Project Scope & Description

Provide annual funding for a countywide culvert replacement program.

Location

Various

Analysis of Need

The Public Works Department replaces a number of culverts every year because of deterioration. This program is designed to address larger culvert structures that require extensive design, more land acquisition and have higher construction costs. These larger culvert sites do not meet "bridge" criteria, and therefore are not eligible for federal bridge aid. Projects in this program are 100% county funded. The county averages one culvert replacement per year under this program. Individual culvert locations are generally designed the year prior to construction.

Alternatives

Schedule individual projects as needed.

Ongoing Operating Costs

The projects do not require departmental budget operating expenditures. Projects are reviewed by County engineering staff.
