(262) 548-7746

## Introduction

The Waukesha County Department of Public Works invites you to a public involvement meeting for the CTH YY (Pilgrim Road) pavement rehab project. The location of this meeting will be at the **Village of Menomonee Falls Village Hall Board Room 2245**. It will be an open-house format with a short presentation scheduled for **5:00 PM**. The purpose of this meeting is to introduce the project and to provide attendees with the opportunity to review exhibits, ask questions, and share input with the project team.

If you have comments or concerns regarding this project, there will be comment forms distributed at the meeting. Comments may also be emailed to the project contact listed on this page.

## Project Overview

Waukesha County is planning improvements to CTH YY (Pilgrim Road) from CTH VV to WIS 175 in the Village of Menomonee Falls. The approximately 3.4-mile project will rehabilitate the existing roadway pavement, improve the condition of Bridge B-67-57, and replace aging traffic signal equipment at key intersections. These improvements are needed to address the deteriorating condition of the roadway and infrastructure and to extend the service life of this important transportation corridor.

## Proposed Improvements

- Signal replacements at the intersections of CTH YY and Kendel Place, Mill Road, and CTH W (Good Hope Road)
- Interconnection of new signals with the signals at the CTH YY and CTH VV intersection.
- Pavement rehab of mainline pavement
- Repair, clean, and replace inlets if necessary
- Spot repair and replacement of curb and gutter
- Bring existing curb ramps up to meet current ADA standards
- Guardrail and approach slab replacement on Structure B-67-57 over Kohler Lane and the Union Pacific Railroad.

## Project Schedule

- Environment Document – July 2026
- Final Plans – June 2027
- Public Information Meeting #2 – March 2028
- Construction is currently scheduled for 2028
