Mammograms and Medicare coverage

Part B covers screening mammograms to check for breast cancer before you or a doctor may be able to find it. Every woman is at risk, and this risk increases with age. Breast cancer can usually be treated when found early.

Am I covered? If you're a woman 40 or older, Medicare covers an annual screening mammogram. Medicare also covers diagnostic mammograms and, if you're a woman between 35–39, one baseline mammogram.

Recognizing the Caregiver in You: The Journey to Self-Identification

Would you consider yourself a caregiver?

There are plenty of family members who perform care-related tasks without calling themselves caregivers.

Some of the obstacles in identifying oneself as a caregiver are:

- ⇒ Adherence to a historic family role
- ⇒ Insufficient exposure to the caregiver concept
- ⇒ Lack of caregiving intensity
- ⇒ Gender-based assumptions
- ⇒ Cognitive dissonance arising from relationship changes
- ⇒ Denial about a relative requiring care or one's own role in providing that care

Family members who are caring for aging or disabled relatives often feel a variety of mixed emotions about the emergence of the caregiver role in their lives. These emotions can be deep and poignant. They also should not be ignored. They also often present new and unexpected challenges. Caregiving has a way of disrupting relationship patterns and consuming your time, resources, and energy. As the journey of family caregiving evolves over time, caregivers begin to see themselves and their loved ones differently. They are also prone to create narratives reflecting how they perceive their caregiving experiences.

A researcher looked at how family caregivers represented themselves and their experiences in online settings. She coded and categorized these online narratives and reported finding **four distinct family caregiving identities**:

- 1) **THE PRISONER**, which is defined by a sense of being trapped by the responsibility of caregiving.
- 2) **THE CRUMBLING CAREGIVER**, which focuses on extreme exhaustion in providing care.
- 3) **THE COMPANION CAREGIVER**, which focuses on the relational aspects of providing care.
- 4) THE REDEEMED CAREGIVER, which is defined by growth through difficulty.

What type of caregiver are you? Does one of the above caregiving identities seem to describe how you feel about the caregiver role in your life? Are you experiencing caregiver role strain?

Self-identification as a caregiver, including the underlying feelings about the role, is what **opens the door to targeted services and support**. Family caregivers may benefit from counseling, respite care, formal care providers, support groups, financial assistance, and/or community workshops.

It is best when support is tailored to individual needs. Care managers, social workers, counselors, gerontologists, and caregiver support group facilitators are among the professionals equipped to help a family caregiver identify and access the most appropriate services and support.

Floating Apples by Candlelight

- Craft by Sincerely Marie

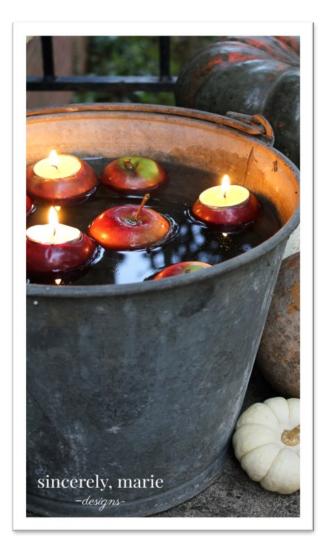

What You'll Need:

Apples
Tea light candles
Bucket (or other container)
Water
Sharp knife or melon baller

Instructions:

- 1. Fill your bucket or metal tub 3/4 full.
- 2. Place apples in to see how they will float. Use the apples that float upright rather than on their side.
- 3. Carve a well into an apple that is about the same size as the tea light candle.
- 4. Place the tea light candle into the apple, place the apple into the basin, and light when ready. Never leave candles unattended. Enjoy!

Energy Assistance and Weatherization for Waukesha County Residents

ENERGY ASSISTANCE

The Wisconsin Home Energy Assistance Program (WHEAP) provides assistance for heating costs, electric costs, and energy crisis situations. Operating with federal and state funding, the program provides assistance to households across the state to help lower the burden incurred with monthly energy costs. Most types of fuel are eligible to receive assistance. Whether you use wood, propane, natural gas, electricity, or fuel oil to heat your home, energy assistance is available if you qualify. Available October 1st through May 15th.

WEATHERIZATION AGENCY PRIORITIES AND SERVICE

The Division of Energy contracts with local agencies to provide basic weatherization services which:

- Reduce your home heating bills
- Save energy
- Make your home warmer in the winter and cooler in the summer.

If you are eligible for weatherization services based on your WHEAP application, your application information will be referred to the local weatherization agency. Households selected for potential weatherization services will be contacted by the weatherization agency. The agency will then make arrangements to have an energy auditor look at your home to see what can be done to make it more energy efficient. Weatherization services differ with each home depending on how it was built and its condition.

Some common weatherization services include:

- Insulate attics, walls and floors
- Insulate or replace water heater
- Install energy efficient lighting
- Reduce air leakage
- Repair or replace furnace
- Test and/or replace refrigerator
- Perform a general health and safety inspection
- Provide information about maintenance and energy conservation

How to Apply

WHEAP benefits are not guaranteed to eligible households. When funds have been exhausted for a program year, there are no benefits issued to households regardless of eligibility.

INCOME GUIDELINES FOR THE 2025-2026 HOME ENERGY PLUS PROGRAM YEAR

60 PERCENT OF STATE MEDIAN INCOME GUIDELINES

HOUSEHOLD SIZE	1 MONTH INCOME	ANNUAL INCOME
1	\$ 3,201.75	\$ 38,421
2	\$ 4,186.92	\$ 50,243
3	\$ 5,172.08	\$ 62,065
4	\$ 6,157.33	\$ 73,888

Home Energy Plus uses a previous one month gross income test which is annualized to determine program income eligibility. Income for people who are self-employed, farmers, or seasonal workers is based on federal income tax forms for the previous year.

Savvy Caregiver Training

Are you caring for someone with Alzheimer's disease or another form of progressive dementia?

Savvy Caregiver is a proven curriculum developed by Dr. Kenneth Hepburn and colleagues at the

University of Minnesota. Grounded in research this educational series teaches strategies, practical real-world skills, and helps to reduce stress, both in the caregiver and the person for whom care is being provided. Savvy Caregiver increases the caregiver's sense of competence, and well-being even though there may be little experience.

The course will cover:

- understanding the career of caregiving
- different types of dementia
- how the decline in cognition affects behavior
- dealing with the feelings that arise while caregiving
- fitting tasks and activities to the person's abilities
- decision making skills

Navigating Medicare

Medicare and Medicaid Turn 60

July 30, 2025, was the 60th anniversary of Medicare and Medicaid.

The Centers for Medicare and Medicaid Services (CMS) shared a timeline of Medicare and Medicaid milestones, a then-and-now handout (located on previous page, 16), and more content celebrating these important programs.

We also want to celebrate SHIP team members and all aging and disability staff who help people with Medicare and Medicaid. Many of these milestones are thanks in part to their advocacy. They have been there to explain these changes to beneficiaries and empower them to navigate an evolving healthcare landscape. We thank them for their hard work and continued role in the story of Medicare and Medicaid.

My Journey to Give Back to the Elderly

By Ester Milchtein, Volunteer Ombudsman

In 2022 I applied to become a Volunteer Ombudsman to serve older adults living in long term care homes. I didn't know Volunteer Ombudsmen and Ombudsmen existed until our family needed one.

The word Ombudsman (Om-budz-man) is Scandinavian. In North America this has come to mean "helper," advocate or "voice of the people." In Wisconsin, the Ombudsman Program is administered by the State of Wisconsin Board on Aging and Long Term Care (BOALTC), and advocacy services are provided at no cost. The mission of the Long Term Care Ombudsman Program is to seek resolution of problems and advocate for the rights of clients with the goal of enhancing quality of life and quality of care.

Volunteer Ombudsmen are volunteers like me who work with residents and their family members to address concerns and complaints by providing support, education, and empowerment. Volunteer Ombudsmen can assist residents by encouraging them to self-advocate or by providing a voice for those who cannot. A Volunteer Ombudsman meets with designated nursing home staff after each visit to share resident's comments and observations. With resident permission, a Volunteer Ombudsman can report specific complaints to the nursing home staff for resolution. A Volunteer Ombudsman also provides updates and referrals to the Regional Ombudsmen who are full-time employees of BOALTC.

For many years my dear mother, of blessed memory, was assisted bv Ombudsman in another state. I am very grateful for meetings all the attended, even when it was just to be a presence to show that mother my mattered. The Ombudsman was there to listen, support and to explain the federal laws, namely those laws that pertained to the rights of long-term care consumers. She was someone outside of the facility, rehab or hospital that could explain what we didn't understand, and give an honest, down to earth explanation of my mother's rights. An Ombudsman is someone who can be reached out to for assistance.

Being a Volunteer Ombudsman for the Board on Aging and Long Term Care is a privilege for me

and really does make a difference in the lives of the residents served, as well as myself. Anyone interested in applying to become a Volunteer Ombudsman can call 1-800-815-0015 for more information.

I have requested the Elder Benefit Specialist's (EBS) assistance comparing Medicare Advantage and/or Part D plan options. I understand that the accuracy of the Plan Finder depends upon the information given by the Center for Medicare and Medicaid Services, as well as information I have provided to the EBS Program regarding my medications. The Medicare website is subject to revision and/or error. The most accurate information is available by contacting the plan directly. The EBS is not recommending any particular plan. I take full responsibility for the choice that I make. I understand that it is my responsibility to handle all further matters related to enrollment. If I become aware that my enrollment did not go through, it is my responsibility to follow up with the plan. If I have reasor to believe that the enrollment was not successful, I will notify the plan and the EBS immediately. I understand that all enrollments must be made by December 7, 2025. I acknowledge that participants can generally only change plans once per year during the Open Enrollment Period (OEP). By enrolling in this plan now, I understand that, absent a special enrollment period, I may have to wait a year for the next OEP in order to drop or switch plans again. As part of the EBS Program, the EBS Program is required to report and share identifying and other information with the Wisconsin Department of Health Services EBS Program Manager and other relevant state employees for purposes of data reporting and quality assurance. This information also may be shared with funders, such as the Federal Government, as required. Aside from this exception, the EBS Program will not reveal client's information without the client's permission unless providing this information for the purpose of accomplishing the client's goals.						•
