

## **Project Summary – June 12<sup>th</sup>, 2025**

### **CTH Z (Northey Road to Scuppernong Creek)**

### **HRRRP Project**

### **Waukesha County**

## **Project Overview**

The newly proposed capital project has not been approved by the County Board yet, but DPW is applying for HSIP-HRRRP federal funding in 2025. The project is a rehabilitation of the existing asphalt pavement. The 4.83-mile segment is located in the town of Ottawa and has an average annual daily traffic (AADT) of about 700. The scope includes implementing safety measures such as centerline rumble strips, 6-inch high visibility pavement markings, removing trees/vegetation, sign upgrades, clear zone enhancements and pavement treatments. County-funded pavement rehabilitation will be done at the same time as the federally funded safety improvements to effectively install pavement related safety improvements.
