

Project Summary – April 17, 2026

CTH NN

Signals at CTH EE & Fairwinds Blvd

Waukesha County

Project I.D. 2818-05-01/71

Project Overview

The existing signalized intersections of CTH NN/CTH EE and CTH NN/Fairwinds Blvd, adjacent to Mukwonago High School see about 10,000 vehicles per day. The signal equipment at these intersections is aging inefficient.

The proposed project involves replacing traffic signal equipment at two intersections along CTH NN in Mukwonago, WI: CTH NN & CTH EE (School Road) and CTH NN & Fairwinds Blvd. Key enhancements include retroreflective backplates, energy-efficient LED streetlights and signals, fiber optic cable for interconnectivity, video detection updates, and optimized signal timings.

Anticipated Schedule

Design – 2026

Project LET – February 2027

Construction – 2027
