

Project Summary/Update

**Moorland Road (CTH O)
CTH HH to Grange Avenue
Waukesha County
I.D. 2722-08-02/22/72**

Project Overview

Moorland Road is one of the busiest roadways in Waukesha County and is a significant north/south corridor for trucking and commuter vehicles. This project will reconstruct and add additional lanes to CTH O (Moorland Road), between CTH HH (College Avenue) and Grange Avenue to create a continuous 4-lane roadway to IH 43. The roadway will have a median to provide for separation of the opposing movements and allow safer turning movements. The roadway will stay on its current alignment and will be situated within the existing 130-foot-wide corridor. Some additional land acquisition and easements may be required.

The 1.3-mile-long project limits begin approximately 650-feet south of CTH HH and ends approximately 600-feet north of Grange Avenue. Improvements will bring this segment of Moorland up to current standards, including: significant grading of the hill just south of Grange, replacing existing pavement, reconfiguring intersections, replacing traffic signals, and storm water management. The existing path along the western side of the roadway will be maintained. The options to add additional sidewalk and/or roadway lighting were considered and rejected by the City of New Berlin.

The roadway will be closed to traffic during construction, but access to businesses and property owners adjacent to Moorland Road will be maintained during construction. A detour will be provided.

The project is being built through the Surface Transportation Program (STP) funding mechanism. The STP program allows federal funding to be used for a wide range of transportation-related activities, including projects on higher function local roads not on the State Trunk Highway system, and local safety improvements. Waukesha County, WisDOT, and the Federal Highway Administration have all committed funds to build the project.

Anticipated Schedule

Data Gathering, Design and Plan Development – Spring 2023 thru December 2028
Public Involvement Meeting #1 – February 2024
Public Involvement Meeting #2 – Spring 2027
Real Estate – Fall 2026
Project LET – January 2029
Construction – Spring 2029
