed by the town engineer.

- iv. In stone quarries the production or manufacturing of veneer stone, sills, lintels, cut flagstone, hearthstones, paving stone and similar architectural or structural stone and the storing or stock-piling of such products on the site shall be considered a permissible part of the operation, provided such production does not require the use of crushing or other heavy machinery except as may be otherwise specifically authorized under the terms of the grant of permit, or as otherwise provided in a quarrying or industrial district.
- v. The manufacture of concrete building blocks or other similar blocks, the production or manufacture of lime products, the production of ready-mixed concrete and any similar production or manufacturing processes which might be related to the quarrying operation shall not be permitted except as otherwise provided in a quarrying or industrial district.

- vii. The planting of trees and shrubs and other appropriate landscaping shall be provided where deemed necessary by the plan commission to screen the operation so far as

practical from normal view, to enhance the general appearance from the public right-of-way, and generally to minimize the damaging effect of the operation on the beauty and character of the surrounding country-side. Such planting shall be started as soon as practicable, but no later than one (1) year after quarrying operations have begun, and shall be done according to the recommendations of the Waukesha County Park and Planning Commission.

- viii. Except in a quarrying or general industrial district, quarrying operations shall not begin before the hour of 7:00 a.m. and shall not continue after the hour of 6:00 p.m. and no operation shall take place on Sundays or legal holidays. During periods of national or unusual emergency, time and hours of operation may be altered at the discretion of the town board and through the issuance of a special permit which shall be renewable at thirty-day intervals.

e. Restorative Requirements:

 - (d) Such agreement and financial guarantee shall be in a form approved by the town attorney.

- ii. In the event of the Applicant's failure to fulfill this agreement, such bond, check, or other financial guarantee shall be deemed forfeit for the purpose of enabling the town to perform the restoration.
 - iii. Restoration shall proceed as soon as practicable and at the order and direction of the town engineer. However, the owner or operator may, at his option, submit a plan for progressive restoration as the quarrying operation is being carried on. The required bond in such case may cover progressive stages of the restoration for periods of not less than two (2) years.
 - iv. At any stage during the restoration the plan may be modified by mutual agreement between the town and the owner or operator.
 - v. Where there is any backfilling, the material used or the method of fill shall not be such as to create a health hazard nor which would be objectionable because of odor, combustibility, or unsightliness. In any case, the finished grade of the restored area except for rock faces, out-croppings, water bodies, or areas of proposed building or paving construction, shall be of sufficient depth of earth to support plant growth.
 - vi. Within one (1) year after the cessation of the operation, all Temporary Structures (excepting fences), equipment, stock piles, rubble heaps, or other debris shall be removed or backfilled into the excavation so as to leave the premises in a neat and orderly condition.

 - iii. The provisions of this Section 3.08(7)(S) shall not apply to

an operation which is incident to legitimate use of the premises, provided, however, where such operation involves the commercial disposal of the material removed, the approval of the plan commission shall be required and such operation shall be limited to a maximum period of six (6) months.

- iv. In a quarrying or general industrial district, the plan commission may, consistent with the intent of these regulations, modify the provisions relative to permitted hours of operation; and where the character of terrain, surrounding development, or other special conditions would justify, such modification may permit a reduction in the required setback or Offset; provided, however, that in no case shall the setback be less than one hundred (100) feet, or the Offset be less than one hundred (100) feet for quarrying operations or twenty (20) feet for any accessory access road, parking area, or office building except as may be otherwise provided by Section 3.08(7)(S)3(c).

4. Application to existing operations:

a. Permit:

Within sixty (60) days after the adoption of this Ordinance all existing quarrying operations shall be required to register with the town clerk submitting pertinent data relative to the present operation, including the boundaries of the actual operation and of the ownership. b. Plans for restoration:

There shall be required within one (1) year after adoption of this Ordinance, the submission of a plan for restoration of the site of any existing quarrying operation as provided by Section 3.08(7)(S) 3.e. The plan for restoration in such case shall not, however, impose requirements which are economically or engineeringly unreasonable with respect to conditions resulting from operations prior to enactment of this Ordinance.

3. Only sanitary landfill refuse disposal methods, subject to the standards established and enforced by the Waukesha County Department of Parks and Land Use, Environmental Health Division, the Department of Natural Resources and the State Board of Health shall be used. All garbage must be covered to the specified depth prior to the end of the day during which disposal takes place.
4. A responsible person shall be in attendance during the hours of operation, which hours shall be subject to the approval of the town board. No refuse disposal shall take place except during the specified hours of operation, and with the attendant present.
 - a. A non-flammable fence, with a gate which can be locked, must be erected to encompass the disposal site to prevent refuse disposal and scavenging during non-operating hours, and the attendant shall retain the key.

All existing refuse disposal operations shall be registered by the operator within sixty (60) days after the adoption of this Ordinance with the town clerk, submitting pertinent data relative to present operation, including the boundaries of the actual operation and ownership. A permit shall be granted to such existing operation subject to compliance with a plan of operation satisfactory to the approving bodies. A plan of restoration shall be submitted to the town by the operator within one (1) year of the adoption of this Ordinance, together with a surety bond to insure such restoration. Such operation and restoration plans shall not impose requirements which are economically or engineeringly unreasonable with respect to conditions resulting from operations prior to enactment of this Ordinance.

4. In determining whether or not the proposed Conditional Use Permit should be issued, a determination of compatibility with adjacent land uses shall be made to the Town Plan Commission and County Zoning Agency in issuing this Conditional Use Permit. If it is determined that it would in any way be incompatible and represents an adverse effect or nuisance to adjacent land uses, the Conditional Use Permit shall not be issued.
5. The Conditional Use Permit shall be reviewed every two (2) years by the Town Plan Commission in order to determine conformance with the terms of the permit, and if it is determined that the use is no longer compatible with adjacent land uses as they develop in the vicinity, the Conditional Use Permit may be revoked in accordance with the revocation procedures contained in this Ordinance.

- (X) Other uses or situations not specifically provided for in this conditional use Section and which may be determined to be acceptable under the provisions of Section 3.07(3) and in the judgment of the plan commission and county zoning agency meet the intent of a conditional use as set forth in Section 3.08(1). Those facilities providing service to a greater number of guests are not considered "license exempt" under state law and must comply with state Hotel/Motel/Restaurant licensing procedures administered by the County or State Health Department. A common entrance to the Residence and In-law Unit should be designed into the Structure so that a separate front entrance, off of the common entrance, is available and the Structure does

not appear to be a duplex.

5. The Plan Commission and the County Zoning Agency shall determine if it is appropriate to have an interior door between the In-law Unit and the principal Residence.
6. A Deed Restriction shall be filed in the Waukesha County Register of Deeds office and a copy of the recorded document presented to the Building Inspector prior to issuance of the Building Permit. This Deed Restriction shall state that the In-law Unit is to be occupied by persons related by blood or marriage to the Family occupying the principal unit and that the Conditional Use is not transferable without formal approval of the County Zoning Agency without necessity of a public hearing and that the unit will be used as intended.

3.09 Building location.

(1) Road Setback:

- (A) Base Setback Lines, from which building setback shall be measured, are hereby established for all Streets and Highways in the county as follows, unless otherwise specified by action of the County Zoning Agency:

1. On all Streets or Highways for which the ultimate width has been established by the Highway Width Ordinance of Waukesha County, the Base Setback Line shall be located at a distance from the centerline equal to one-half such established width as designated on the Established Street and Highway Width Map of Waukesha County.

2. On all other streets, which shall be designated as "local streets," the Base Setback Line shall be thirty-three (33) feet from the center line of such Street or sixty (60) feet from the center point of a cul-de-sac unless specifically designated otherwise by action of the County Zoning Agency.
 3. When a Lot abuts a frontage road, the Base Setback Line shall be located at a distance from the centerline equal to one-half the right-of-way width of said frontage road.
 4. Such setback lines shall be parallel to and measured at right angles to the centerline of the Street or Highway.
 5. There shall be a required setback equal to the offset requirements of the District in which the property is located, from a private right-of-way providing ingress and egress to the subject land or other lands unless such private right-of-way is considered a mill tax road, in which case the normal road setback requirements contained in this Ordinance shall apply. The offset requirements for private rights-of-way shall not be subject to the sewer reduction provisions or any offset reduction provisions contained in this Ordinance. The Road Setback averaging provisions of Section 3.09(1)(C) apply.
- (B) Vision setback lines at the intersections of public streets or Highways and of a Street or Highway with a railroad, where the grade is not separated, are hereby established as follows:
1. Across each sector between the intersection of a Street or Highway with a railroad, a Vision Setback line shall be established by a straight line, connecting points on the Base Setback Line and the railroad right-of-way line, which points are located one hundred twenty (120) feet from the intersection of the Base Setback Line and the railroad right of-way line.
 2. Across each sector between intersecting streets or Highways, one (1) or more of which has an established width of one hundred (100) feet or more, a Vision Setback line shall be established by a straight line connecting two (2) points on the intersecting Base Setback Lines, which points are located sixty (60) feet distant from the intersection of said Base Setback Lines.
 3. Across each sector between any other intersecting streets a Vision Setback line shall be established by a straight line connecting two (2) points on the intersecting Base Setback Lines, which points are located thirty (30) feet distant from the intersection of said Base Setback Lines.
- (C) No Principal or Accessory Building shall be hereafter erected, altered, horizontally added to, relocated or placed closer to the Base Setback Line than the Road Setback distance specified by the regulations for the District in which such Building is located except as specified here-in-after:
1. Building within Road Setback on one side only: If there is a Building which has less than the required Road Setback, with a similar use as the proposed Building, the average of the Road Setback of that Building and the required minimum Road Setback shall apply, provided that the existing Building is on an adjacent Lot, is located within two hundred fifty (250)

feet of the proposed Building and is located on the same side of the Road.

2. Buildings within Road Setback on both sides. If there are two Buildings which have less than the required Road Setback, with similar uses as the proposed Building, the average of the Road Setbacks of those Buildings shall apply, provided that the existing Buildings are on adjacent Lots, are located within two hundred fifty (250) feet of the proposed Building and are located on the same side of the Road.
3. Addition to an existing Building within Road Setback. In the case of a proposed addition to an existing Building which has less than the required Road Setback, the Road Setback of such existing Building may be used to determine the required Road Setback for the proposed addition, as set forth below:
 - a. If there are existing Buildings within the Road Setback on both adjacent lots and both of the Buildings are located closer to the road than the Building that is proposed to be expanded, the average Road Setback of the adjacent Buildings is the minimum setback for the addition. The adjacent Buildings must contain similar uses, be located within two hundred fifty (250) feet of the Building to be expanded and be located on the same side of the Road.
 - b. If there is only one existing Building within the Road Setback on an adjacent Lot, the average of the Road Setback of the existing Building to be expanded and the existing Building on the adjacent Lot shall apply to the addition. The adjacent Building must contain a similar use, be located within two hundred fifty (250) feet of the Building to be expanded and be located on the same side of the Road.
 - c. If there are existing Buildings within the Road Setback on both adjacent Lots, but one of the adjacent Buildings is located further from the Road than the existing Building to be expanded, the average of the Road Setback of the existing Building to be expanded and the Building on the adjacent Lot located closest to the Road shall apply to the addition. The adjacent Building must contain a similar use, be located within two hundred fifty (250) feet of the Building with the proposed addition and be located on the same side of the Road.
 - d. If existing Buildings on both adjacent Lots with a similar use as the building to be expanded are located farther than the required Road Setback or if there are no similar Buildings on both adjacent Lots, these Road Setback averaging provisions do not apply.
4. If the above exceptions do not apply and an improvement or addition is proposed to an existing Nonconforming Structure, the provisions of Section 3.17 apply.
5. On corner Lots of Record, as of the date of adoption of this Ordinance, the effect of the setback regulations shall not reduce the buildable width of such corner Lot to less than thirty (30) feet. Where such reduction would

result in an area narrower than thirty (30) feet after applying the offset reduction, the Zoning Administrator shall have the authority to modify the setback or offset provision to the extent necessary to minimize the encroachment on both the offset and setback standard while maintaining the thirty (30) feet area required herein.

6. No other Structures of any kind, except necessary highway and traffic signs, Retaining Walls, open stairs extending six (6) feet or less from the enclosed portion of the Structure, open stairs in combination with Stoops and/or Porches which are unenclosed and provide no more than twenty (20) square feet in area and extend no more than six (6) feet from the enclosed portion of the Structure, public utility lines, rural mailboxes, and those Signs permitted in a residential or agricultural district shall be hereafter erected, altered or placed within such base setback area. Monuments and-entrance gates are Structures which require a zoning permit and shall be located at least ten (10) feet from the Base Setback Line and shall not restrict safe access and visibility of the intersecting drive and the Road and shall be subject to review and approval by the plan commission and the zoning administrator and the applicable municipality having jurisdiction over the Road or Highway.

- (D) In the Vision Setback area no Structure of any kind shall be permitted which exceeds a height of two (2) feet above the elevation of the center of the intersection, except for necessary highway and traffic signs, public utility lines, and open fences through which there is clear vision, nor shall any plant material be permitted which obscures safe vision of the approaches to the intersection.
- (E) Additions, replacements, and structural modifications of existing Structures may be made within the established road right-of-way as set forth by Section 3.09(1)(A) of this Ordinance, subject to approval of the Town Board and the Waukesha County Board of Adjustment, if applicable. The owner shall record with the Waukesha County Register of Deeds an agreement in writing to the effect that the owner will remove all new construction, modifications, additions and replacements erected after the adoption of this Ordinance at his/her expense, when said right-of-way is necessary for the improvement of the Highway.
- (F) In all cases where any of the Highways for which setback lines are established by this Ordinance are located on municipal boundaries, such establishment shall apply only within the unincorporated area.

(2) Wetland Setback:

Every Structure shall have a setback of at least seventy-five (75) feet from a wetland boundary, except for the following:

- (A) A Retaining Wall shall be located outside of the wetland boundary.
- (B) A single stairway or walkway may be permitted within the Wetland Setback. If the walkway is proposed in an area designated as Wetland, the walkway shall be constructed on pilings.
- (C) Where there is an existing pattern of development with Principal Buildings having setbacks less than seventy-five (75) feet from the wetland boundary line, the

setback requirements for new Principal Buildings or additions to Principal Buildings shall be allowed to be reduced in accordance with the following setback averaging formula, however, in no case shall the required minimum Wetland Setback be reduced to less than thirty-five (35) feet:

1. Building within Wetland Setback on one side only: If there is a Principal Building that is located less than seventy-five (75) feet from the Wetland with a similar use as the proposed Building and located on an adjacent Lot on one side of the proposed Building and within two hundred fifty (250) feet of the proposed Building, the average of the Wetland Setback of that Building of similar use and the required minimum Wetland Setback shall apply.
2. Buildings within Wetland Setback on both sides: If there are two Principal Buildings which are located less than seventy-five (75) feet from the Wetland with similar uses as the proposed Building and located on adjacent Lots on each side of said Building and within two hundred fifty (250) feet of the proposed Building, the average of the Wetland Setbacks of those Buildings of similar use shall apply.
3. Addition to an existing Building within Wetland Setback: In the case of a proposed addition to an existing Principal Building which has less than the required Wetland Setback, the Wetland Setback of such existing Building may be used to determine the required Wetland Setback for the proposed addition as set forth below.
 - a. If there are no existing Buildings with a similar use as the Building with the proposed addition on either of the adjacent Lots, the average of the Wetland Setback of the existing Building and the required Wetland Setback shall apply to the addition.
 - b. If there is only one existing Building with a similar use as the Building with the proposed addition on an adjacent Lot, the average of the Wetland Setback of the existing Building and the existing Building on the adjacent Lot shall apply to the addition.
 - c. If there are existing Buildings with similar uses as the Building with the proposed addition on both adjacent Lots but one of the adjacent Buildings is located further from the Wetland than the existing Building with the proposed addition, the average of the Wetland Setback of the existing Building and the Building on the adjacent Lot located closest to the Wetland shall apply to the addition.
4. In applying these wetland setback averaging formulas to a proposed Principal Building or addition to a Principal Building, the wetland setback measurements shall be taken from other Principal Buildings only and the measurements shall not be from any immediately adjacent Structures, such as Decks or Patios, Retaining Walls, Swimming Pools or sports courts.
5. In applying these wetland setback averaging formulas to a proposed Structure, such as a Deck or Patio, or Swimming Pool, which is immediately adjacent to the Principal Building, the wetland setback

measurements may be taken from other Principal Buildings or immediately adjacent Structures, such as Decks or Patios, but not from Retaining Walls, detached Swimming Pools and sports courts.

- (D) The effect of the wetland setback regulations in combination with the road setback regulations shall not reduce the buildable depth of such Lot to less than thirty (30) feet. Where such reduction would result in a depth less than thirty (30) feet after applying the wetland setback and road setback averaging formulas, the zoning administrator shall have the authority to modify the road setback and wetland setback provisions to the extent necessary to minimize the encroachment on the road setback and wetland setback standards while maintaining the thirty (30) foot depth.
- (E) One (1) accessory Structure with a maximum size of two hundred (200) square feet may be located as close as thirty-five (35) feet from the Wetland provided there is no other conforming location available and no other accessory Structures located on the Lot.
- (F) If the above exceptions do not apply and an improvement or addition is proposed to an existing Legal Nonconforming Structure, the provisions of Section 3.17 apply.

(3) Offsets:

- (A) No Structure, excluding a roof Overhang measuring twenty-four inches (24") or less, shall be located closer to any Lot Line than the Offset distance specified by the regulations for the District in which such Structure is located, with the following exceptions:
 - 1. In the case of a Lot of Record, which has a minimum average width of less than one hundred twenty (120) feet, the required Offset for a Structure from a Side Lot Line may be reduced as follows, unless the district requirement is less restrictive, in which case, the less restrictive requirement applies:

Lot Width (ft.)	Required Offset (ft.)
35 ft. or less	5 ft.
Greater than 35 ft. to 50 ft.	7 ft.
Greater than 50 ft. to less than 84 ft.	10 ft.
84 ft. to less than 120 ft.	14 ft.

- 2. Offsets for Buildings housing Livestock, Fur Bearing Animals, pigeons, swine, goats and Poultry, shall be not less than fifty (50) feet from an adjacent property line. This does not include doghouses.
- 3. When a detached accessory Structure lies on an adjacent Lot and closer than five (5) feet of the common Lot Line, a new detached accessory Structure with a similar use may be located the same distance from the common boundary as the existing detached Structure on the adjacent Lot, as long as they are within ten (10) feet of each other. For example, an existing detached accessory Structure less than two hundred (200) square feet in size is considered similar if the proposed detached accessory Structure is less than two hundred (200) square feet in size. In such a case, the new detached accessory Structure shall contain a firewall sufficient to

meet the one-hour fire rating contained in the building code. Building sidewalls may be no closer than three (3) feet in order to accomplish proper Maintenance. A deed restriction shall be recorded prior to issuance of the zoning permit prohibiting the construction of fences between said Buildings, requiring the maintenance of a firewall and permitting Maintenance of said Buildings from adjacent Lots.

4. One detached accessory Building on any Lot which is less than two hundred (200) square feet in area may be located five (5) feet to the Side Lot Line unless otherwise excepted under any other provision.
5. Offsets on Decks and Patios may be reduced to fifty percent (50%) of the distance between the principal Structure and the Lot Line, otherwise required for the principal Structure, but shall in no case be located closer than five (5) feet of a Lot Line.
6. Stairways or walkways, five (5) feet in width or less, shall be located a minimum of five (5) feet from a Lot Line. Stairways or walkways that exceed five (5) feet in width, shall comply with subsection 5 above. Existing stairways or walkways may be replaced in-kind within five (5) feet of a Lot Line.
7. Retaining Walls do not need to meet the offset requirements of the individual zoning districts if they comply with the provisions of Section 3.04(5).
8. If the above exceptions do not apply and an improvement or addition is proposed to an existing Legal Nonconforming Structure, the provisions of Section 3.17 apply.

(B) Where a Lot abuts a District boundary line, the Offset from such line in the District of less restricted use shall be not less than that required for the District of more restrictive use.

(C) In the case of multiple family or commercial use Structures, the Offsets may be modified as follows:

1. Two (2) or more Buildings on adjoining Lots may be erected with common or directly adjoining walls provided the requirements of the state industrial code relative to such construction are complied with, and provided that at both ends of such "row" type buildings, the applicable offset requirements shall be complied with.
2. A minimum Offset of twenty (20) feet between Buildings is required unless otherwise specified in this Ordinance.

(4) Maintenance and use of Setback and Offset areas:
Any such required setback or offset area shall be landscaped and kept clean and free from the accumulation of debris or refuse and shall not be used for the storage or display of equipment, products, vehicles or any other material.

(5) Accessory Building location:
No detached Accessory Building shall be erected, structurally altered or placed on a Lot so

that any roofed or enclosed portion thereof is closer than ten (10) feet to the Principal Building on said Lot.

3.10 Height regulations.

(1) Maximum Height - Principal Structures:

The following height provisions apply to principal Structures in all Districts except for the P-I, Q-1, M-1 and M-2 Districts, where height regulations are specified in each respective District section:

- (A) Overall maximum height (lowest exposure to highest peak), thirty-five (35) feet, for Structures on a Lot with an average width less than sixty-five (65) feet.
- (B) Overall maximum height (lowest exposure to highest peak), forty-four (44) feet, for Structures located on Lots with an average width of at least sixty-five (65) feet. A Structure with a flat roof is limited to an overall maximum height of thirty-five (35) feet and subsection (C) below does not apply.
- (C) Maximum height from lowest exposure to highest eave, thirty-two (32) feet, for Structures on Lots with an average width of at least sixty-five (65) feet.

(2) Maximum Height – Accessory Structures:

The following height provisions apply to accessory Structures in all Districts except for the FLC, FLP, A-T, A-B, H-G, P-I, Q-1, M-1 and M-2 Districts, where height regulations are specified in each respective District section:

- (A) Maximum overall height is limited to eighteen (18) feet, or
- (B) The maximum overall height is limited to sixty (60) feet if the Structure is used for farm or agricultural purposes in the AD-10, RRD-5, A-5, A-1, and P-I Districts and the R-1 District if designated in the Farmland Preservation County Development Plan category.

- (3) Provided a Structure or Building is located on a Lot that is at least sixty-five (65) feet in average width, the height may be increased by one (1) foot for each foot the Structure exceeds the Offsets and Setbacks, except for Decks and Patios, but not by more than ten (10) additional feet. The above provided height increase does not apply to Lots zoned R-1, R-2, R-3, or E-C.

(4) Exceptions:

The following shall be exempt from the height regulations of all Districts.

- (A) Chimneys and flues.
- (B) Subject to approval of the Plan Commission; cooling towers, elevators, bulkheads, fire towers, monuments, stacks, tanks, water towers, ornamental towers, spires, wireless or broadcasting towers, masts, aerials, and necessary mechanical appurtenances.

(Section 3.10 was amended by Enrolled Ordinance 161-13, effective 09/04/06.)

(Section 3.10 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

3.11 Area and Building Footprint regulations.

(1) Minimum Floor Area:

- (A) Any Building intended in whole or part for single-family residential purposes shall provide a minimum overall Floor Area of eleven hundred (1,100) square feet with at least eight hundred fifty (850) square feet of Floor Area on the first floor. Minimum Floor Area shall be measured at each level from the outside edge of wall to outside edge of wall. Basements, exterior balconies, unenclosed Porches, and Garages shall not be included in the minimum floor area calculation.
- (B) The Zoning Administrator can administratively approve a minimum first Floor Area of less than eight hundred fifty (850) square feet in order to accommodate an attached maximum six hundred (600) square foot Garage. However, the minimum first Floor Area to be used for residential purposes shall be equal to or greater than the combined Floor Area of attached Garages and detached accessory Structures. The architecture shall be of a type and quality that is compatible to the surrounding area and shall be reviewed and approved by the Zoning Administrator. The minimum overall Floor Area of eleven hundred (1,100) square feet shall still be met.
- (C) A single-family residential unit in a mixed-use Building and multi-family residential units shall provide a minimum overall Floor Area (per unit) as follows:
 - 1. Two-family Buildings (duplexes): Eight hundred fifty (850) square feet per unit.
 - 2. Multi-family units or single-family units that are part of a mixed-use development:
 - a. Six hundred (600) square feet per one-bedroom unit.
 - b. Seven hundred (700) square feet per two-bedroom unit.
 - c. Eight hundred (800) square feet per three-bedroom unit.
 - d. An additional one hundred (100) square feet for each additional bedroom.

- (C) The board of adjustment may grant a Special Exception to permit a Building of less than the required minimum Floor Area where such grant would not be contrary to the spirit or intent of this Ordinance and provided the proposed Building would not be of such character or quality as to depreciate the property values of the surrounding area.

(2) Lot size:

- (A) No Lot shall hereafter be created and no Building shall be erected on a Lot of less land area or minimum average width than hereinafter specified by the regulations of the District in which such Building is located except as may be provided in Sections 3.11 (2) (E), 3.08 (7) (N) and 3.08(7)(P) of this Ordinance.
- (B) For the purpose of this Ordinance, the Lot Area shall be measured from the Base Setback Line.
- (C) A Lot shall be at least as wide as the specified minimum average width for a distance of at least one-half the length of the Lot.
- (D) No Lot Area shall be reduced by any means so as to create a Lot of less than the required size or so that the existing- Offsets, Setbacks, Open Space, or Lot Area would be reduced below that required by the regulations for the District in which such Lot is located.
- (E) Where a Lot has less area than required for the District in which it is located and was of record at the time of the passage of this Ordinance (February 26, 1959), such Lot shall be used for any purpose permitted in any such District and the maximum Building Footprint regulations shall comply with requirements of the R-3 Residential District except where otherwise specified in other sections of this Ordinance.
- (F) Lots split by a Road (public or private): If a single Lot or multiple Lots are in the same ownership, but are split by a separately described public or private road, the following regulations apply:
 - 1. For a single Lot of Record (as defined in this Ordinance), the acreage on both sides of the road right-of-way may be used for purposes of calculating minimum Lot Area, maximum accessory Building Footprint, maximum overall Building Footprint, and allowable Impervious Surface, if applicable.
 - 2. For multiple Lots of Record (as defined in this Ordinance), the acreage on one side of the road right-of-way shall not be used to benefit the Lot on the other side of the road right-of-way for purposes of calculating minimum Lot Area, maximum accessory Building Footprint, maximum overall Building Footprint, and allowable Impervious Surface, if applicable.
 - 3. For multiple Lots of Record in common ownership, an accessory Structure may be constructed on one side of the road right-of-way without the benefit of a principal Structure on the same side of the road right-of-way provided the following are met:
 - a. The Lots in common ownership are directly opposite each other for

at least one-half of the road frontage of one of the Lots.

- b. A principal Structure must exist on the Lot owned in common on the opposite side of the road right-of-way.
- c. A certified survey map shall be prepared and approved by all reviewing entities restricting the Lots from being sold separately, unless the accessory Structure is removed.

(3) **Substandard Lots:**

- (A) A legally created Lot or parcel that met minimum area and minimum average width requirements when created, but is not at least twenty thousand (20,000) square feet in size and one hundred (100) feet in average width, unsewered, or ten thousand (10,000) square feet in size and sixty-five (65) feet in average width, sewered, may be used as a building site if all of the following apply:
 - 1. The substandard Lot or parcel has never been developed with one or more of its Structures placed partly upon an adjacent Lot or parcel.
 - 2. The substandard Lot or parcel is developed to comply with all other Ordinance requirements.
- (B) A substandard Lot that does not comply with subsection (A) above, may only be developed if a Variance is granted by the Board of Adjustment.

(4) **Accessory Buildings:**

The total Building Footprint of all Accessory Buildings on a Lot in any zoning district may not exceed the accessory building footprint limitations specified in the following table, with the exceptions listed below the table:

(A) **Accessory Building Footprint Table:**

Lot Area	Maximum Building Footprint
<14,000 sq. ft.	600 sq. ft.
14,000 sq. ft. or greater	750 sq. ft. or 2% of Lot Area, whichever is greater

- (B) On Lots of fifteen (15) acres or more in area, the accessory building footprint may be greater than the two percent (2%) limit when used solely for the pursuit of agriculture and where the Accessory Buildings will house equipment as regulated in Section 3.12(3)(A), and when consistent with the maximum overall Building Footprint requirements of this Ordinance.
- (C) Farm Consolidation exception. Maximum accessory building footprint limitations shall be established by the Plan Commission and County Zoning Agency for Lots that are designated in the Farmland Preservation County Development Plan category that have been rezoned to the R-1 Residential District pursuant to Section 6.19.
- (D) Temporary Structures and attached Garages shall not be included in calculating allowable accessory Building Footprint.

- (E) A Lot is limited to two (2) accessory buildings unless the Plan Commission has rendered a finding to allow more than two (2) accessory buildings in light of the provisions of Section 3(d)3.B. More than two (2) accessory buildings may also be permitted under the following circumstances:
 - 1. On Lots of fifteen (15) acres or more in area and when used for Agricultural Use and where the Accessory Buildings will house equipment as regulated in Section 3.12(3), and when consistent with the maximum overall Building Footprint requirements of this Ordinance.
 - 2. In all Business, Industrial, Public and Institutional, and Quarrying Districts, when approved by the Plan Commission and Zoning Administrator as part of the plan of operation and site plan review, and where said Buildings are used accessory to the Principal Use on said Lot, and when consistent with the maximum overall Building Footprint requirements of this Ordinance.
 - 3. On Lots which are the subject of a conditional use permit and as regulated by the conditional use permit, and when consistent with the maximum overall Building Footprint requirements of this Ordinance.
- (F) All Accessory Buildings shall be constructed in such a way that the exterior appearance is compatible with the design, style, architecture and appearance of the principal Structures on the parcel. This determination shall be made by the local building inspector and the Zoning Administrator. In case of dispute, such questions shall be submitted to the Plan Committee and the Zoning Agency for review and approval in accordance with Section 3.04(3). This requirement does not apply to farming operations on more than thirty-five (35) acres.
- (G) In no case shall any Accessory Building be used for purposes not allowed in the underlying zoning district or as may be authorized by a conditional use permit.
- (5) Building Footprint (as defined in this Ordinance):
 - (A) Minimum Building Footprint: The Zoning Administrator may administratively approve a Building Footprint not to exceed eleven hundred (1,100) square feet when application of Offsets and Setbacks does not otherwise provide an eleven hundred (1,100) square foot Building Footprint. The Zoning Administrator is limited to providing Road Setback and Wetland Setback relief only. The administratively approved Building Footprint shall not extend into the established road right-of-way or within Wetland.

- Screening. Any off-street parking area, other than that provided for a single-family residence, which fronts a Road or abuts a residential district, shall provide a permanent planting screen, landscaped fence, or landscaped wall of at least three (3) feet in height, at time of installation, along that portion of the parking area that abuts a Road or fronts a residential district. *(Editor's Note: * The Downtown Okauchee District (DOD) should not be referenced in the Zoning Code because it does not exist within its jurisdiction. A corrective ordinance will be forthcoming.)*

(5) Accessible Parking

A. Number of required accessible stalls.

- i. Non-Residential Land Uses.
 - a. All non-residential development and uses must conform to the Americans with Disability Act (ADA). The requirements of ADA may be amended over time; compliance with the most current ADA standards is required. Developments that complied with ADA standards in effect when constructed have "safe harbor" meaning that the property owner does not have to comply with new ADA requirements until a parking lot undergoes a planned alteration such as re-striping or re-surfacing.
 - b. The number of required accessible parking spaces for non-residential uses are set forth in the Required ADA Accessible Stalls table below. If ADA standards are amended to require additional stalls, the more restrictive provision shall apply. Parking facilities that are used exclusively for buses, trucks, delivery vehicles, law enforcement vehicles and vehicular impound are not required to include accessible spaces.

Required ADA Accessible Stalls

Total Number of Parking Spaces	Minimum Number of Accessible Parking Spaces	Minimum Number of Van Accessible Parking Spaces
1-25	1	1
26-50	2	1
51-75	3	1
76-100	4	1
101-150	5	1
151-200	6	1
201-300	7	2
301-400	8	2
401-500	9	2
501-1000	2% of total	1 per every six accessible stalls or fraction of six stalls
1001 or more	20, plus 1 for each 100, or fraction thereof, over 1000	1 per every six accessible stalls or fraction of six stalls
Hospital outpatient facilities	10% of patient/visitor spaces	1 per every six accessible stalls or fraction of six stalls
Rehab facilities for mobility related conditions & physical therapy clinics	20% of patient/visitor spaces	1 per every six accessible stalls or fraction of six stalls

ii. Residential Land Uses.

- b. Residential developments must comply with Fair Housing Act requirements relative to the number of provided accessible stalls. Per the Fair Housing Act, a minimum of two percent (2%) of the provided parking stalls must be accessible unless the local building code or State building code requires more, in which case the more stringent requirement shall apply. If the application of the 2% standard yields a fraction, an additional stall shall be provided for any part of a fraction (i.e., 2% of 75 stalls is 1.5; therefore, two (2) stalls would be required).
- c. Pursuant to Fair Housing Act requirements, if additional accommodations are requested by residents, more accessible spaces must be provided. A minimum of one (1) accessible parking stall must be provided at each site amenity (i.e. rental office, pool, etc.).

B. Accessible Stall and Aisle Dimensions.

Stall Type	Minimum Stall Width	Minimum Access Aisle Width
Accessible Stall	8'	5' (can be shared)
Van Accessible Stall	11'	5'
Van Accessible Stall w/ Wide Aisle	8'	8'

C. Location.

Where a parking facility serves multiple Buildings or accessible entrances, accessible parking spaces must be dispersed to enable people to park near as many accessible entrances as possible. Where separate parking facilities serve the same Building or facility, accessible spaces may be grouped if nearest to the Building or facility entrance.

D. Accessible Routes.

Accessible spaces must connect the shortest possible route to the accessible Building entrance of the facility they serve. Accessible routes must be at least thirty-six (36) inches wide, without steps or curbs and must not contain any feature that would restrict, inhibit or unreasonably impede the movement of a physically disabled individual.

E. Signage and Marking.

- i. Signage: Accessible parking spaces must be identified by signs that include the International Symbol of Accessibility. Signage must be placed in front of the parking space and be mounted a minimum of five (5) feet above the ground, measured to the bottom of the sign. Van accessible space signage must include the phrase "van accessible."
- ii. Access aisles must be marked with hatch marks.
- iii. Exceptions: Parking lots that have four (4) or fewer total spaces do not need to designate the accessible space with a sign. Residential facilities where parking spaces are assigned to specific dwelling units are also exempt from the requirement to post signs at accessible spaces.

F. Surfacing.

The surface of all accessible stalls and access aisles must be smooth, stable and virtually level in all directions to ensure safe use for people with disabilities.

G. Vertical Clearance.

Van accessible spaces and their associated access aisles and vehicular routes serving them must provide vertical clearance of a minimum of ninety-eight (98) inches to allow for the height of typical wheelchair lift-equipped vehicles.

(6) Residential Parking

- A. Cars, vans and pickup trucks. Parking of vehicles accessory to a residential use shall be limited to those actually used by the residents of a property or for temporary parking for guests. Cars, vans and pickup trucks for personal use are

A Recreational Vehicle is ready for highway use when it is on wheels or jacking system, is attached to the site only by quick-disconnect utilities and security devices and has no permanently attached additions.

*Editor's Note: * The Existing Floodplain Development Overlay District (EFD) should not be referenced in the Zoning Code because it does not exist within its jurisdiction. A corrective ordinance will be forthcoming.)*

- (7) Parking of trucks and equipment. No vehicular equipment of a commercial or industrial nature (such as trucks, construction vehicles, grading equipment, buses, semi-trailers and tractors, and similar vehicles, trailers and related equipment), except as allowed in subsection 6 above, shall be parked or stored on any Lot in any zoning district except as permitted in the B-3, M-1, M-2, P-I and Q-1 Districts or except as follows:

- A. Agricultural equipment (such as farm tractors, farm plows, seeders, combines, cultivators, trucks owned and used by the farmer in the operation of his or her farm, and similar related equipment) parked in an agricultural district and used in an active farm operation as defined in this Ordinance.
- B. A Conditional Use Permit pursuant to Section 3.08(7)(W) may be sought to permit the parking of commercial or industrial-type vehicles in any zoning district except the C-1 Conservancy Overlay, EC Environmental Corridor Overlay or DOD Downtown Okauchee District*. In the B-3, Q-1, M-1, M-2 and P-I Districts where such vehicles are accessory to an otherwise permitted business, industrial, public and institutional, or quarrying use, a Conditional Use Permit will not be required and there are no limitations as to the number of such vehicles which may be parked on the property except as may be hereinafter established under the provisions of the applicable zoning district, or the approved Conditional Use or site plan/plan of operation.

*Editor's Note: * The Downtown Okauchee District (DOD) should not be referenced in the Zoning Code because it does not exist within its jurisdiction. A corrective ordinance will be forthcoming. The Editor also corrected reference to 3.08(7)(W) in this subsection.)*

- (8) Waiver. Relief from the requirements of Section 3.12 may be granted as part of the site plan/plan of operation process upon demonstration that strict compliance with the above regulations is impractical.

4.02 Zoning map.

(1) Districts mapped:

The boundaries of said Districts are shown upon Sectional zoning maps of each of the towns of Waukesha County under the County Zoning Ordinance, which maps are made part of this Ordinance, and all the notations, references and other information shown thereon shall be as much a part of this Ordinance as if the matters and information set forth by said maps were all fully described herein. Said maps shall be kept on file in the offices of the County Zoning Agency and the copies attached hereto are correct only as of the date of publication and are for general informational purposes only. For the purpose of local administration, a copy of the appropriate Section map shall also be kept on file in the office of each Town.

(Section 4.02 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

(Section 4.02 was amended by Enrolled Ordinance 175-18, effective 8/12/20.)

4.03 FIRST AMENDMENT PROTECTED ADULT-ORIENTED ESTABLISHMENTS.

(1) FINDINGS OF FACT.

(A) The Board finds that Adult-Oriented Establishments, as defined in this Ordinance, require special zoning in order to protect and preserve the health, safety, and welfare of the County.

(B) Based on its review of studies conducted in Phoenix, AZ, Garden Grove, CA, Los Angeles, CA, Whittier, CA, Indianapolis, IN, Minneapolis, MN, St. Paul, MN, Cleveland, OH, Oklahoma City, OK, Amarillo, TX, Austin, TX, Beaumont, TX, Houston, TX, Seattle, WA and the findings incorporated in City of Renton v. Playtime Theaters, Inc., 475 U.S. 41 (1986), Colman A. Young v. American Mini-Theaters, Inc., 427 U.S. 50 (1976), the Board finds that there is convincing evidence that the secondary effects of Adult-Oriented Establishments include an increased risk of prostitution, high-risk sexual behavior, crime, and other deleterious effects upon existing businesses and surrounding residential areas, and decreased property values.

(C) The Board intends to control the impact of these secondary effects in order to protect the health, safety, and welfare of the citizenry; protect the citizens from increased crime; preserve

the quality of life; preserve the property values and character of surrounding neighborhoods and areas.

- (D) It is not the intent of the Board to suppress any speech activities protected by the First Amendment, but to enact a content-neutral ordinance which addresses the secondary effects of Adult-Oriented Establishments while providing an outlet for First Amendment protected activities.
- (E) In order to minimize and control the secondary effects of Adult-Oriented Establishments upon the County, it is the intent of the Board to prevent the concentration of Adult-Oriented Establishments within a certain distance of each other and within a certain distance of other specified locations which are incompatible with and would suffer from the secondary effects of Adult-Oriented Establishments.
- (F) Based upon its review of materials linking alcohol consumption and high-risk sexual behavior and materials linking alcohol consumption and crimes such as sexual assault, the Board finds that a geographic separation of Adult-Oriented Establishments from alcohol beverage licensed premises is warranted.

(2) LOCATION OF FIRST AMENDMENT PROTECTED ADULT-ORIENTED ESTABLISHMENTS.

- (A) The First Amendment and other provisions of the United States Constitution, as interpreted by the United States Supreme Court and other courts, require that Adult-Oriented Establishments, as defined by this ordinance, are entitled to certain protections, including the opportunity to locate in shorelands and floodlands governed by this ordinance. Therefore, an Adult-Oriented Establishment shall be an allowed use in the A-B, B-4 and Q-1 zoning districts and shall be a prohibited use in any other zoning district. The Adult-Oriented Establishment may locate in the specified Districts only if an Adult-Oriented Establishment License has been granted by a town or municipality within the County which is subject to this ordinance, and all the requirements of this Section and the applicable zoning district's regulations are met.
- (B) Adult-Oriented Establishments shall be located at least 1,000 feet from:
 - 1. any residential district line, playground Lot Line, or public park Lot Line;
 - 2. any Structure used as a Residence, place of religious worship, public or private school, or "Youth Facility" as defined in the County's Zoning Ordinance;
 - 3. any other Structure housing an Adult-Oriented Establishment;
 - 4. any Structure housing an establishment which holds an alcohol beverage license.
- (C) Distance requirements are to be measured in a straight line in any direction regardless of intervening Structures, from the Structure housing the Adult-Oriented Establishment to the residential district boundary lines, to the Lot Line of any Lot used for a park, playground, or any Structure listed in subsection (2)(B)2 through 4 above.
- (D) The measurements from a Structure shall be taken from the farthest point a Structure extends in the direction of the measurement, including overhanging roofs or similar projections.

- (E) For Adult-Oriented Establishments located in conjunction with other Buildings such as in a shopping center, and clearly separate from other establishments, measurements shall be taken from the boundaries of the space occupied by the Adult-Oriented Establishment.
- (F) For any Adult-Oriented Establishment located above ground level in a multi-story Structure and clearly separate from other establishments within the Structure, the distance measurements shall be taken from the ground floor public entrance/exit nearest the Adult-Oriented Establishment (excluding emergency exits).
- (G) A licensed Adult-Oriented Establishment is not disqualified from holding an Adult-Oriented Establishment License by the subsequent location of any of the establishments described in subsection (B), above, within one thousand (1,000) feet of the licensed premises after the grant or renewal of its license. This provision applies only to renewal of an existing license and does not apply when an application for a license is submitted after a license for that location has not been renewed or has been revoked.

(Section 4.03 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

SECTION 5 C-1 CONSERVANCY OVERLAY DISTRICT

SECTION 6 FLC FARMLAND CONSERVANCY DISTRICT

(Section 6 was renamed as FLC Farmland Conservancy District and amended by Enrolled Ordinance 170-72, effective 12/31/15.)

6.01 Purpose and intent.

This District is intended to apply to those areas that are designated on the Comprehensive Development Plan for Waukesha County for Farmland Preservation and which are presently in Agricultural Use by virtue of either cultivation, pasture or in some other way, and which if they were not being used for agricultural purposes would be classified as conservancy lands due to inherent wet soil characteristics and/or the presence of natural vegetation indicative of wet soils. The intent of the District is to preserve and maintain Agricultural Uses on lands suited for such purposes. They often include lands poorly suited for urban or suburban development while being particularly well suited for some types of Agricultural Use.

In this District, Structures related to farm operations, including existing dwellings, are deemed consistent with the purpose of this section where the location of Buildings associated with the permitted agricultural operation is found to conform with health, sanitation and safety provisions of this and any other state regulation or local ordinance. Determination of such suitability shall be evidenced by on-site examination and evaluation. The intent for mapping purposes is that lands within this District shall have exhibited those Agricultural Uses in the past. It is not the intent of this section to promote or permit the conversion of Wetlands. If a new Lot of less than 35 acres is proposed and a portion of the lands to be included in the Lot Area are zoned FLC District, said lands may only be included within the Lot Area if the proposal complies with the siting, density, area, etc. parameters of the FLP District.

Ordinance or permitted as an appurtenance to a Farm Residence, except that no Structure shall be located in a Wetland or upon lands not suited due to soil limitations.

6.19 New Residences and Lots.

New Residences and new Lots or parcels of less than thirty-five (35) acres shall be prohibited on lands zoned FLP District and shall only be authorized if in accordance with the following requirements:

(1) Rezoning required.

New Residences and new Lots or parcels of less than thirty-five (35) acres in area are not permitted within the FLP District without the benefit of rezoning. If a new Residence or Lot of less than thirty-five (35) acres is proposed for lands currently zoned FLP District, the land must first be rezoned to the R-1 Residential District where farm or Nonfarm Residences are a Permitted Use. Lands to be rezoned must comply with the density parameters of the Comprehensive Development Plan for Waukesha County that are described in detail in Section 6.19(2) below. Prior to submitting an application to rezone lands currently zoned FLP District, petitioners shall participate in a concept review meeting to be held with the respective town Planner and Waukesha County Planning & Zoning Staff to discuss proposed density and lot siting and compliance with the below stated requirements of this section.

If a Lot of less than 35 acres is permitted via the rezoning process, the remnant lands can be less than 35 acres in area provided that a deed restriction is recorded against said lands prohibiting construction of Residences or nonfarm buildings.

New Nonfarm Residences must also comply with the standards set forth in Chapter 91 of the Wisconsin Statutes.

(2) Density.

A maximum density of one (1) dwelling unit per thirty-five (35) acres shall be permitted for lands designated for Farmland Preservation on the adopted Comprehensive Development Plan for Waukesha County. Existing dwelling units and land divisions that have taken place after the dates specified below shall be used in computing available density. If part of a parcel is within the County's shoreland jurisdictional area, the entire property's acreage, number of existing dwelling units and prior land divisions from Parent Parcels shall be considered in determining available density.

(A) Density Considerations- land divisions after January 1, 1997:

New Lots or parcels of less than 35 acres that were created from a Parent Parcel or Parcels that comprised a Farm, as it existed on January 1, 1997, and that were located on lands designated "Agricultural Preservation" or "Farmland Preservation" at the time of land division on the Comprehensive Plan for Waukesha County, shall be counted in determining the available density or Development Rights remaining for a Farm as it was configured on May 31, 2015. The number of available Development Rights shall be reduced by one Development Right for each such Lot that was created after January 1, 1997. Farm boundaries, as of May 31, 2015, have been mapped on the "Farm Tracking Unit" layer on the Waukesha County GIS website in order to make available density information readily available. Density tracking is further described in Section 6.19(B)(4).

Example: 105 acre Farm comprised of two parcels in the same ownership.

Step 1- 35 Acre Density Calculation = 105 acres/35 = 3 (Maximum number of dwelling units before consideration of existing dwelling units and recent land divisions).

Step 2- Account for existing dwelling units and land divisions that created parcels of less than 35 acres after January 1, 1997: The Farm contains one house. (counts as one dwelling unit) and a Lot of less than 35 acres was split from the Farm by Certified Survey Map in 2001 (counts as second available dwelling unit) = total of 2.

Step 3- Subtract total of Step 2 from Step 1 to adjust for existing dwelling units and parcels of less than 35 acres created since January 1, 1997. (3 minus 2= 1).

*Summary- Available dwelling units/Development Rights:
Farm is entitled to one additional dwelling unit or Development Right.*

- (B) Density Exception for Legal Lots of Record that existed on May 31, 2015:
Existing legal Lots of Record as of May 31, 2015 that are less than thirty-five (35) acres in size shall be entitled to one (1) dwelling unit if a dwelling unit does not already exist on the parcel, with the following exceptions:

1. If new Lots or dwelling units have been created from a Parent Parcel or Farm after 1997 without the benefit of a comprehensive development plan amendment from the Farmland Preservation category to another appropriate land use category, and thirty-five (35) acre density cannot be maintained with the addition of another dwelling unit, then no additional dwelling units are permitted.
2. If a prior imposed rezoning condition, deed restriction, conveyance, or some other official action prohibiting future land splits or dwelling units exists, then no additional dwelling units shall be permitted on said existing legal Lot of Record.

- (C) Review of Land Divisions.
All land divisions, including transfers of adjacent land, that are proposed in towns that are subject to the Waukesha County Zoning Code and involve land that is in the planned “Farmland Preservation” category of the Comprehensive Development Plan for Waukesha County shall be reviewed and approved by the respective town and Waukesha County, regardless of whether the parcel contains shoreland jurisdiction, so that Development Plan density compliance can be ensured and tracked over time.

Each Residence that is permitted shall be placed on a separately described parcel created in conformance with the town and County Comprehensive Development Plans, the Farmland Preservation Plan, the minor land division regulations of the town in which they are located, this Ordinance, and the Waukesha County Shoreland Floodland Subdivision Control Ordinance (Appendix D), as applicable.

- (D) Density Tracking.
Available density or dwelling units are tracked by a mapping layer on the Waukesha County Geographic Information System. Each Farm consisting of one or more Contiguous parcels that were owned by a common owner or owners as of May 31, 2015 have been assigned a “Farm Tracking Unit” name and number. Farm Tracking Units have been created to track the number of Lots or dwelling units (Development Rights) that a Farm or farm owner is entitled to when applying the density considerations of Section 6.19 (2)(A) & (B).

Each time that a new dwelling unit or Lot is created in the future, in accordance with the standards of Section 6.19, the Farm Tracking Unit data will be updated on the Waukesha County GIS. In addition, a deed restriction must be recorded against the land to disclose the remaining density available to a given Farm Tracking Unit.

(E) Density Transfer.

Transfer of density rights from one Farm Tracking Unit to another Farm Tracking Unit or property must be approved by the respective town and Waukesha County Zoning Administrator and will be tracked on the Farm Tracking Unit Waukesha County GIS layer. A deed restriction must be recorded against the land to disclose the density transfer.

(3) Siting Standards.

Lands that are zoned FLP but that are proposed to be rezoned to the R-1 District to accommodate new Nonfarm Residences must comply with the following siting standards. Compliance with siting standards shall be considered by the town and Waukesha County as part of the rezoning review process.

(A) New Residences or Lots shall be located on uncultivated lands to the greatest extent practicable.

(B) New Residences or Lots shall be clustered together to the greatest extent practicable.

(C) New Residences or Lots shall be located on non-prime (non-Class I and II) soils to the greatest extent practicable.

(D) New Residences or Lots may be permitted within upland Environmental Corridor areas that are zoned FLP District with an EC Environmental Corridor Overlay District designation provided that the area to be disturbed is rezoned to the R-1 District and provided that the respective town and County have made a determination that alternative building sites located outside of the Environmental Corridor and cultivated lands are not available. If such a determination is made, the maximum area of Environmental Corridor disturbance shall be 15,000 square feet per Lot, inclusive of drive areas, septic sites, building sites and any other area to be disturbed. In addition, any authorized disturbance within the Environmental Corridor shall comply with County Comprehensive Development Plan recommendations which call for no more than one dwelling unit per five acres of upland area. A deed restriction shall be recorded in the office of the Register of Deeds identifying and describing the permitted area of Environmental Corridor disturbance prior to Zoning Permit issuance.

(E) Lots shall be located near existing Roads to the extent practicable with consideration of the above stated criteria.

(4) Lot Size requirements for Lots created by rezoning from the FLP District to the R-1 District

(A) Minimum parcel size, one (1) acre.

(B) Minimum average width for parcels, one hundred and fifty (150) feet.

- (C) Maximum parcel size, three (3) acres, except as may be provided in Section 6.19(5) below for those residual existing dwellings and parcels that result due to Farm Consolidation.
- (5) Lot Size for Farm Consolidations created by rezoning from the FLP District to the R-1 District
 - (A) Minimum parcel size, one (1) acre.
 - (B) Minimum average width: One hundred and fifty (150) feet.
 - (C) Maximum parcel size, five (5) acres.

(Section 6.19 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

(Section 6.09(3)(D) was amended by Enrolled Ordinance 175-18, effective 8/12/20.)

6.19a. Rezoning Land Out of the FLP District.

- (1) Except as provided in Section 6.19a(2), lands may not be rezoned out of the FLP District unless the respective town and the County finds all of the following in writing, after public hearing, as part of the official record of the rezoning:
 - (A) The rezoned land is better suited for a use not allowed in the farmland preservation zoning district.
 - (B) The rezoning is consistent with any applicable comprehensive plan.
 - (C) The rezoning is substantially consistent with the County Farmland Preservation Plan, which is in effect at the time of the rezoning.
 - (D) The rezoning will not substantially impair or limit current or future Agricultural Use of other protected farmland.
- (2) Subsection 6.19a(1) does not apply to any of the following:
 - (A) A rezoning that is affirmatively certified by DATCP under Ch. 91 of State Statutes.
 - (B) A rezoning that makes the farmland preservation zoning ordinance map more consistent with the County Farmland Preservation Plan map, certified under ch. 91, Wis. Stats., which is in effect at the time of the rezoning.
- (3) By March 1 of each year, Waukesha County shall provide to DATCP a report of the number of acres that Waukesha County has rezoned out of the FLP District during the previous year and a map that clearly shows the location of those acres.

SECTION 6.5 AD-10 AGRICULTURAL DENSITY-10

6.51 General regulations.

- (1) Purpose and Intent:
The purpose of this ten (10)-acre density zoning District is to allow for agricultural and rural use of lands to continue while also allowing for clustered development on lands located in rural or semi-rural areas. Additional stated purposes of the District are as follows:
 - (A) Promote the preservation of the rural character of the towns by encouraging farm fields, pastures, orchards, and natural Open Spaces to be retained either as Common Open Spaces, or as part of a farm operation.
 - (B) Achieve the optimum residential environment while recognizing the rural character of towns. The density transfer technique is designed to permit variable lot sizes in the utilization of the most desirable terrain for housing sites while encouraging preservation of natural resource lands and agricultural lands.
 - (C) This District allows for the transfer of residential Development Rights from one area of a parcel to another area of a parcel, thereby allowing an increase in density of development on suitable lands for development in exchange for establishing the preservation of natural resource or agricultural lands known as "preserved lands".
- (2) Review of Proposed Development:
Where a development is to occur involving the establishment of "preserved lands," approval by the Plan Commission and the County Zoning Agency shall be required. The development proposed shall conform to the following standards:
 - (A) The shape and arrangement of preserved lands shall be approved by the Plan Commission and County Zoning Agency pursuant to the requirements of the AD-10 District.
 - (B) Lands zoned AD-10 that are proposed to be developed via subdivision plat must be developed in a conservation design format, as detailed in the County Development Plan. Subdivisions shall provide Common Open Space and conserve natural resource lands in accordance with the guidelines of the County Development Plan relative to development of Rural Development Areas and the Rural Density Conservation Design criteria.
 - (C) The preserved lands shall be retained in one of the following manners:
 1. A deed restriction or covenant recorded with the Waukesha County

Register of Deeds so noting that part or all of the Development Rights have been utilized for the subject land. No additional Development Rights would accrue to that site until such time as it could be served with municipal sewer and a zoning change is approved by the Town and County in accordance with adopted local and County Land Use Plans.

2. All lot owners within the developed area for which the preserved lands are protected could own an undividable interest in said preserved land. Development of those lands may not occur until such time as sewer is available and a zoning change is approved by the Town and County in accordance with adopted local and County Land Use Plans.
 3. The preserved lands may be retained in public ownership if a town or the County is willing to accept a dedication or acquire the lands.
- (D) On a Lot which is zoned AD-10, the development density shall not exceed ten (10) acres for each dwelling unit.
- (E) In order to preserve the rural character as well as the efficiency and safety of existing road systems, lands to be developed via subdivision plat shall have Lots clustered on interior subdivision streets to minimize Lots being accessed from existing arterials or roadways by individual driveway accesses. The goal of this provision is to encourage grouping of Lots on an interior street which will then access the existing road system.
- (F) Any land claimed in addition to the actual described residential lots, for credit toward meeting the density factor requirement, shall have its status permanently established and guaranteed either by dedication to the public, by appropriate covenants running with the lands, or by conveyance of agricultural easements. Such covenants and easements shall be recorded in the office of the Register of Deeds and shall restrict the property against any development or use except as is consistent with its preservation as agricultural land or as a form of Common Open Space unless sewer becomes available, and the zoning of the property is changed in accordance with adopted local and County Land Use Plans. The preserved land status of any Lot shall be indicated on the official zoning map.
- (G) In addition to requiring an appropriate Open Space or an agricultural easement on the transferring lands in favor of the town and/or county, covenants shall be placed on the title of each dwelling unit, giving the owner enforceable rights to prevent the future development of the transferring lands until such time as sewer is available and the subject property is rezoned to allow additional development.
- (3) Use Regulations: Permitted Uses:
- (A) Any use permitted in the A-1 Agricultural District, and as regulated below, except quarters for household or farm employees and their families are prohibited.
- (B) Residential:
1. Single-family uses.
 2. Duplexes pursuant to issuance of a conditional use permit as required by Section 3.08(7)(N) and compliance with the minimum Floor Area and

Building Footprint requirements contained herein.

- (C) Signs in accordance with Section 7.01(7).
- (D) Wholesale nurseries, greenhouses and hatcheries, subject to review and approval of a Site Plan and Plan of Operation by the plan commission and the Zoning Administrator in accordance with Section 3.03(6) of this Ordinance.

SECTION 6.6 A-5 MINI-FARM DISTRICT

6.61 Intent and Purpose.

This District is intended to provide for very low-density single-family residential development and the conversion of older farm dwellings to two-family units in predominantly rural areas in order to maintain, to some degree, the agricultural character of the property. These lands are best suited for small farm units, i.e., truck farms, horse farms, hobby farms, orchards and other similar agriculturally-related activities and usually contain a predominance of U.S.D.A. defined statewide significant category soils or prime category soils on parcels which do not qualify for agricultural preservation zoning or in areas which have an existing pattern of scattered or low-density residential development. Such a District is intended to be used to implement the County or Regional Land Use Plan category entitled "other Agricultural or Rural Land".

SECTION 6.7 EC ENVIRONMENTAL CORRIDOR OVERLAY DISTRICT

6.71 Purpose and Intent.

The EC Environmental Corridor Overlay District, as mapped or intended to be mapped, includes non-wetland/floodplain Primary and Secondary Environmental Corridors and Isolated Natural Resource Areas as defined in this Ordinance, and is intended to be used to preserve, protect, enhance, and restore significant woodlands, upland wildlife habitat areas, scenic overlooks, slopes exceeding twelve percent (12%), and upland wooded areas, while also affording an opportunity to use the site for limited residential purposes, in concert with the goal and intent of the Regional Land Use Plan, Comprehensive Development Plan for Waukesha County, or locally adopted plan, which recommends that residential densities in such areas not exceed one unit per five (5) acres for all parcels which lie entirely within the Environmental Corridor. Where questions arise as to the exact location or boundary of an Environmental Corridor, the extent and location of such corridors shall be refined and finally determined by infield investigation by the Zoning Administrator or his/her designee, and a notation shall be made on the District Zoning Map of the Waukesha County Zoning Code indicating that such a determination has been made for future reference and map amendment purposes.

If an in-field determination finds that all or a portion of a property within said overlay district is erroneously mapped, the field determined boundaries shall immediately become subject to the applicable underlying base zoning district regulations. Lands with an underlying zoning designation of FLP Farmland Preservation District shall comply with the more restrictive parameters of the FLP District but shall be allowed limited disturbance within EC areas if authorized in accordance with Section 6.19(3)(D).

(Section 6.71 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

(Section 6.71 was amended by Enrolled Ordinance 175-18, effective 8/12/20.)

 - 2. Quarters for household or farm employees; provided, however, that such quarters shall be occupied only by individuals employed full time on the premises and their families.
 - 3. Stables, barns, or poultry houses, which house Livestock or Poultry, shall not be less than fifty (50) feet from an adjacent property line.

Vegetative restoration may be allowed within the corridor for the purpose of improving wildlife habitat or to otherwise enhance wildlife values provided all necessary permits are obtained and said activities shall only be approved after review and approval and issuance of all permits, as required. Roads and trails to service the recreational and wildlife areas, etc. may be permitted, but said Roads and trails may not include vegetation removal or other construction activity within the corridor without obtaining all approvals, as required.

(Section 6.72 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

(Section 6.72 was amended by Enrolled Ordinance 175-18, effective 8/12/20.)

6.73 Building Location.

- (1) Road Setback:

 - (A) Thirty-five (35) feet minimum. In the case of existing legal nonconforming principal or accessory Structures that are less than the required thirty-five (35) foot minimum, an extension or addition may be allowed closer than thirty-five (35) feet as long as said extension or addition does not extend or encroach closer to the Side Lot Line than the existing Structure to which it is attached, at its closest point as measured in this Ordinance, and in no case shall be less than twenty (20) feet unless a Special Exception is granted by the Board of Adjustment to allow such extension or addition and with the requirement that all of the disturbance regulations of Section 6.7 of this Ordinance be met as applicable.
 - (B) Section 3.09(3) for additional regulations and exceptions.

(Section 6.73 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

The regulations and exceptions of Section 3.10 apply.

(Section 6.74 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

6.75 Area Regulations.

- (1) Floor Area and Building Footprint:
 - (A) Minimum Floor Area Required for Single-family Dwelling:
 - 1. First floor: Eight hundred and fifty (850) square feet.
 - 2. Total: Eleven hundred (1,100) square feet.

- (B) Maximum Building Footprint Permitted:
Lots that are less than two (2) acres in area are restricted to a maximum Building Footprint of seventeen and one half percent (17.5%), or eleven (1,100) square feet, whichever is greater, unless preservation of Green Space limitations are more restrictive.
 - (C) Additional regulations and exceptions from Section 3.11 apply.
- (2) Lot size and Density:
- (A) Minimum area:
The overall density of parcels lying entirely within the Environmental Corridor shall be no greater than one (1) dwelling unit per five (5) acres of corridor area with no Lot Area being less than two (2) acres in size. On parcels which contain area outside of the Environmental Corridor or partially within the Environmental Corridor and in a zoning category requiring less than a five (5) acre Lot, the five (5) acre density requirement shall not apply and the Lot can be the size required for that adjacent zoning category, as determined by the Zoning Administrator, as long as any Land Altering Activity and/or building envelopes are located outside of the corridor area and appropriately restricted as such on the face of the Certified Survey Map, Subdivision Plat or other document approved by the Waukesha County Park and Planning Commission or the Zoning Administrator and recorded in the office of the Register of Deeds. The overall goal of this requirement is to obtain a maximum density of building activity within the Environmental Corridor of not more than one (1) dwelling unit for each five (5) acres of Environmental Corridor lands.
 - (B) Lands which lie within a larger parcel or tract of land, the remainder of which is zoned either FLP Farmland Preservation District or FLC Farmland Conservancy District, shall have a minimum (gross) parcel size of thirty-five (35) acres.
- (3) Preservation of Green Space:
- (A) The maximum area of disturbance in the EC Environmental Corridor Overlay District for all Land Altering Activities and vegetative removal, including building sites, septic areas, and drive areas, shall be the greater of fifteen thousand (15,000) square feet or fifteen percent (15%) of a parcel's area, up to a maximum of thirty-two thousand six hundred seventy (32,670) square feet, and a deed restriction shall be recorded in the office of the Register of Deeds describing the permitted area of disturbance at the time of Zoning Permit issuance.
 - (B) For parcels which lie partially within and partially outside of the EC Environmental Corridor Overlay District, the area of disturbance as described in subsection 3(A) above shall be limited to that area outside of the EC Environmental Corridor Overlay District unless otherwise permitted by a building envelope on a certified survey map, subdivision plat, or other document, or unless the developable area of a parcel (that area that is not constrained by zoning district setback and offset requirements and that is located outside of the EC Environmental Corridor Overlay District) is less than fifteen thousand (15,000) square feet or is less than the area that is equal to fifteen percent (15%) of the area of a parcel, up to a maximum of thirty-two thousand six hundred seventy (32,670) square feet.

If the developable area on a Lot is less than the above specified thresholds, a maximum area of disturbance within the EC Environmental Corridor Overlay District, as described in subsection 3(A) above, up to the amount of area needed to achieve the greater of a fifteen thousand (15,000) square foot developable area or a developable area of fifteen percent (15%) of the area of the parcel, up to a maximum of 32,670 square feet of disturbance area, as described in subsection 3(A) above, may be permitted by the Zoning Administrator provided a deed restriction is recorded in the office of the Register of Deeds describing and authorizing the area of disturbance. The maximum area of disturbance within the Environmental Corridor portion of such a Lot shall be determined by calculating the available developable area that is located outside of the Environmental Corridor and subtracting the available developable area from the above described fifteen thousand (15,000) square foot or fifteen percent (15%) threshold.

(4) Tree and Vegetation Cutting and Removal:

- (A) All tree and native brush and understory vegetation cutting and removal within the EC Environmental Corridor Overlay District shall require a Zoning Permit, in accordance with Section 3.03 of this Ordinance, prior to said activities commencing, with the following exceptions:

The cutting or removal of four (4) or fewer dead, dying or diseased trees from a single property within a one-year time period, the removal of invasive species, or the removal of vegetation necessitated by extension of utilities to public or private property shall not require a Zoning Permit. In addition, the Zoning Administrator may waive Zoning Permit requirements for tree cutting or vegetation removal in the event of widespread storm damage or for the cutting of trees that present a safety hazard.

- (B) Tree and vegetation cutting or removal is regulated in order to protect natural beauty and wildlife habitat and to prevent erosion. Except for those activities conducted in accordance with the provisions of Section 6.75(3) above, tree and vegetation cutting and removal shall be limited to the cutting and removal of dead, dying, and diseased trees or vegetation; the cutting and removal of invasive species; or the cutting and removal of trees and vegetation related to the implementation of a forest management plan approved by the Zoning Administrator or his/her designee. Cutting and removal activities must demonstrate enhancement of the Environmental Corridor. The Zoning Administrator may consult with natural resource experts at the Southeastern Wisconsin Regional Planning Commission or other governmental agencies to determine the appropriateness of the proposed cutting or removal activities and to solicit recommendations regarding any required re-planting or restoration requirements in order to ensure that the project does not have an adverse impact on the natural environment.

(Section 6.75(2)(B) was amended by Enrolled Ordinance 170-72, effective 12-31-15.)

(Section 6.75 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

(Sections 6.75(3) and (4) were amended by Enrolled Ordinance 175-18, effective 8/12/20.)

Agricultural and Farm Uses are limited to Recreational Chicken Uses in accordance with the provisions of Section 3.21 of this Ordinance, and crop or forage production shall only be permitted upon determination and the grant of a waiver by the Zoning Administrator, upon recommendation of the Town Plan Commission, that said use will not negatively affect surrounding property owners.
 - (B) For lots a minimum of three (3) acres and up to five (5) acres in size.
Subject to the exceptions listed in Section 7.01(3) above, Agricultural and Farm Uses are permitted with animal keeping (excluding hogs, male goats and fur-bearing animals) being limited to one head of livestock and/or twenty (20) poultry for the first three (3) acres and one additional head of livestock and/or twenty additional poultry per acre for each additional acre over the three (3) acre minimum.

The Zoning Administrator, upon recommendation of the Town Plan Commission, may grant a waiver to authorize additional animals with consideration of adjacent land uses, location of fence enclosures, etc. if a determination is made that said waiver will not negatively affect nearby property owners.
 - (D) For lots or farms greater than twenty acres in size. Agricultural or farm uses as described in Section 7.01(3) above, except that the keeping of hogs and fur-bearing animals can be considered as a Conditional Use, and the keeping of male goats is a permitted use.

Those practicing Agricultural or Farm Uses under this section must provide adequate food, forage, water, pasture, shelter and fencing and must comply with standard manure disposal practices such as those found in NR151 and ATCP50 and, if requested by the Zoning Administrator, the property owner shall prepare a manure management plan and submit the plan to the Department of Parks and Land Use for review and approval.

- (4) Horticulture, including nurseries, greenhouses, and hatcheries limiting the retail sales of such product to that which is produced by the farm operator, subject to review and approval of a Site Plan and Plan of Operation by the plan commission and the Zoning Administrator in accordance with Section 3.03(6) of this Ordinance.
- (5) The following Accessory Buildings, subject to the conditions specified:
 - (A) Private Garages when located on the same lot, and not involving the conduct of a business; provided, however, that no private garage shall be erected unless that Principal Building to which such garage is an accessory use has been erected or is to be erected simultaneously with said garage.
 - (B) Quarters for household or farm employees, provided, however, that such quarters shall be occupied only by those individuals employed full time on the premises and their families.
 - (C) Stables, barns, or poultry houses, which house Livestock or Poultry, shall not be less than fifty (50) feet from an adjacent property line.
- (6) Home Occupations and Professional Offices as defined in this Ordinance, when incident to the residential use and when situated in the same dwelling, subject to the following conditions:
 - (A) No nameplate exceeding three (3) square feet in area shall be permitted.
 - (B) Such Home Occupation or Professional Office shall not occupy more than twenty (20) percent of the Floor Area of the Principal Building.
 - (C) Such Home Occupation shall not employ more than one (1) person not a resident on such Lot.
 - (D) Adequate off-street parking facilities shall be provided adjacent, or reasonably adjacent, to the Building which houses such occupation or office.
 - (E) Such Permitted Use shall not include the conduct of any retail or wholesale business on the premises, nor the removal of sand, gravel or stone for commercial purposes.
 - (F) Such use shall not include the use of any machinery, tools or other appliances which can reasonably be construed as creating an abnormal nuisance to the surrounding property owners.
 - (G) Such use conducted in an attached garage or Accessory Building requires a Conditional Use to be granted in accordance with Section 3.08(7)(KK) of this Ordinance.
- (7) A sign not exceeding six (6) square feet in area may be maintained by the owner or occupant of any land or Building for the purpose of displaying the name of the owner or occupant, or for the purpose of warning against trespass. If the parcel exceeds 35 acres in size, a sign not exceeding twenty (20) square feet in area may be maintained by the owner or occupant of the land or Building for the purpose of displaying the name of the owner,

occupant, or farm. A sign pertaining to the lease or sale of any Building or land is allowed provided such sign does not exceed twenty (20) square feet in area. Subdivision signs are allowed in accordance with the sign provisions of the Ordinance.

- (8) (Repealed by Enrolled Ordinance 159-69, effective 1-17-05.)
- (9) Hobby Kennel accessory to an otherwise Permitted Use, provided such use has the specific approval of the town plan commission and will not adversely affect the use of adjacent lands as may be determined by findings of the town plan commission, but not including the operation of a Commercial Kennel unless a conditional use permit is obtained. The proposed use of parcels in such a manner shall be made by written notice to land owners within one hundred (100) feet of the subject property and in any case to land owners immediately adjacent and across the Street from such use by first class mail from the town plan commission prior to the meeting at which the town plan commission will consider approval of such use. The town plan commission may require such measures or provisions by the Applicant as it may deem necessary to provide adequate protection of surrounding property. The town may deny the right to a Hobby Kennel based on a finding that such a use would be incompatible and a possible nuisance to surrounding uses and not in the public interest. Any person aggrieved by a decision of the plan commission relative to this provision may appeal such decision to the board of adjustment for review and determination as provided for in Section 19 of this Ordinance.

Where two (2) or fewer dogs are kept, such use shall be considered accessory to the Principal Use and shall not require special approval by the plan commission. In any case, if the keeping of any number of dogs accessory to the Principal Use becomes a nuisance to the neighborhood as may be determined by the town plan commission or town board, such use shall be terminated or the nuisance abated. Where necessary, the town plan commission or town board may take appropriate steps to abate such nuisance.

- (10) Roadside Stands as outlined in Section 6.14(2)(E) of this Ordinance.

SECTION 7b HG HIGH GROUNDWATER DISTRICT

(Section 7b was created by Enrolled Ordinance 170-72, effective 12-31-15.)

7b.01 Purpose and intent.

This District is intended to apply to those lands that are mapped as having hydric soil conditions (depth to groundwater of one foot or less) according to the Soil Survey of Milwaukee and Waukesha Counties published by the USDA Soil Conservation Service. Many of these lands contain Wetlands and floodplains and, accordingly, are mapped with a C-1 Conservancy Overlay District designation. Other lands with such soil conditions are presently in Agricultural Use by virtue of either cultivation, pasture or in some other way, and which if they were not being used for agricultural purposes would be classified as conservancy lands due to inherent wet soil characteristics and the presence of natural vegetation indicative of wet soils.

The intent of the District is to preserve and maintain agricultural or open space uses on lands suited for such purposes. These lands are generally poorly suited for urban or suburban development, while lands outside of Wetlands are typically better suited for some type of Agricultural Use. In this District, Structures related to farm operations, including existing dwellings, are deemed consistent with the purpose and intent of this section where the location of Buildings associated with the permitted agricultural operation are found to conform with health, sanitation and safety provisions of this and any other state regulation or local ordinance. The intent for mapping purposes is that lands within this District shall have exhibited Agricultural Uses in the past. It is not the intent of this section to promote or permit the conversion of Wetlands. Lands mapped in this District are typically in the Planned "Other Open Lands to be Preserved" or "Environmental Corridor" comprehensive development plan categories.

(Section 7b.01 was amended by Enrolled Ordinance 171-38, effective 9/28/16.)

SECTION 8b RRD-5 RURAL RESIDENTIAL DENSITY DISTRICT 5

8b.01 General Regulations.

(1) Purpose and intent:

The purpose of this five (5) -acre density zoning district is to allow for agricultural and rural use of lands to continue while also allowing for clustered development on lands located in rural or semi-rural areas. Additional stated purposes of the District are as follows:

(A) Promote the preservation of the rural character of the towns by encouraging farm fields, pastures, orchards, and natural Open Spaces to be retained either as Common Open Spaces, or as part of a farm operation.

(B) Achieve the optimum residential environment while recognizing the rural character of towns. The density transfer technique is designed to permit variable lot sizes in the utilization of the most desirable terrain for housing sites while encouraging preservation of natural resource lands and agricultural lands.

- (C) This District allows for the transfer of residential Development Rights from one area of a parcel to another area of a parcel, thereby allowing an increase in density of development on suitable lands for development in exchange for establishing the preservation of natural resource or agricultural lands known as "preserved lands".

(2) Review of Proposed Development:

Where a development is to occur involving the establishment of "preserved lands," approval by the Plan Commission and the County Zoning Agency shall be required. The development proposed shall conform to the following standards:

- (A) The shape and arrangement of preserved lands shall be approved by the Plan Commission and County Zoning Agency pursuant to the requirements of the RRD-5 District.
- (B) Lands zoned RRD-5 District that are proposed to be developed via subdivision plat must be developed in a conservation design format, as detailed in the County Development Plan. Subdivisions shall provide Common Open Space and conserve natural resource lands in accordance with the guidelines of the County Development Plan relative to development of Rural Development Areas and the Rural Density Conservation Design criteria.
- (C) The preserved lands shall be retained in one of the following manners:
 - 1. A deed restriction or covenant recorded with the Waukesha County Register of Deeds so noting that part or all of the Development Rights have been utilized for the subject land. No additional Development Rights would accrue to that site until such time as it could be served with municipal sewer and a zoning change is approved by the Town and County in accordance with adopted local and County Land Use Plans.
 - 2. All lot owners within the developed area for which the preserved lands are protected could own an undividable interest in said preserved land. Development of those lands may not occur until such time as sewer is available and a zoning change is approved by the Town and County in accordance with adopted local and County Land Use Plans.
 - 3. The preserved lands may be retained in public ownership if a town or the County is willing to accept a dedication or acquire the lands.
- (D) On a parcel which is zoned RRD-5, the development density shall not exceed five (5) acres for each dwelling unit.
- (E) In order to preserve the rural character as well as the efficiency and safety of existing road systems, lands to be developed via subdivision plat shall have Lots clustered on interior subdivision streets to minimize Lots being accessed from existing arterials or roadways by individual driveway accesses. The goal of this provision is to encourage grouping of Lots on an interior street which will then access the existing road system.
- (F) Any land claimed in addition to the actual described residential lots, for credit toward meeting the density factor requirement, shall have its status permanently established, and guaranteed, either by dedication to the public, or by appropriate

covenants running with the lands, by conveyance of agricultural easements. Such covenants and easements shall be recorded in the office of the Register of Deeds and shall restrict the property against any development or use except as is consistent with its preservation as agricultural land or as a form of Common Open Space unless sewer becomes available, and the zoning of the property is changed in accordance with adopted local and County Land Use Plans. The preserved land status of any parcel shall be indicated on the official zoning map.

- (G) In addition to requiring an appropriate Open Space or an agricultural easement on the transferring lands in favor of the town and/or county, covenants shall be placed on the title of each dwelling unit, giving the owner enforceable rights to prevent the future development of the transferring lands until such time as sewer is available and the subject property is rezoned to allow additional development.

(3) Use Regulations: Permitted Uses:

- (A) Any use permitted in the A-1 Agricultural District, and as regulated below, except quarters for household or farm employees and their families are prohibited.
- (B) Residential:
 - 1. Single-family uses.

(Section 19.02(3) was amended by Enrolled Ordinance 174-08, effective 5/4/19.)

19.03 Powers.

(1) Defined:

The Board of Adjustment shall have the following powers as defined by statute:

- (A) To hear and decide appeals where it is alleged there is error in any order, requirement, decision or determination made by an administrative official in the enforcement of Section 59.69 Wisconsin Statutes, or of this Ordinance.
- (B) To hear and decide Special Exceptions to the terms of this Ordinance upon which such board is required to pass under this Ordinance.
- (C) To authorize upon appeal in specific cases such Variances from the terms of this Ordinance as will not be contrary to the public interest, where owing to special conditions a literal enforcement of the provisions of this Ordinance will result in unnecessary hardship, and so that the spirit of this Ordinance shall be observed and substantial justice done.

A property owner bears the burden of proving "unnecessary hardship," as that term is used in this section, for an Area Variance, by demonstrating that strict compliance with a zoning ordinance would unreasonably prevent the property owner from using the property owner's property for a permitted purpose or would render conformity with the zoning ordinance unnecessarily burdensome or, for a Use Variance, by demonstrating that strict compliance with the zoning ordinance would leave the property owner with no reasonable use of the property in the absence of a Variance. In all circumstances, a property owner bears the burden of proving that the unnecessary hardship is based on conditions unique to the property, rather than considerations personal to the property owner, and that the unnecessary hardship was not created by the property owner.

(2) Additional requirements:

In making its determination, the board shall consider whether the proposed Special Exception, Area Variance or Use Variance would be hazardous, harmful, noxious, offensive, or a nuisance to the surrounding neighborhood by reason of physical, social or economic effects; and may impose such requirements and conditions with respect to location, construction, maintenance and operation, in addition to any which may be stipulated in this Ordinance, as the board may deem necessary for the protection of adjacent properties and the public interest and welfare.

(3) Performance standards:

In order to reach a fair and objective decision, the board may utilize and give recognition to appropriate performance standards which are available in model codes or Ordinances, or which have been developed by planning, manufacturing, health, architectural and engineering research organizations.

(4) Enforcement of decision:

In exercising the above-mentioned powers, such board may, in conformity with the provisions of this Ordinance, reverse or affirm, wholly or partly, or may modify the order, requirements, decision or determination appealed from, and may make such order, requirement, decision or determination as ought to be made, and to that end shall have all the powers of the officer from whom the appeal is taken; and may issue or direct the issue of a permit provided that no such action shall have the effect of permitting in any District a use prohibited in that District; of rezoning; of allowing the division of a parcel to create additional parcels which are not in conformity with the zoning district regulations in which it is located; or of permitting, without the approval of the county zoning agency, any Building within the base setback area as established by Section 3.09(1) of this Ordinance, or of granting exception to the state plumbing code, or other state, county or local Ordinances.

(5) Required vote:

The concurring vote of three (3) members of the board shall be necessary to reverse any order, requirement, decision or determination of any such administrative official, or to decide in favor of the Applicant on any matter upon which it is required to pass under this Ordinance, or to effect any variation therefrom. The ground of every such determination shall be stated.

(6) Further appeal:

Any person or persons, jointly or severally, aggrieved by any decision of the Board of Adjustment, or any taxpayer, or any officer, department, board or bureau of the municipality, may appeal from a decision of the Board of Adjustment within thirty (30) days after the filing of the decision in the office of the Board of Adjustment in the manner

provided in Sections 59.692(4)(b), 59.693(4)(b), 59.694(4) and 59.694(10) of the Wisconsin Statutes.

(Sections 19.03(1)(A), (4) and (6) were amended by Enrolled Ordinance 159-69, effective 1-17-05.)

Such appeal shall be taken within twenty (20) days from the date of the decision of the zoning administrator or other Administrative Officer appealed from by filing with the officer from whom the appeal is taken, and with the Board of Adjustment, a notice of appeal specifying the grounds thereof, together with the proper fee as established under Section 22.01(4) of this Ordinance. The officer from whom the appeal is taken shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken.

(2) Stay:

An appeal shall stay all legal proceedings in furtherance of the action appealed from, unless the officer from whose decision the appeal is taken certifies to the Board of Adjustment, after the notice of appeal shall have been filed with him, that by reason of facts stated in the certificate, a stay would, in his opinion, cause imminent peril to life or property. In such cases, proceedings shall not be stayed otherwise than by a restraining order, which may be granted by the Board of Adjustment or by a court of record on application, on notice to the officer from whom the appeal is taken, and on due cause shown.

(3) Hearing:

Each appeal shall be heard within a reasonable time and not to exceed ninety (90) days from the time the appeal was filed with the Board. Notice of hearing shall be given by publishing in a newspaper of general circulation in the vicinity of the appeal at least once each week for two (2) consecutive weeks and not less than seven (7) days from the date of hearing. In addition, written notice shall be given to the county zoning administrator, any other Administrative Officer appealed from, and by first class mail to the petitioner, the clerk of the town wherein the affected lands are located, the owners of each parcel of land within one hundred (100) feet of the land in question, and any other specifically interested parties. At the hearing, any party may appear in person, or by agent or by attorney.

(4) Decision:

The decision on any appeal shall be made within fifteen (15) days after completion of the hearing thereon.

Upon receipt of the report of the county zoning agency, the county board may adopt the Ordinance as drafted by such zoning agency or with amendments, or it may refuse to deny the petition for amendment as recommended by the county zoning agency, in which case it shall re-refer the petition to the county zoning agency, with direction to draft an Ordinance to effectuate the petition, and report the same back to the county board, which may then adopt or reject such Ordinance, or it may re-refer the petition to the county zoning agency for reconsideration including possible further public hearing.

(8) Protest:

In case a protest against a proposed amendment is filed with the county clerk at least twenty-four (24) hours prior to the date of the meeting of the county board at which the report of the county zoning agency is to be considered, duly signed and acknowledged by the owners of fifty percent (50%) or more of the area proposed to be altered, or by the owners of at least fifty percent (50%) of the frontage immediately in the rear or along the side boundaries thereof within three hundred (300) feet of the area proposed to be changed, or by the owners of at least fifty percent (50%) of the frontage directly opposite and across a public street, Highway or alley from the area proposed to be altered, action on such Ordinance may be deferred until the county zoning agency shall have had a reasonable opportunity to ascertain and report to the county board as to the authenticity of such ownership statements. Each signer of such protest shall state the amount of area or frontage owned by him, and shall include a description of the lands owned by him. If such statements are found to be true, such Ordinance shall not be adopted except by the affirmative vote of three-fourths (3/4) of the members of the county board present and voting. If such statements are found to be untrue to the extent that the required frontage or area ownership is not present, such protest may be disregarded.

(9) Effectuation.

(A) If a town affected by the proposed amendment disapproves of the proposed amendment, the town board of such town may file a certified copy of the resolution adopted by such Board disapproving of the petition with the county zoning agency prior to, at or within ten (10) days after the public hearing. If the town board of the town affected in the case of an Ordinance relating to the location of boundaries of Districts files such a resolution, or the town boards of a majority of the towns affected in the case of all other amendatory Ordinances file such resolutions, the county zoning agency may not recommend approval of the petition without a change but may only recommend approval with change or recommend disapproval.

- (B) If any proposed Ordinance amendment makes only the change sought in the petition, and if the petition is not disapproved at or within ten (10) days after the public hearing by the town board of the town affected in the case of an Ordinance relating to the location of district boundaries or by the town boards of a majority of the towns affected in the case of all other amendatory Ordinances, it shall become effective upon passage by the county board. The county clerk shall record in his office the date on which such Ordinance becomes effective and he shall notify the town clerk of all towns affected by such Ordinance of such effective date, and also insert such effective date in the proceedings of the county board. Any other such amendatory Ordinance which would be a change from the change sought in the petition, when so adopted by the county board, shall within seven (7) days thereafter be submitted in duplicate by the county clerk, by registered mail, to the town clerk of each town in which lands affected by such Ordinance are located. If, after forty (40) days from the date of such adoption, a majority of such towns have not filed certified copies of resolutions approving such amendment with the county clerk or, if within a shorter time, a majority of the towns in which the Ordinance is in effect have filed certified copies of resolutions approving the amendment with the county clerk, the amendment shall thereupon be in effect in all the towns affected by the Ordinance. Any such Ordinance relating to the location of boundaries of Districts shall, within seven (7) days after adoption by the county board, be transmitted by the county clerk by registered mail only to the town clerk of the town in which the lands affected by such change are located and shall become effective forty (40) days after adoption of the Ordinance by the county board unless such town board prior to such date files a certified copy of a resolution disapproving of such Ordinance with the county clerk. If such town board approves the Ordinance prior to the forty (40) day limit, said Ordinance shall become effective upon the filing of the resolution of the town board approving same with the county clerk. The county clerk shall record in his office the date on which such Ordinance becomes effective, and he shall notify the town clerk of all towns affected by such Ordinance of such effective date, and also make such report to the county board, which report shall be printed in the proceedings of the county board.

When any lands previously under the jurisdiction of a county zoning Ordinance shall have

been finally removed from such jurisdiction by reason of annexation to an incorporated municipality, and after the regulations imposed by the county zoning Ordinance have ceased to be effective as provided in Section 59.69(7) of the Wisconsin Statutes, the county board may, on the recommendation of its zoning agency, adopt such amendatory Ordinances and shall remove or delete such annexed lands from the official zoning map or written descriptions without following any of the procedures provided in Section 59.69 (5)(a) to (e), Wisconsin Statutes, and such amendatory Ordinances shall become effective upon passage and publication. A copy of such Ordinance shall be forwarded by the county clerk to the clerk of each town in which the lands affected were previously located. Nothing in this paragraph shall be construed to nullify or supersede the provisions of Section 80.64 of the Wisconsin Statutes.

(2) Continued effect of Ordinance:

Whenever any area which has been subject to a county zoning Ordinance petitions to become a part of a village or city, the regulations imposed by such county zoning Ordinance shall continue in effect, without change, and shall be enforced by such village or city until such regulations have been changed by official action of the governing body of such village or city, except that in the event an Ordinance of annexation is contested in the courts, the county zoning shall prevail and the county shall have jurisdiction over the zoning in the area affected until ultimate determination of the court action.
