Future Stars Goaltending training focuses on making goaltenders more efficient through game situation moments with high repetition drills. Master the basics with high level training on the ice and off. With our instructors we believe first and foremost in the value of effective communication between the athlete and coach to help learn proper technique and create good habits.

Keys to the STARS**

Stance: Your stance is where everything a goalie does starts from. its the most important part of your skill package.

Save Selection: Making the right save selection for the shot. Having a list of saves such as Butterfly, Post load, Glove and Blocker saves, etc.

Recovery: Quickness of recovery is key to your play. Working on moving in and out of your stance positions is a very important thing for a goalie.

Angles: Playing angles correctly and confidently will mean that most shots will simply hit you and most of your saves will require very little movement and effort.

Mental Game: Goaltending is a unique position and requires special training and mental focus. Developing ways to focus and relax are a keys.
