

Nonconforming Structure Worksheet

A **nonconforming** structure is limited to **less than 50%** of its **exterior structural members** being **removed and/or replaced** over the **lifetime** of the structure. Additions to nonconforming structures shall comply with the ordinance provisions and are not subject to this worksheet.

- ← Roof = 20 % of improvements
- ← Walls = 60% of improvements
- ← Foundation = 20% of improvements

Please describe in detail the type of **roof** improvements/repair, which is equivalent to the removal and/or replacement of the structural members of rafters and trusses.

Please estimate the percentage of the roof that will be improved/repared with this project.

_____ % x 0.2 = %

Please describe in detail the type of **exterior wall** improvements/repair, which is equivalent to the removal and/or replacement of the structural members of all exterior walls.

Please estimate the percentage of the walls that will be improved/repared with this project.

_____ % x 0.6 = %

Please describe in detail the type of **foundation** improvements/repair, which is equivalent to the removal and/or replacement of the structural members of the foundation walls or floor.

Please estimate the percentage of the foundation that will be improved/repared with this project.

_____ % x 0.2 = %

Total Percentage of Structural Members modified = % with this project.

FOR OFFICE USE ONLY

Total Percentage Lifetime = _____ % of structural members removed/replaced as of _____.
(date)

Variance(s) previously granted _____
