ELECTED OFFICIALS

How to Communicate with your federal and state legislators:

There are several ways to communicate with your elected officials such as phone, fax, email, personal visits, and attending public forums. Contacting your Representative or Senator, or any public official, shows that you care enough about an issue to take the time to convey its importance to people who can help you make a difference.

Written Correspondence

- **Identify yourself as a constituent:** Lawmakers give more weight to correspondence received from their district or state.
- **Bill numbers and issues:** In the first paragraph identify the bill number and/or the issue on which you want action and state what action you want, if appropriate.
- **Make your message personal:** Tell your own story about how it affects you, your family and community.
- **Ask a question (and get a response!):** By asking a question and seeking a response, in your fax or email, you show that you expect to continue the dialogue with the elected official.

- **Keep it to one page:** Try to deliver your message in one page and be sure your name and return address are clearly printed.

Visiting a Public Official

- **Prepare:** Plan what you want to say and stick to the issue. Keep your message simple, direct, and brief. Before you visit, learn as much as you can about the issues and the elected official with whom you will meet.
- **Strength in numbers:** Go with a group of people. Designate a spokesperson and an order of speaking.
- **Be on time.**
- **Always say thank you:** Remember to thank the legislator/staff before beginning the rest of your message.
- **Keep your message as focused as possible:** Be specific about bills you would like the legislator to vote in favor of or against. Try to present your key message/topic within five minutes.
- **Know how the issue affects you and/or your community.**
- **Tell your personal story:** You are unique! In telling your story you are conveying your message in the best possible way.
- **Talking to staff is useful:** Meeting with the staff person can be just as useful—or more so—than meeting with the elected official. It is important to educate staff members on your position because they will communicate your message to the official.
- **Bring materials:** Bring educational materials to leave with the legislator for future reference. Be sure to include your business card or contact information.

ESTATE RECOVERY PROGRAM (WISCONSIN)

Estate Recovery Program (Wisconsin)..... (608) 264-6755

The Wisconsin Estate Recovery Program seeks repayment for the cost of certain long-term care services paid for on behalf of members by Medicaid, BadgerCare Plus, COP, or non-Medicaid Family Care or any services provided by the Wisconsin Chronic Disease Program. Recovery is made from the estates of members, from the estates of their surviving spouses, from certain non-probate property, and from liens filed on their homes. Recovery is made after the assets of the member have been accounted for and higher priority expenses have been paid per Wis. Stat. 859.25. Recovery is made when a member and the member's dependents no longer need those assets.

The Money recovered is returned to the programs and used to pay for care for other members. Long-term care services for which the program seeks repayment include, but are not limited to, nursing home services and home care services.

Wisconsin is required by state and federal laws to recover the costs of certain benefits paid on behalf of health care members. These laws are designed to recover assets from those who got benefits.

Note: Members who are age 55 or older, living in the community, and not receiving services related to long-term care or any services through WCDP will not be affected by estate recovery.

HOUSING RESOURCES AND SENIOR PLACEMENT SERVICES

Companies that help families identify appropriate placement for senior housing options at no charge, may have limited options, providing referrals to only those facilities who are under contract. Please be aware that some agencies may charge a referral fee to the facility that you ultimately decide upon. This may result in an “application charge” to the consumer.

INDEPENDENT LIVING

Independent Senior Living facilities offer housing designed for older adults. Most facilities have recreation rooms / common areas to socialize and some have organized activities and also offer meal plans that can be purchased. Although these communities are designed for independent older adults, individuals can arrange for supportive services. Some of these facilities may offer below market rates based on income requirements. The following is a list of potential questions to ask of a new landlord or housing complex. This is not a complete list and not all these questions will apply in each individual rental situation.

These questions can be used for Independent or Subsidized housing complexes.

- Are there units available? If not, is there a wait list? How long is the waitlist?
- How much is rent and how is it calculated? Is there a minimum rent?
- Is there an age requirement?
- Can people with disabilities of any age apply? If so, what proof do you need?

- What is the security deposit?
- Is there a mandatory lease period?
- Is there a fee for the application?
- Any other requirements before or after the application process?
- Can you mail me an application?
- Can an application be completed online?
- How many units do you have?
- What type of units do you have? (1 bedroom, 2 bedroom, family size unit, condos)
- How many of the units are ADA and/or Wheelchair compliant?
- Are there elevators?
- Is it possible to tour an apartment or the building?
- Are there photos available online?
- Is there off street parking?
- Does your facility offer van service to a grocery store?
- Are there common areas for socialization?

LOW INCOME / SUBSIDIZED HOUSING

Subsidized housing, sometimes referred to as low-income housing, provides immediate relief to tenants in the form of a rent subsidy. Tenants apply to receive a subsidy in which they generally pay a pre-determined percentage of their gross adjusted income. The remaining rent is paid directly to the landlord as a subsidy. There are many types of subsidies available, and their characteristics are unique to each project/building. The listings to follow are all project-based vouchers meaning the subsidy is tied directly to the building and is not portable. Applications can be completed online or contact the apartment complex directly.

The following is a list of apartments that receive some form of housing assistance. Please contact each building to learn more about available apartments, waitlists, and pet policies.

RESIDENTIAL CARE APARTMENT COMPLEXES

Assisted living options are classified as a **Residential Care Apartment Complex (RCAC)** or “Assisted Living”. An RCAC is a type of “assisted living” where five or more adults reside.

Apartments must each have a lockable entrance and exit; a kitchen, including a stove (or microwave oven); and individual bathroom, sleeping and living areas.

This living option also provides to persons who reside within the facility, a maximum of no more than 28 hours per week of the following services:

- **Supportive Services:** Activities related to general housekeeping, transportation to access community services and recreational activities.
- **Personal Assistance:** Services related to activities of daily living, e.g., dressing, eating, bathing and grooming. The most common meal plan utilized by tenants of the RCACs is that it consists of two meals per day. Some provide 3 meals.
- **Nursing Services:** Health monitoring, medication administration and medication management.
- **Emergency Assistance:** An RCAC shall ensure that a tenant's health and safety are protected in the event of any emergency and shall be able to provide emergency assistance 24 hours a day.

RCACs are **not** for those persons who have a **physician activated** Health Care Power of Attorney unless they will reside within an apartment with a competent spouse. RCAC's are also **not** for people who are so medically complicated that they require a higher level of daily care. Certified RCACs are inspected annually, via unannounced surveys and complaint investigations.

ADULT FAMILY HOMES

Adult Family Homes (AFHs) are ideal for persons who seek small congregate care settings. An AFH is defined as “a place where one to four adults who are not related to the operator reside and receive care, treatment, or services that are above the level of room and board and that may include up to seven hours per week of nursing care per resident.” AFHs can admit any of the populations listed in the legend below. The minimum age requirement for residing in an AFH is 18 years. State licensing specialists inspect AFHs every two years, via unannounced surveys. However, a facility may be visited between these inspections if there are any complaints received.

PUBLICLY FUNDED LONG TERM CARE PROGRAMS

General information:

Long-term care programs provide people with the assistance they need in order to remain as independent as possible. Whether assistance is needed as a result of aging, physical disability, or intellectual/developmental disability, long-term care programs can help meet a wide range of needs. Services available through these programs can include personal care, housekeeping, job coaching, and nursing. Long-term care programs offer these services in a variety of settings, such as in the home, workplace, group home, residential facility, or nursing home.

There are multiple long-term care programs offered in the State of Wisconsin. One of the main goals of these programs is to help people access the services and supports they require to meet their needs. The State of Wisconsin contracts with Managed Care Organizations (MCOs), which are agencies responsible for facilitating the services offered through long-term care programs. Individuals participating in any of the long-term care programs may be required to pay a cost share in order to remain enrolled in the program.

Long-term care offers services to the following populations:

- Frail older adults (65 years or older)
- Adults with physical, intellectual, and/or developmental disabilities (18 years or older)

Please note that children with physical and/or intellectual/developmental disabilities can start planning the transition to adult services as soon as they turn 17 years and 6 months.

For more information about long-term care options and eligibility requirements, please contact the Aging and Disability Resource Center of Waukesha County at (262) 548-7848 or (866) 677-2372.

FAMILY CARE

Family Care is a comprehensive long-term care program that offers individual case management. Once enrolled in Family Care, you would be assigned a care team consisting of a care manager and a registered nurse. Your team would assist you in developing a care plan that focuses on your long-term care needs.

Waukesha County offers a choice of three Managed Care Organizations that facilitate Family Care services: Community Care, Inclusa, and My Choice Wisconsin.

For more information about Family Care, please call the ADRC or go to: www.dhs.wisconsin.gov/lc/lc.htm

FAMILY CARE PARTNERSHIP

Family Care Partnership provides a full range of long-term care, primary, acute, and preventive care delivered through interdisciplinary teams that include a registered nurse, nurse practitioner, care manager, doctor, and other professionals who work together to ensure your social, personal and medical care needs are met.

The Family Care Partnership program is offered by two Managed Care Organization in Waukesha County: Community Care and My Choice Wisconsin.

For more information about Family Care Partnership, please call the ADRC or go to:
www.dhs.wisconsin.gov/wipartnership/index.htm

PACE (PROGRAM OF ALL-INCLUSIVE CARE FOR THE ELDERLY)

PACE is offered to individuals aged 55 years and older. The program is offered by one Managed Care Organization: Community Care. PACE integrates long-term care, health and medical services, and prescription drug management. Medicaid and Medicare drug services are managed by PACE which means that participants do not need a separate Medicare Part D plan. A PACE care team includes a care manager, registered nurse, PACE doctor, and PACE Center Coordinator.

IRIS (INCLUDE, RESPECT, I SELF DIRECT)

IRIS is Wisconsin’s Medicaid long-term support Self-Directed Waiver Program. It is available in Wisconsin with the same eligibility requirements as Family Care and Family Care Partnership. In IRIS, you direct your own services and supports rather than being managed by an MCO. The State contracts with an Independent Consultant Agency (ICA) and a Fiscal Employment Agent (FEA) that are available to assist you in managing your care plan. The ICA oversees a group of Independent Consultants (IC) who help you to plan for the support and services you need within the cost of your allocated budget (which is determined by the Long-Term Care Functional Screen). Everyone in IRIS will receive help from a Fiscal Employer Agent (FEA). The ADRC will offer you options and you will choose which fiscal employer agent you want to work with. The fiscal employer agent does background checks on workers you hire, processes payroll, manages the amount of federal and state taxes to take out of your workers’ checks, and helps with other employer tasks.

RESPITE

Respite Care (Caregiver Assistance)

Relief time for an individual that is providing care for a sick, aging, or a person with a disability in respite. If you are providing care, you are a caregiver. Respite is possible when the individual who is being cared for is temporarily placed under someone else's care. Respite is a name for a break for caregivers. This care can be short-term or occasional and is available in several forms: in-home care, adult day care, residential-based care, or camps. For details on respite options and possible financial assistance, call the ADRC at (262) 548-7848.
