Muskego Park is part of the Waukesha County Park System. This 8,500-acre, natural resources-based system consists of diverse landscapes, high-quality natural areas, a variety of trails, and beautiful lakes, ponds, and waterways.

This 193-acre parcel was purchased in 1958 as the County's first regional park. It is located in the City of Muskego and offers many recreational opportunities along with beauty and tranquility.

Many trails wind through Muskego Park Hardwoods, offering a tranquil atmosphere and home to abundant wildlife. You will find woodpeckers, cerulean warblers, barred owls, and rose-breasted grosbeaks.

The State of Wisconsin Scientific Area Preservation Council named the 60 acres of hardwoods located in the Park a State Scientific Area. The area preserves valuable plant communities, demonstrates conservation practices, and offers opportunities to study the region's natural history.

The forest has also been recognized and dedicated as part of the national Old-growth Forest Network.
