### Email Threats

On Thursday, December 13, 2018, the Waukesha County Sheriff Office was advised by several businesses in Waukesha County that they received an email bomb threat. The emails state that they are working with others and there have been multiple bombs placed in various locations in the building. The recipient of the email is directed to pay money in the form of bitcoins in order keep the bombs from being detonated.

We have investigated the calls we have received and none of them have been found to be credible.

The Wisconsin Statewide Intelligence Center (WSIC) is currently monitoring a nationwide influx of email style bomb threats being sent to government and private sector entities across the state. The WSIC is unaware of any legitimate events resulting from the threats but is monitoring the situation closely. Versions of the emails do vary slightly.

If you receive any of these emails, we recommend that you do not click on the link associated with the email and contact your local law enforcement agency.

Lt. Carini  
Waukesha County Sheriff's Office
