

## **Project Summary – April 7, 2025**

**CTH VV (Silver Spring Drive)  
Westbound Bridge over Menomonee River B-67-085  
Waukesha County  
Project I.D. 2753-02-03/73**

### **Project Overview**

The existing bridge on CTH VV (Silver Spring Drive) over the Menomonee River is a three span concrete deck-girder structure. The bridge was built in 1964. A concrete overlay was constructed on the bridge deck in 1994. The entire deck and railing system is in poor condition.

The project scope is bridge rehabilitation primarily consisting of deck and railing replacement. Other portions of the bridge will be repaired. The project will include new approach pavement and guardrail.

The westbound bridge will be closed to traffic for the duration of the project. Traffic will be diverted over the adjacent (eastbound) bridge. There will be one travel lane in each direction on CTH VV at the project site. The speed limit through the work zone will be lowered to 35 mph. The project design and construction will use both federal funds and county funds. Design began in 2023 and construction begins April 7, 2025 through early fall.

### **Anticipated Schedule**

Utility relocation - None

Construction – April 7 through early fall.
