MOTION: Bell moved, second by Aprahamian to approve the minutes from May 23, 2016. Motion carried unanimously.

Continue Review of Workgroup Work Plan & Logic Model

Luczaj informed the workgroup that the Phase VI application requires that all four workgroup's logic models be combined into one system-wide logic model for submission. Luczaj distributed an example of a logic model diagram and explained how it should look. The workgroup agreed that outputs are measurable results of program activities that lead to desired outcomes listed. They are not, however, the changes the program will produce but will help assess how well the program is being implemented. The workgroup discussed in detail each activity and developed outputs accordingly.

Dunn and Bell will compile and incorporate the outputs discussed at the meeting and distribute the revised logic model to the workgroup.

Discuss Next Steps

The workgroup will conduct a final review of the logic model at the next meeting.

Adjourn

The meeting adjourned at 1:10 p.m.
