WAUKESHA COUNTY DEPARTMENT OF PARKS AND LAND USE STAFF REPORT AND RECOMMENDATION TEXT AMENDMENTS TO THE WAUKESHA COUNTY SHORELAND AND FLOODLAND SUBDIVISION CONTROL ORDINANCE

FILE NO.:

SZ-1459N

DATE:

August 18, 2016

PETITIONER:

Waukesha County Park and Planning Commission

REQUEST:

Text amendments are proposed to the Waukesha County Shoreland and Floodland Subdivision Control Ordinance to incorporate minimum lot size and width requirements which are currently specified in the Waukesha County Shoreland and Floodland Protection Ordinance (SFPO).

PUBLIC HEARING DATE:

July 12, 2016.

PUBLIC COMMENT:

One individual stated that he did not fully understand the proposed amendment. The Planning and Zoning Staff clarified that recent law changes necessitated the insertion of minimum lot size and area requirements into the County subdivision control ordinance to ensure that the density constraints of the County Development Plan can be implemented. Staff clarified that the amendment is limited to adding a single table to the ordinance that specifies lot size requirements. The lot size information will be cross referenced within the SFPO.

COMPLIANCE WITH THE COMPREHENSIVE DEVELOPMENT PLAN FOR WAUKESHA COUNTY:

The County Development Plan calls for different densities and patterns of development to allow for a wide range of land uses and development patterns in appropriate settings. The proposal is to maintain the existing lot size requirements of the SFPO by introducing a table into the subdivision control ordinance which ensures that the County Development Plan can be successfully implemented as new development and land divisions are proposed.

STAFF ANALYSIS:

Recent law changes prompt the need to incorporate minimum lot size and width standards that have long been part of the SFPO into the Shoreland and Floodland Subdivision Control Ordinance. The proposal is to list zoning district lot area and width requirements in a table format within the subject ordinance. A cross reference to these area and width requirements is proposed to remain as part of the pending related SFPO update. A copy of the proposed text amendments is attached as Exhibit "A." A copy of the attached proposed text amendments (shown in final format with all changes accepted) and a "track changes" version (deletions in strike-through and text additions in colored font) are available for viewing on the Planning and Zoning Division webpage at www.waukeshacounty.gov/planningandzoning - click "2016 Shoreland and Floodland Subdivision Control Ordinance Amendments."

Referred on: 09/08/16 File Number: 171-O-037 Referred to: LU 6

STAFF RECOMMENDATION:

It is the opinion of the Planning and Zoning Division Staff that this request be <u>approved</u>. The introduction of a table containing lot area and width standards is a minor change to the ordinance that ensures that density standards of the County Development Plan can be implemented.

Respectfully submitted,

Jason Fruth
